NOTE A - DESCRIPTION OF PLAN

The following brief description of the Dutchland, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. The Plan was established July 1, 1997 and amended and restated thereafter. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility Requirements

The Plan is a defined contribution plan covering substantially all full-time employees of Dutchland, Inc. (the Company) who are at least 20 years old and have completed 90 days of service for employee deferrals and one year of service (1,000 hours) for employer contributions as of January 1, 2013. See Plan Amendments section below for modifications to eligibility since that date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management of the Company is responsible for oversight of the Plan. The retirement committee determines the appropriateness of the Plan's investment offerings and monitors investments.

Plan Amendments

Effective September 15, 2013, the Plan sponsor amended and restated the Plan with the adoption of the American United Life Insurance Company Defined Contribution Prototype Plan and Trust. The following is a list of significant changes to the previous Plan provisions:

- The age at which employees become eligible was changed from age 20 to age 21.
- Forfeitures are no longer permitted to be used to offset operational and administrative expenses.
- Service requirement for employer contribution eligibility was changed from one year to 90 days.

Effective February 17, 2014, the Plan sponsor amended the Plan so that forfeitures are permitted to be used to offset operational and administrative expenses.

Effective October 6, 2014, the Plan sponsor amended the Plan so that the service requirement for the employer contribution eligibility was changed from 90 days to one year.

Participation

An employee (other than an excluded employee) becomes a participant in the Plan on the first day of the calendar month coinciding with or next following the date the age and service requirements are met.

Contributions

Each year, participants may contribute up to 100 percent of annual pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Under current provisions of the Plan, the Company may make a matching contribution to all qualifying participants. The amount of the match is equal to 25 percent of all employee contributions up to the first 5 percent of eligible compensation. The Company determines the matching contribution each year. Matching contributions made by the Company amounted to $51,666 and $43,129 for the years ended December 31, 2014 and 2013, respectively. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. The Company elected not to make a discretionary profit sharing contribution for 2014 or 2013. Contributions are subject to certain IRS limitations.

NOTE A - DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if applicable, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service following a six-year vesting schedule as follows:

Years of Service	
Less Than One Year	0%
One Year	10%
Two Years	20%
Three Years	40%
Four Years	60%
Five Years	80%
Six Years	100%

For purposes of vesting, each year of service must include at least 1,000 hours of service. A participant becomes fully-vested automatically regardless of the vesting schedule, upon disability, upon death, and upon attainment of the Early Retirement Date (age 59½ and 5 years of service), or upon termination of the Plan.

Payment of Benefits

On termination of service, participants may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The portion of the participant's account to which they are not vested is a "forfeiture" and allocated in accordance with plan provisions.

Hardship withdrawals are allowed from employee elective deferrals and vested employer contributions in the event of financial hardship at the discretion of the Plan Administrator. A participant who receives a distribution of elective deferrals is prohibited from making elective deferrals under this Plan and all plans of the Company for six months after receipt of the distribution.

In-service withdrawals of a participant's elective deferrals, rollover contributions and vested employer contributions are permitted after the participant has obtained age 59½. Rollover contributions are available for in-service withdrawals at any time.

Forfeiture Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $-0- and $668, respectively. These accounts will be used to restore participant's forfeitures, if applicable, then to reduce Plan expenses after February 17, 2014 (see Note A) or employer contributions. In 2014 and 2013, operational and administrative expenses were reduced by $668 and $-0-, respectively, from forfeited non-vested accounts.

NOTE A - DESCRIPTION OF PLAN (Continued)

Pending Distributions

There were no pending distributions as of December 31, 2014 or 2013.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Contributions from employees are recorded in the period in which the Company makes the authorized payroll deductions from Plan participants.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Plan management has determined that fair value approximates contract value for the investment contract held by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contribution Payable

In order to satisfy the relevant nondiscrimination provisions for the Plan during the year ended December 31, 2013, the Plan reimbursed excess contributions to its participants in the subsequent Plan year. Excess contributions amounted $4,987 and were recorded as a liability as of December 31, 2013. No excess contribution reimbursements were necessary to satisfy the relevant nondiscrimination provisions for the Plan during the year ended December 31, 2014.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Employer Contributions

Employer contributions to the Plan are recognized in the period for which the Plan sponsor has made a formal commitment to fund such amounts for the period. If applicable, contributions receivable include legal or contractual requirements for the employer to make contributions applicable to past periods.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Transactional fees and charges, which are attributable to a specific participant's account, are deducted directly from that account. Certain investment related expenses are included in Net Appreciation in Fair Value of Investments.

