Independent Auditors' Report

To the Administrative Committee
Time Equities Inc. 401(k) Profit Sharing Plan and Trust

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Time Equities Inc. 401(k) Profit Sharing Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company and Great-West Life & Annuity Insurance Company (Great-West), the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters
The supplemental schedule of assets held for investment purposes at end of year, which is the responsibility of the Plan's management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

The Plan changed trustees in March 2014. State Street Bank and Trust Company provided certification for the period covering January to March 2014. Great-West Life & Annuity Insurance Company of New York provided certification for the period April to December 2014.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Time Equities Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering employees of Time Equities Inc. (the "Company") who have 90 days of service and who are not leased employees or members of a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan, not to exceed the maximum dollar limit prescribed each year by law. Participants may also be permitted, at the discretion of the Plan administrator, to contribute amounts representing distributions from other qualified plans. The Company will make matching contributions of 25% of each eligible participant's total deferral up to the first 4% of compensation. The Company may also make an additional matching contribution each year at its discretion.

Participant accounts
Each participant's account is credited with the participant's contributions, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined by the Plan.

Vesting of benefits
Participants are fully vested in their employee rollover accounts, their salary deferrals, plus actual earnings thereon. Vesting in the Company's matching contribution account plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited Plan service.

Payment of benefits
Benefits under the Plan are payable after termination of service, retirement, death or total disability in an amount equal to the participant's vested benefits and in a fashion as determined by the Plan document.

Forfeited accounts
Forfeitures of non-vested accounts are reallocated to each participant based upon a ratio of each participant's annual compensation to total annual compensation of all participants. For the years ended December 31, 2014 and 2013, forfeitures totaled $12,037 and $-0-, respectively.

Participant loans
Participants may borrow from their accounts up to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deduction.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition
The Plan's investments are stated at fair value. The Plan invests in mutual funds managed by ADP Retirement Services ("ADP") and Great-West Retirement Services and common/collective trusts maintained by certain financial institutions. Investments in mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Investments in common/collective trusts are valued based upon the share or unit values provided by the institution responsible for valuing such shares or units. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Participant loans
Participant loans are measured at their unpaid principal balance plus accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments, and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of accounting estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair value measurements
Financial Accounting Standards Board - Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, defines fair value and establishes a framework for measuring fair value. The objective of fair value is to determine the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). ASC 820 establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels: Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities; Level 2 – observable prices that are based on inputs not quoted in active markets but corroborated by market data; and Level 3 – unobservable inputs that are used when little or no market data is available.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as consider counterparty credit risk in our assessment of fair value. Considerable judgment is necessary to interpret Level 2 and 3 inputs in determining fair value of our financial and non-financial assets and liabilities. Accordingly, there can be no assurance that the fair values we present herein are indicative of amounts that may ultimately be realized upon sale or other disposition of these assets.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements
The common/collective trust investments are not actively traded, and significant other observable inputs are not available. Thus, the fair value for the common/collective trusts is measured using information provided

to the Plan's trustee by the related investment providers.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's management and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Payment of benefits
Benefits are recorded when paid.

Benefit-responsive investment
The Plan has invested in a collective investment trust fund (the "Fund") that includes benefit-responsive guaranteed investment contracts issued by various insurance companies and other financial institutions. Traditional guaranteed investment contracts are backed by the general account of the issuer. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value. Contract value, as reported to the Plan by the Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Guaranteed investment contracts generally do not permit issuers to terminate the agreement prior to the scheduled maturity date.

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

3. INVESTMENTS

The following investments represent 5% or more of the net assets available for Plan benefits at December 31, 2014 and 2013:

[1]2014 value less than 5% of net assets. Presented for comparative purposes.
[2]2013 value less than 5% of net assets. Presented for comparative purposes.

During 2014 and 2013, the Plan's investments, including gains and losses on investments bought and sold as well as held during the year, appreciated in value as follows:

	2014	2013
Common/collective trusts	$ 2,903	$ 76,139
Mutual funds	63,407	901,838
Total	$ 66,310	$ 977,977

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at the End of the Reporting Period Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2014:			
Mutual funds	$ 9,561,570	$ 9,561,570	$ -
Common/collective trusts	2,153,900	-	2,153,900
Total investments at fair value	$11,715,470	$ 9,561,570	$ 2,153,900
December 31, 2013:			
Mutual funds	$ 7,567,226	$ 7,567,226	$ -
Common/collective trusts	2,886,666	-	2,886,666
Total investments at fair value	$10,453,892	$ 7,567,226	$ 2,886,666

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the common/collective trust investments for the years ended December 31, 2014 and 2013:

	2014	2013
Beginning balance	$ 2,886,666	$ 2,924,866
Total earnings, gains or losses included in changes in net assets available for benefits	16,635	(125,357)
Purchases	3,033,866	638,013
Sales	(3,783,267)	(550,856)
Ending balance	$ 2,153,900	$ 2,886,666

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: Valued at the NAV of units. The NAV, as provided to the trustee by the investment providers, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment advisor may reserve the right to temporarily delay withdrawal from the trust to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan's investments in common/collective trusts include a stable value fund (Invesco Stable Asset Trust) and several stock index funds (SSGA Standard & Poor's 500 Stock Index Fund, SSGA Standard & Poor's Mid Cap Index Fund, SSGA Russell Small Cap Index Fund, SSGA U.S. Inflation Protected Bond Index Fund). The stable value fund seeks to achieve stability by preserving principal and providing interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. Stock index funds seek to replicate as practicable the applicable stock index. Index funds may also seek to achieve their objectives by investing directly into a commingled fund with similar objectives and like investment strategies.

Key West Guaranteed portfolio fund: In 2014, the Plan entered into a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company "Great-West". Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Great-West. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Participant principal and interest are fully guaranteed by the entire general account assets of Great-West. Great-West has indicated that the fair value of this investment is equal to the contract value. The average crediting interest rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The guaranteed investment contract does not allow the crediting interest rate below zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement unless the Plan is not in compliance with the investment agreement.

	2014
Average Yields:	
Based on actual earnings	1.25%
Based on interest rate credited to participants	1.25%

4. TAX STATUS

The Plan utilizes a service provider to handle advisory services on administrative matters, including plan design. A Determination Letter from the Internal Revenue Service has been obtained by the service provider accepting the Plan as a regional prototype and as qualifying under the appropriate Internal Revenue Code sections. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. As of December 31, 2014, the tax years that remain subject to examination are from the year 2011 forward.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

Other than the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule (including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2014 and 2013) was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company and also Great West Life & Annuity Insurance Company and also Great-West Trust Company LLC (the trustees of the Plan). The contract value of the fully benefit-responsive investment contracts was certified by the trustee. During 2014, the Plan's assets were transferred from State Street Bank and Trust Company to Great-West.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data provided by the trustees:

	2014	2013
Investments at fair value		
Mutual funds	$ 9,561,570	$ 7,567,226
Common/collective trusts	-	612,211
Investment income	643,989	1,381,594
Investments at contract value		
Common/collective trusts	$ 2,153,900	$ 2,252,159

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

7. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by affiliates of the trustees of the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Other administrative expenses of the Plan are absorbed by the Plan's sponsor.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company may discontinue its contributions at any time and may also terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants' accounts become fully vested.

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 28, 2015, the date that the financial statements were available to be issued.
