CONTROL PRODUCTS CORPORATION 401(k) PLAN

Notes to Financial Statements

1 - Description of Plan

The following description of the Control Products Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution 401(k) plan covering substantially all employees of Control Products Corporation (the "Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is intended to be a qualified retirement plan under the Internal Revenue Code.

B. Plan Restatement - The Plan was restated during 2010 to comply with the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA") by adopting Benefit Investment Group, Inc.'s Nonstandardized prototype Profit Sharing Plan with CODA. The restatement had no effect on net assets available for benefits or changes therein.

C. Plan Amendment - The Plan was amended during January 2012. The amendment increased the eligibility requirement from six months of service to one year of service.

D. Contributions - Participants may voluntarily contribute to the Plan up to an annual maximum of 100% of eligible compensation, pursuant to a salary reduction arrangement. Total participant contributions in any calendar year are restricted to the applicable limit under Internal Revenue Code Section 402(g). The applicable limit for the Plan year ended December 31, 2014 is $17,500 with an additional $5,500 catch-up provision for participants age fifty or older. The Sponsor's matching contribution is based on a percentage of pretax employee contributions subject to a maximum of 25% of 6% of participants' eligible compensation. The Plan also allows for the Sponsor to make additional discretionary contributions at the end of each plan year. There were no additional discretionary contributions made by the Sponsor for the plan year ended December 31, 2014.

E. Expenses of Administrating the Plan - Administrative expenses recorded on the financial statements represent fees charged by John Hancock Life Insurance Company (the "Custodian") and Benefit Investment Group, Inc., third party administrator, and paid for by the participants.

F. Eligibility and Vesting - Employees become eligible to participate in the Plan after they have attained the age of eighteen and have completed one year of service.

Participants' contributions plus actual earnings thereon are 100% vested at all times. Participants' interest in the matching and discretionary contributions of the Sponsor become 100% vested upon a participant's death, disability, or attainment of normal retirement age. Prior to normal retirement age, participants' interest become vested as follows:

Years of Service	Percentage Vested
Less than 1 year	0%

CONTROL PRODUCTS CORPORATION 401(k) PLAN
Notes to Financial Statements

1 - Description of Plan (continued)

G. Participants' Accounts - Each participant's account is credited with the participant's contributions, the Sponsor's matching and discretionary contributions, an allocation of Plan gains and losses, and charged with an allocation of administrative expenses. Allocations for Plan gains and losses are based upon the ratio of each participant's account to the total participants' accounts. The benefit to which a participant is entitled is the vested amount in the participant's account.

H. Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000, and up to a maximum of 50% of their vested account balance or $50,000. The loans bear interest at variable rates and are secured by the balance in the participants' accounts. Principal and interest payments are redeposited in the participants' accounts based on their current allocation election within the Plan.

I. Payment of Benefits - Upon termination of service due to death, disability or retirement, a participant will have the option of receiving either a lump-sum amount equal to their vested account balance, or rollover their distribution to an IRA or other qualified retirement plan, not exceeding the participant's life expectancy or the joint life expectancy of the participant and his or her designated beneficiary.

J. Forfeited Accounts - The amounts forfeited by participants who terminate employment prior to becoming fully vested are used to reduce Sponsor contributions or pay plan expenses. Non-vested accounts in the amount of $1,463 were forfeited for the year ending December 31, 2014. There was no balance in forfeited accounts at December 31, 2014.

2 - Summary of Significant Accounting Policies

A. Basis of Accounting - The accompanying financial statements are prepared under the accrual basis of accounting. Therefore, revenues are recognized when earned, and expenses are recognized when the obligation is incurred.

B. Valuation of Investments - The Plan's investments are stated at fair value as determined and certified by the Custodian. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

C. Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

D. Payment of Benefits - Benefits are recorded when paid. Deemed distributions generally represent taxable distributions to employees related to loans in default. There were no deemed distributions for the year ended December 31, 2014.

E. Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

F. Subsequent Events - The Plan has evaluated subsequent events through September 1, 2015, the date the financial statements were available to be issued.

3 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

4 - Income Tax Status

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under the Internal Revenue Code Section 401(a). The Plan was restated during 2010 to comply with the provisions of the EGTRRA by adopting Benefit Investment Group, Inc.'s Nonstandardized prototype Profit Sharing Plan with CODA. The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

6 - Investments (Information Certified by John Hancock Life Insurance Company – Unaudited)

The plan administrator has obtained a certification from the Custodian that such information is complete and accurate for the years ended December 31, 2014 and 2013.

7 - Fair Value Measurements

As required by the Fair Value Measurements topic of the Financial Accounting Standards Board *Accounting Standards Codification* ("FASB ASC"), all financial assets and liabilities are measured at fair value on a recurring basis. The topic establishes a framework for measuring fair value and enhances disclosure requirements for fair value measurements. The topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The topic establishes market or observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The topic establishes a hierarchy for grouping these assets and liabilities, based on the significance level of the following inputs:

Level I – Quoted prices in active markets for identical assets or liabilities.

Level II – Quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant drivers are observable.

Level III – Significant inputs to the valuation model are unobservable.

The following is a listing of assets and liabilities required to be measured at fair value on a recurring basis and where they are classified within the hierarchy as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level I	Level II	Level III	Total

The following is a listing of assets and liabilities required to be measured at fair value on a recurring basis and where they are classified within the hierarchy as of December 31, 2013:

Total assets at fair value	$ -	$ 3,945,044	$ 73,480	$ 4,018,524

Interest in registered investment companies include money market funds and marketable securities that are valued using quoted prices on nationally recognized securities exchanges.

7 - Fair Value Measurements (continued)

Guaranteed interest accounts guarantee the return of principal plus compound interest earned over a defined three, five, or ten-year term less any applicable contract or participant-level recordkeeping charges, which approximates fair value, provided all contributions remain in the account until the end of the guarantee period (See Note 8).

The preceding methods described may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in the fair value of the Plan's Level III assets for the year ended December 31, 2014.

	Guaranteed Interest Accounts
Balance as of December 31, 2013	$ 73,480
Contributions	5,094
Interest and other income	1,349
Distributions	(7,500)
Transfers out to other accounts	(11,420)
Administrative expenses	(296)
Net depreciation in fair value	(889)
Balance as of December 31, 2014	$ 59,818

8 - Guaranteed Interest Accounts With John Hancock Life Insurance Company

As of December 31, 2014 and 2013, the Plan held guaranteed interest accounts with John Hancock Life Insurance Company ("John Hancock"). John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the guaranteed interest accounts is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest accounts are not fully benefit-responsive, fair value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed interest accounts. The guaranteed interest account is presented on the face of the statements of net assets available for benefits at fair value with no adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the guaranteed interest accounts as of December 31, 2014 and 2013 was $59,818 and $73,480, respectively. The crediting interest rates are based on a formula agreed upon with the issuer and ranged from 0.11% to 0.81% as of December 31, 2014.