During 2013, Plan received miscellaneous receipts, including but not limited to, payments from mutual funds, rebates of 12b-1 fees, service fees, sub-transfer agent fees, commission recaptures, and similar payments from third parties through an agreement with trustee in the amount of $669. These amounts are used to offset Plan operating expenses. No such amounts were received during 2014. The 2013 amounts are included in investment income and administrative expenses in the Statement of Changes in Net Assets Available for Benefits.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

NOTE C - INVESTMENTS (Continued)

During 2014 and 2013, the Plan's pooled separate accounts (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $201,929 and $529,836, respectively.

NOTE D - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets have a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013, respectively.

Pooled Separate Accounts: Valued at the net asset value (NAV) of the underlying shares held by the Plan at year end.

Common Collective Trust: Valued at the net asset value (NAV) of units held of a common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner (See Note E).

NOTE D - FAIR VALUE MEASUREMENT (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE E - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with American United Life Insurance Company (American United). American United maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Plan management has determined that contract value approximates fair value as of December 31, 2014 and 2013. Contract value, as reported to the Plan by American United, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract was $252,285 and $246,713 as of December 31, 2014 and December 31, 2013, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. But it may not be less than 1.00%. Such interest rates are reviewed on an annual basis for resetting.

NOTE E - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) termination of the Plan, or (2) complete termination of the contract. Plan management believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yields earned by the guaranteed investment contract are as follows:

Average yield:	2014	2013
Based on interest rate credited to participants	1.74%	1.75%

NOTE F - RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan as related party transactions.

The pooled separate accounts and common collective trust are managed by American United Life Insurance Company, the custodian of the Plan, for the period October 1, 2013 through December 31, 2014. Transactions with the pooled separate accounts and common collective trust qualify as party-in-interest transactions.

Administrative maintenance charges are paid to the trustee based on the closing market value of the plan assets in the Plan's trust. Audit fees are paid to the Plan auditor based on an amount agreed to by management of the Plan. These are considered related party and party in interest transactions under ERISA.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE H - TAX STATUS

For the period September 15, 2013 through the auditor's report date, the Plan is operating under an adoption agreement of the Defined Contribution Prototype Plan and Trust prepared by American United Life Insurance Company (AUL). The Internal Revenue Service has determined by a letter dated March 31, 2008 that the AUL prototype plan document was designed in accordance with the applicable sections of the Internal Revenue Code. For the period January 1, 2013 through September 14, 2013, the Plan operated under an adoption agreement of the Prototype Defined Contribution Plan prepared by Fulton Financial Advisors, N.A. (Fulton). The Internal Revenue Service has determined by a letter dated June 16, 2004 that the Fulton prototype plan document was designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since the determination letters were issued, the Plan administrator and the Plan's advisors believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

NOTE H - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J - INFORMATION CERTIFIED TO BY CUSTODIAN AND TRUSTEE

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA for 2014 and 2013. Accordingly, Fulton Financial Advisors, N.A., the trustee of the Plan from January 1, 2013 through September 30, 2013, and American United Life Insurance Company, the custodian of the Plan from October 1, 2013 through December 31, 2014, have certified to the completeness and accuracy of all investments reported in the accompanying statement of net assets available for benefits as of December 31, 2014 and 2013, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at Year End) as of December 31, 2014, and the related investment activity reported on the statement of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 22, 2015, the date the financial statements were available to be issued. Except as set forth below there were no material subsequent events that require recognition or additional disclosure in these financial statements.

In February 2015, the Company's Board of Directors resolved to suspend the matching contribution effective March 11, 2015.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
