Notes to Financial Statements

A. PLAN DESCRIPTION

The following description of the Altivity Packaging Pension Plan For Hourly Employees (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more information.

General. The Plan is a noncontributory defined benefit plan established July 1, 2006. The Plan covers the eligible hourly employees of Altivity Packaging, LLC who have completed one year of service and covers employees who were formerly covered under the Smurfit-Stone Container Corporation Retirement Plan for Hourly Employees. Effective December 31, 2007, the Plan was amended to freeze the benefit accruals for nonunion hourly employees. The Plan was sponsored by Altivity Packaging, LLC until March 10, 2008 when the Company was acquired by Graphic Packaging Holding Company (the "Company"). Upon acquisition, Graphic Packaging International, Inc. became the Plan's sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding Policy. The Company's funding policy is to make contributions to the Plan in amounts sufficient to provide for the participant's benefits and to satisfy the minimum funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2014 and 2013.

Pension Benefits. Participants are generally entitled to normal retirement benefits beginning at the age of 65 (normal retirement age). The Plan permits early retirement benefits for qualified participants who meet the age and service requirements. In most instances, normal retirement benefits are based upon the participant's years of benefit service multiplied by the participant's benefit level. Early retirement benefits are based upon the participant's earned benefit reduced by a certain percentage for each month prior to normal retirement age.

Effective December 31, 2011, the Plan was amended to freeze Plan benefits and benefit service as of December 31, 2011 for hourly employees represented by GCC/IBT Local 541-S employed at the Salt Lake City, UT Bag facility. B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition. Investments in the Graphic Packaging International, Inc. Master Trust ("the Master Trust") are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statements of changes in net assets available for benefits an allocation of the GPI Master Trust's net income which consists of realized gains or losses, unrealized appreciation or depreciation on investments and interest and dividend income.

Management fees and operating expenses charged to the Master Trust for investments in mutual funds and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes to Financial Statements (Continued)

Valuation of Financial Instruments. The carrying values of the Plan's receivables and payables approximate fair value.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties. The Plan invests in a Master Trust, which invests in a combination of stocks, bonds, mutual funds, common/collective trusts, foreign currency options and contracts and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payments of Benefits. Benefits are recorded when paid.

Administrative Expenses. Generally, the Plan pays for expenses incurred for Plan administration. Certain other costs of the Plan have been paid by the Company.

Recent Accounting Pronouncements. In July 2015, the Financial Accounting Standards Board issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). The purpose of ASU 2015-12 is to simplify plan accounting.

The amendments in Part I of ASU 2015-12 designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of ASU 2015-12 will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of ASU 2015-12 reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is not applicable to the Plan.

Notes to Financial Statements (Continued)

ASU 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact ASU 2015-12 will have on the Plan's financial statements.

C. INTEREST IN MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the Master Trust. The Master Trust was established for the investment of assets of the Plan and certain assets of other retirement plans sponsored by the Company. Each participating retirement plan has an undivided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Master Trust.

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

At December 31, 2014 and 2013, the assets of the Master Trust were held by the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust was approximately 5% at both December 31, 2014 and 2013.

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement and Disclosures* ("ASC 820") provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements (Continued)

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Common/collective trusts: The Master Trust's interest in the common/collective trusts are valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded on a daily basis.

103-12 investment entities (the "LLCs"): The Master Trust's interest in the LLCs are stated at fair value. The value is determined by the net asset value, based on the underlying investments, as reported by the LLCs on the valuation date.

Foreign currency options: Valued using pricing models based on the prevailing forward exchange rate of the underlying currencies taking into account the counterparties' creditworthiness.

Cash and cash equivalents – foreign currency: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2014 and 2013. There were no level 3 investments as of December 31, 2014 and 2013.

- (1) The fund's investment objective is to provide a market rate of return consistent with the preservation of capital through a shorter maturity, high quality portfolio.
- (2) The fund's investment objective is to approximate as closely as practicable, before expenses, the performance of the Barclays Capital U.S. Treasury Inflation Protection Securities Index by primarily investing in U.S. government treasury securities.
- (3) The fund's investment objective is to approximate as closely as practicable, before expenses, the performance of the S&P 500 index over the long term by primarily investing in common stocks.
- (4) The objective of the Fund is capital appreciation through investments in an international portfolio of equity securities of issuers located in countries of developed markets. The Fund will attempt to achieve its investment objective by striving to exceed the U.S. dollar return of the Morgan Stanley Capital International Europe, Australasia and Far East Index.
- (5) The fund's investment objective is to maximize long-term total return, consistent with prudent investment management. Under normal market conditions, the fund expects to invest 70% of its total net assets, either directly or indirectly through investments in other commingled investment vehicles, in investment grade debt and fixed income securities rated at the time of purchase at least Baa3 or BBB- by a nationally recognized rating agency such as Moody's, S&P or Fitch, or that are of comparable quality as determined by the relevant advisers. The fund expects that its dollar-weighted average duration, including futures positions, will range within

