## **NOTES TO FINANCIAL STATEMENTS December 31, 2014 And 2013**

### **1. Description Of The Plan**

The following brief description of the Detroit Tool & Engineering 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

#### **General**

The Plan is a defined contribution plan sponsored by DTE, Inc. d/b/a Detroit Tool and Engineering (the Company or Plan Administrator). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

#### **Eligibility**

The Plan covers all employees of the Company who have completed 45 days of service and have attained age 21 to participate. Employees enter the Plan the day eligibility requirements are satisfied.

#### **Contributions**

Participants can contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

The Plan provides for a discretionary Company matching contribution for employees who were active participants at any time during the Plan year. The Company may also make a discretionary contribution to active participants on the last day of the Plan year that worked at least 1,000 hours of service during the Plan year.

There were no discretionary contributions made by the Company for the years ended December 31, 2014 or 2013.

### Notes To Financial Statements (*Continued*)

#### **Plan Administration**

Principal Trust Company (Principal) is the Plan's trustee.

#### **Vesting**

Participants are 100% vested in their deferral contributions plus actual earnings thereon. Vesting in Company contributions is based on years of service. Participants vested 25% after two years of service, becoming fully vested after five years of service. Participants also become 100% vested upon reaching normal retirement age (age 65), becoming disabled or death.

#### **Forfeitures**

Forfeited balances of terminated participants' non-vested accounts are reallocated to participants as a discretionary contribution. There were no reallocated forfeitures for the years ended December 31, 2014 or 2013. There were no unallocated forfeitures at December 31, 2014 or 2013.

#### **Participant Accounts**

Each participant's account is credited with the participant's deferral contributions, Company contributions and an allocation of Plan earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### **Payment Of Benefits**

Participants are entitled to receive the balance of their accounts upon death, total disability, retirement, or termination of employment in the form of a lump-sum or annuity. The Plan Administrator may elect to automatically distribute to terminated participants, in a lump-sum payment, balances of \$1,000 or less.

#### **In-Service Withdrawals**

Participants who attain the age of 59-1/2 may withdrawal any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

## **DETROIT TOOL & ENGINEERING 401(k) RETIREMENT PLAN**

### **Notes To Financial Statements (*Continued*)**

#### **Notes Receivable From Participants**

A participant may borrow a minimum of \$1,000 from his or her account with a maximum of one loan outstanding at any given time. In no event can the participant borrow more than \$50,000 or 50% of his or her vested account balance, whichever is less. Loans are for a period not to exceed five years, unless used to acquire a personal residence, and bear interest at a reasonable fixed rate of interest based on prevailing market rates. All loans are secured by the participant's vested account balance and are payable in installments of principal and interest through payroll deductions.

#### **Administrative Expenses**

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. A portion of the administrative expenses of the Plan are paid by the Company as provided in the Plan Document. The Plan pays expenses related to transaction and recordkeeping fees.

#### **Investment Options**

Upon enrollment in the Plan, a participant may direct contributions in any of a variety of investment options available.

## **2. Summary Of Significant Accounting Policies**

#### **Basis Of Accounting**

The financial statements of the Plan are maintained on an accrual basis of accounting.

#### **Estimates And Assumptions**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

**DETROIT TOOL & ENGINEERING**  
**401(k) RETIREMENT PLAN**

Notes To Financial Statements (*Continued*)

**Investment Valuation And Income Recognition**

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the guaranteed investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits includes realized gains (losses), and unrealized appreciation (depreciation).

**Notes Receivable From Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

**Payment Of Benefits**

Benefit payments are recorded when paid.

**3. Investments**

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee. The contract value of the guaranteed investment contract was certified by the Trustee.

Investments representing 5% or more of net assets available for benefits at the end of the respective plan year are as follows:

|                                                    | <b>December 31,</b> |              |

\*Investment does not represent 5% or more of net assets available for benefits.

**Guaranteed Investment Contract**

The Plan invests in a benefit-responsive annuity contract (the Contract) with Principal Life Insurance Company, which maintains the contributions in a guaranteed interest account.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

## DETROIT TOOL & ENGINEERING

### 401(k) RETIREMENT PLAN

---

#### Notes To Financial Statements (*Continued*)

Interest income on the Contract is calculated and credited daily based on fixed interest rates. Interest rates are reset on a semiannual basis. The Contract had an average yield and crediting interest rate of 2.03% for the years ended December 31, 2014 and 2013.

The Contract permits the Company or Principal to terminate the Contract within 12 months of receiving notification. Principal may make the termination payment immediately in lieu of a 5% surrender charge.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) the decision by the Plan Sponsor to withdraw all assets from the fund and reinvest in another investment vehicle, (3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (4) the delivery of any communication to Plan participants designed to influence the participant not to invest in the fund, (5) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement applicable to the Plan. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

#### 4. Fair Value Measurements

The Plan follows accounting rules which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- |         |                                                                                                                                                                   |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.   |

### Notes To Financial Statements (*Continued*)

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3      Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

#### **Guaranteed Investment Contract**

Fair value is the amount the Plan would receive currently if it were to withdraw or transfer funds within the Plan prior to their maturity. Fair value represents discontinuation value or contract value times 95%. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

#### **Mutual Funds**

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

### Notes To Financial Statements *(Continued)*

#### **Pooled Separate Accounts**

Valued at the NAV of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal Life Insurance Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

#### **Collective Investment Trusts**

Valued at NAV based on the market value of the underlying investment assets divided by the number of units outstanding at the end of the Plan year. The NAV, as provided by Principal Trust Company, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### Notes To Financial Statements (*Continued*)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and values for those inputs as of December 31, 2014 and 2013.

## 5. Income Tax Status

The Company has adopted the Principal prototype standardized plan, for which a favorable opinion letter was issued to Principal by the IRS on March 31, 2008. The Plan itself has not received a determination letter. The Plan has not been amended since the date of the opinion letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2011 and later remain subject to examination by taxing authorities.

## 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Notes To Financial Statements (*Continued*)

**7. Risks And Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**8. Party-In-Interest Transactions**

The Plan invests in a guaranteed investment contract, pooled separate accounts and collective investment trusts managed by the Trustee. These transactions with the Trustee are considered party-in-interest transactions allowable under ERISA.

**9. Subsequent Events**

Effective January 1, 2015, the Plan was restated to allow for discretionary matching contributions.

Effective November 1, 2015, the Plan was amended to allow for an automatic enrollment feature. Eligible employees will be automatically enrolled in the Plan and compensation will be adjusted for a 3% automatic deferral, unless the employee affirmatively elects otherwise.

Management has evaluated subsequent events through September 30, 2015, the date through which the financial statements were available for issue.
