NOTE A - DESCRIPTION OF PLAN

The following description of the Formulated Solutions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a self-administered, defined contribution plan covering substantially all employees of Formulated Solutions, LLC (the "Company") who have completed three months of service and are age twenty-one or older. The Plan is an amendment and restatement of a preexisting Plan originally effective as of January 1, 2008. In April 2010, the Plan was amended and restated with a Plan effective date of January 1, 2010. The Trust is the Formulated 401(k) Trust. The Trustees of the Plan own the assets of the trust subject to the Plan and trust agreement.

The Plan has a Group Annuity Contract with John Hancock Retirement Plan Services (John Hancock). John Hancock provides custodian investment services and maintains participant reporting services for the Plan... The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Each year, participants may contribute up to the limit 100% of their compensation, as defined in the Plan, subject to certain Internal Revenue Code limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Employer may make matching contributions at the discretion of the Company and may make discretionary profit sharing contributions. During the year ended December 31, 2014, the Employer did not make any matching contributions or any profit sharing contributions. Contributions are subject to certain limitations.

Investment Options - Participants direct the investment of their contributions into various investment options offered by the Plan. At December 31, 2014, the Plan was invested in various shares of registered investment companies and a money market deposit account.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans –The Plan permits the Employer to provided loans to participants. However, the Employer does not permit loans in the Plan

NOTE A - DESCRIPTION OF PLAN – *(Continued)*

Payment of Benefits - On termination of service due to death, disability, retirement or other reasons, a participant or their beneficiary, as applicable, may elect to remain in the Plan (subject to required minimum distributions promulgated by the IRS) or to receive a lump sum distribution equal to the value of the participant's vested interest in his or her account.

For termination of service due to other reasons, and if the vested account balance exceeds $5,000, a participant may elect to receive a lump sum distribution or to remain in the Plan. If the vested account balance is less than $5,000, the Plan Administrator may issue a lump sum payment to the participant if the participant does not elect to rollover the balance to another qualifying plan. If the vested account balance is less than $5,000 but greater than $1,000, the plan administrator's form of distribution is a direct rollover for the participant's benefit and rollover the account balance.

Forfeitures — Forfeitures may be used to offset employer matching contributions. At December 31, 2014 and 2013, the balance of the forfeiture account was $0 and there were no allocations of Plan forfeitures.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Net assets available for benefits at December 31, 2014, include $26,257 allocated to the accounts of former plan participants who as of or prior to that date had withdrawn from participating in the earnings and operations of the Plan. The $7,965 was paid to the former participants in January and March, 2015. However, these amounts are normally included in the Form 5500 Schedule H, line 1g, as a liability.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – *(Continued)*

Operating Expenses and Party-In-Interest Transactions — At December 31, 2014, all of the Plan's investments were owned by the Trustee and held by John Hancock, the custodian of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to John Hancock for investment management services, and RJL Pension Services, Inc. for Plan administrative expenses, were collectively approximately $4,056 for the year ended December 31, 2014.

The Plan's administrative expenses are paid in part by the Plan and in part by the Company, as provided by the plan document. During the year ended December 31, 2014, the Company paid Plan expenses of approximately $5,387. In addition, certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events — The Plan has evaluated subsequent events through September 10, 2015, the date the financial statements were available to be issued.

NOTE C — INVESTMENTS AND INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The following is a summary of the investment information regarding the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Trustee and John Hancock , and as directed by the plan administrator, is unaudited. The plan administrator has obtained certifications from the Trustee and John Hancock that the information is complete and accurate.

Shares of registered investment companies $ 19,241

NOTE D – FAIR VALUE MEASURMENTS

The *Fair Value Measurements and Disclosures* section of the FASB *Accounting Standards Codification* (ASC) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the *Fair Value Measurements and Disclosures* section of the FASB ASC are described as follows:

Level 1 Fair Value Measurements - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE D – FAIR VALUE MEASURMENTS – *(Continued)*

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Shares of Registered Investment Companies — Shares of registered investment companies are valued at the quoted net asset value of shares held by the plan sub-accounts at year-end.

Money Market Deposit Account — This fund invests in highly liquid, low-risk securities and attempts to keep the net asset value at a constant $1 per share.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in different fair value measurements at the reporting dates.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

Fair Value Measurements as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Mutual funds managed by the trustee	$ 605,502	$ -	$ -	$ 605,502
Total investments at fair value	$ 605,502	$ -	$ -	$ 605,502

Fair Value Measurements as of December 31, 2013

	Level 1	Level 2	Level 3	Total
Mutual funds managed by the trustee	$ 569,928	$ -	$ -	$ 569,928
Total investments at fair value	$ 569,928	$ -	$ -	$ 569,928

NOTE E RECONILATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of statement of changes in net assets available for plan benefits for the year ended December31, 2014 to Schedule H of Form 5500:

	2014	2013
Net assets available for benefits per the financial statements	$ 605,502	$ 569,928
Reconciling Items - Unpaid benefit claims payable	26,257	-
Net assets available for benefits per Form 5500, Schedule H	$ 579,245	$ 569,928

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company's contribution portion, if any, of their accounts.

NOTE G - TAX STATUS

The Plan and related Trust utilize R.J.L. Pension Services, Inc. *Prototype Non Standardized Cash or Deferred Profit Sharing Plan.* R.J.L. obtained a favorable determination letter dated January 31, 2006; however, such letter is only applicable to them. The Plan administrator has adopted all Plan provisions within the prototype document. The Plan has been amended since receiving the determination letter; however the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE H – CONCENTRATIONS OF MARKET AND CREDIT RISK

The Plan's exposure to credit loss in the event of nonperformance of its investments is limited to the carrying value of such investments. The Plan's concentrations of credit and market risk are dictated by participant's investment preferences. Although there can be no assurances of favorable investment returns or the absence of nonperforming investments, the Plan and related Trust maintains investment options with high credit quality financial institutions and attempts to limit the amount of credit exposure related to any individual investment.

Due to the risks associated with investments and uncertainties related to changes in the values of such investments, it is at least reasonably possible that volatility in the marketplace in the near term could materially affect the amounts reported in the financial statements and the accompanying notes.