Notes to Financial Statements (Continued)

20% plus or minus of the duration of Barclays Capital Aggregate Bond Index. Additionally, the fund expects to maintain a dollar-weighted average credit quality of portfolio holdings of at least AA- or its equivalent.

E. DERIVATIVES

Derivative financial instruments are used to hedge the currency risk component of the Master Trust's foreign investments. Certain of the investment managers are permitted to use certain specified types of derivative instruments as part of their respective strategies. These strategies include the use of futures, forward agreements, and options. Use of derivatives instruments for purposes of speculation is prohibited. Currency hedge positions are not permitted to exceed the level of exposure in the Plan's related assets.

The Master Trust enters into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the Plan's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal, as they are entered into with a limited number of highly rated counterparties.

The Plan reflects the fair value of all forward contracts as an asset or liability in the Plan's financial statements. The fair values associated with the foreign currency contracts have been estimated by valuing the net position of the contracts using the applicable spot rates and forward rates as of the reporting date. In the statements of net assets available for benefits, forward contracts to purchase foreign currency are shown as foreign currency contract payables, and forward contracts to sell foreign currency are shown as foreign currency contract receivables. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

F. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based upon the participant's years of service multiplied by the participant's benefit level, as defined by the Plan, on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the most recent valuation dated December 31, 2013 were:

Interest rate:	8.25% per year
Mortality basis - healthy lives:	RP - 2014 PPA Annuitant and Non-annuitant Mortality (sex distinct)
Normal retirement age:	Age 65

Notes to Financial Statements (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The mortality rates used to determine the actuarial present value of accumulated plan benefits were changed to RP-2014 PPA Annuitant and Non-Annuitant Mortality Tables from RP-2013 PPA Annuitant and Non-Annuitant Mortality Tables. The effect of this change was to decrease the actuarial present value of accumulated plan benefits by \$189,743.

G. PARTIAL PLAN TERMINATION

Effective June 30, 2014, the Company completed the sale of their multi-wall bag business to Mondi Group. The divested assets included 9 converting plants located throughout the United States and the Pine Bluff, Arkansas kraft paper mill. As a result, the affected participants became fully vested in their accrued benefits.

H. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. governmental agency, up to the applicable limitations discussed below.
3. All other vested benefits (vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits of the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and on the level of benefits guaranteed by the PBGC.

Notes to Financial Statements (Continued)

I. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 9, 2011, that the Plan qualifies in accordance with applicable regulations of the Internal Revenue Code ("IRC") as a tax-exempt entity. Although the Plan has been amended since receiving favorable determination, the plan administrator, the plan actuary and the plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan continues to be tax exempt. Therefore, no provision for income taxes has been recorded in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

J. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2014 and 2013, the Plan incurred and accrued trustee fee and miscellaneous fees of \$252,898 and \$232,533, actuary fees of \$45,033 and \$68,112, and investment management fees of \$154,004 and \$186,456, respectively.

K. SUBSEQUENT EVENTS

Effective January 1, 2015, the Plan was amended and restated. This restatement incorporates all amendments since the previous restatement, updates the Plan's definition of "Spouse" to comply with guidance from the Internal Revenue Service, and updates the Plan's provisions related to funding-based benefit restrictions under the Internal Revenue Code.

Management has evaluated subsequent events through September 29, 2015, which is the date the financial statements were available to be issued, and other than as discussed above, have determined that there are no subsequent events that require disclosure under the *Subsequent Events* topic of the FASB ASC.

