NOTE 1 DESCRIPTION OF PLAN

The following description of the DDS, LLC ("Company") Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan inception

The inception date of the Plan was May 31, 1981. The Plan was restated on October 1, 2013 and then March 1, 2015.

General

The Plan is a defined contribution plan covering all employees who have completed three months of service and are age eighteen (18) or older. An employee is eligible for discretionary non-elective contributions only if the employee has also worked 1,000 hours during the year and is employed on the last day of the plan year, unless the employee died, became disabled, or reached normal retirement age during the plan year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of eligible earnings, as defined in the Plan, limited to the provisions of Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions to the Plan equal 100% of the aggregate salary reduction contribution up to 2%. At the discretion of the Board of Directors, additional non-elective profit sharing contributions can be made.

Participant accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contribution and may be charged with an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary and/or non-discretionary contribution(s) of their accounts plus actual earnings thereon is based on years of service. Participants are fully vested after completion of four years of service, or if they have reached normal retirement age of 65, die, or become disabled.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balances. Loans are made on a pro rata basis from all investment funds in which an account is invested. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or, as applicable, in Plan specified annual installments. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan as of December 31, 2014, but have not been paid, totaled $0.

Forfeited accounts

Forfeited nonvested accounts are used to pay employer contributions and/or administrative expenses. Forfeited nonvested accounts as of December 31, 2014 and 2013, totaled $2,372 and $4,213, respectively. For 2014 and 2013, $58,585 and $0 of forfeitures were used to reduce employer contributions. No forfeitures were used to reduce administrative expenses.

Investment options

A participant may direct his/her contributions in one percent increments in any one or more of the Plan Sponsor's pre-determined investment options. Participants may change their investment options daily.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement attribute for that position of Net Assets Available for Benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Plan administrator has determined at December 31, 2014 and 2013 that the difference between fair value and contract value attributable to fully benefit-responsive investment contracts is immaterial to the financial statements. Accordingly, the Plan administrator has taken the position that contract value attributable to fully benefit-responsive contracts approximates fair value as of these reporting dates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make note repayments and the Plan administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Investments valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the market value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid for directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

Subsequent events were evaluated through July 29, 2015, which is the date the financial statements were available to be issued.

NOTE 3 LIMITATION ON SCOPE OF EXAMINATION

The Plan Sponsor has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan Administrator instructed its independent auditors not to perform, and they did not perform, any auditing procedures with respect to information certified by the Trustee.

Ascensus Trust Company, the Trustee of the Plan, has certified that the investment information reported in the financial statements, the accompanying notes, and the supplementary schedule to be complete and accurate pursuant to 29 C.F.R. 2520.103-5(c).

NOTE 4 FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: The fair value of mutual funds are based on quoted net asset values of the shares held by the Plan at year end. Mutual funds are classified as a Level 1 investment.

Common collective trust: The stable value fund, held in a common collective trust, invests in conventional and synthetic guaranteed investment contracts (“GICs”) issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The stable value fund allows for earnings stability regardless of the volatility of the financial markets and is recorded in the accompanying financial statements at the net asset value (NAV) of units in the fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The common collective trust is classified as a Level 2 investment.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

The following tables set forth additional disclosures for the fair value measurement of investments that calculate net asset value per share (or its equivalent) as of December 31, 2014 and 2013:

Investment Type	Fair Value 2014	Fair Value 2013	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust	$ 352,155	$ 437,265	$ -	daily	daily

The collective trust fund's objective is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. To achieve this, the Fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 5 INVESTMENTS

(2) Investment represents 5% or more of the Plan's net assets at December 31, 2013.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as on investments held during the year) appreciated (depreciated) in value as follows:

Common collective trusts	$ 2,728
Mutual funds	453,936
Net appreciation in fair value of investments	$ 456,664

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the Internal Revenue Code and therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

In 2014, certain transactions occurred within or for the Plan that qualify as party-in-interest transactions. As defined by the US Department of Labor, a party-in-interest includes any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. Parties-in-interest to the Plan are comprised of Diversified Distribution Systems, LLC, AscensusTrust Company, Ascensus, Inc., Merill Lynch Wealth Management and Abdo, Eick & Meyers, LLP.