Attachment I—Optional Form Conversion Factors

Participants in the Former Smurfit (Basic) Plan

- (1) "Actuarial Equivalent Value" means the benefit or benefits, or payment or payments, that are of equal value as of the date of determination to the benefits for which they are to be substituted. Equivalence of value, except as provided in paragraph (2) below, shall be determined by actuarial calculations based on interest rates, mortality tables, and other actuarial assumptions used by the PBGC, as of the first date of the calendar year that includes the computation date, for determining the present value of an immediate annuity (assuming a male participant and a female beneficiary), under a terminating, trusteed plan that has been or will be placed into trusteeship by the PBGC.
- (2) In the case of the forms of payment listed below, the equivalence of value shall be computed using the following actuarial adjustment factors:
 - (i) 50% Joint and Survivor Annuity—pay 90% of the pension to the participant and 45% to the surviving spouse.
 - (ii) 75% Joint and Survivor Annuity—pay 84% of the pension to the participant and 63% to the surviving spouse.
 - (iii) 100% Joint and Survivor Annuity—pay 80% of the pension to the participant and 80% to the surviving spouse.
 - (iv) 5-Year Certain and Life Annuity—reduce the pension by 2% and guarantee five years of payments.
 - (v) 10-Year Certain and Life Annuity—reduce the pension by 7% and guarantee 10 years of payments.
 - (vi) 15-Year Certain and Life Annuity—reduce the pension by 12% and guarantee 15 years of payments.

The phrase "actuarial reduction," "actuarially reduced," "actuarial increase," or "actuarially increased" shall mean the adjustment necessary to provide actuarial equivalent value.

For participants who are hourly employees who are represented by USW Local 12315 with a Smurfit Plan hire date before May 15, 2004, if the ages of a participant and his or her spouse are within five years, the actuarial factor used to determine the benefit continuing during the participant's lifetime under a qualified joint and survivor annuity shall be 90% of the monthly retirement income that otherwise would be payable to the participant in accordance with the plan. If there is more than five years difference between the ages of the participant and his or her spouse, then the actuarial adjustment factor applied shall be determined on the basis of the 1984 Unisex Pension Mortality Table and a 5% assumed rate of interest assuming a male participant and a female beneficiary.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the optional payment form election percentages to 20% elect a joint and 50% survivor annuity, 20% elect a joint and 100% survivor annuity, 10% elect a 10-year certain and life annuity, and 50% elect a life annuity to better reflect anticipated future experience as the result of an assumption study.
- A change in the retirement rates for active participants and terminated vested participants to better reflect anticipated future experience as the result of an assumption study.
- A change in the withdrawal rates to better reflect anticipated future experience as the result of an assumption study.
- A change in the disability rates to better reflect anticipated future experience as the result of an assumption study.
- A change in the percent married assumption to 70% of males and 40% of females have an eligible spouse to better reflect anticipated future experience as the result of an assumption study.
- A change in the spousal age difference assumption to males are two years older than their spouses to better reflect anticipated future experience as the result of an assumption study.
- A change in the active decrement timing from the beginning of the year to the middle of the year with 100% retirement occurring at the beginning of the year.
- A change in administrative expenses to include the prior year's actual plan administrative expenses (excluding PBGC premiums), plus the estimated PBGC premiums for the current year.

These changes were made to better reflect the anticipated plan experience. As these changes reduced the funding shortfall by less than \$5 million and the decrease in funding target liability was less than 5%, approval of the Commissioner is not required.

Attachment I—Optional Form Conversion Factors

Participants in the Former Smurfit (Basic) Plan

- (1) “Actuarial Equivalent Value” means the benefit or benefits, or payment or payments, that are of equal value as of the date of determination to the benefits for which they are to be substituted. Equivalence of value, except as provided in paragraph (2) below, shall be determined by actuarial calculations based on interest rates, mortality tables, and other actuarial assumptions used by the PBGC, as of the first date of the calendar year that includes the computation date, for determining the present value of an immediate annuity (assuming a male participant and a female beneficiary), under a terminating, trustee plan that has been or will be placed into trusteeship by the PBGC.
- (2) In the case of the forms of payment listed below, the equivalence of value shall be computed using the following actuarial adjustment factors:
- (i) 50% Joint and Survivor Annuity—pay 90% of the pension to the participant and 45% to the surviving spouse.
 - (ii) 75% Joint and Survivor Annuity—pay 84% of the pension to the participant and 63% to the surviving spouse.
 - (iii) 100% Joint and Survivor Annuity—pay 80% of the pension to the participant and 80% to the surviving spouse.
 - (iv) 5-Year Certain and Life Annuity—reduce the pension by 2% and guarantee five years of payments.
 - (v) 10-Year Certain and Life Annuity—reduce the pension by 7% and guarantee 10 years of payments.
 - (vi) 15-Year Certain and Life Annuity—reduce the pension by 12% and guarantee 15 years of payments.

The phrase “actuarial reduction,” “actuarially reduced,” “actuarial increase,” or “actuarially increased” shall mean the adjustment necessary to provide actuarial equivalent value.
