John Carroll University Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the John Carroll University Tax Deferred Annuity Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

General

The Plan is a defined-contribution supplemental plan sponsored by John Carroll University (University) for the benefit of its employees. Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the University. Students who are employed by the sponsor are generally excluded from participation in the Plan.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. Teachers Insurance and Annuity Association (TIAA) serves as the issuer of the TIAA Traditional Annuity Contract held by the Plan. College Retirement Equities Fund (CREF) serves as the issuer of CREF variable annuities held by the Plan. TIAA, JPMorgan Chase Bank, N.A., Fidelity Management Trust Company (Fidelity), Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company) (Voya), The Variable Annuity Life Insurance Company (VALIC), and AXA Equitable Life Insurance Company (AXA) serve as the custodians of most nonannuity assets and as recordkeepers of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the University make annual contributions of up to 100% of eligible compensation subject to the requirements and provisions of the Plan. Contributions are subject to certain limitations. Employee rollover and catch-up contributions are also permitted. The Plan does allow for special Code Section 403(b) catch-up contributions for those participants with 15 years of service. The University does not make matching or discretionary contributions to the Plan.

Participant Investment Account Options

Investment account options available include various annuity accounts, pooled separate accounts and mutual funds. Each participant has the option of directing their contributions into any investment options selected by the University and may change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account is credited with the participant's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

December 31, 2014 and 2013

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon.

Payment of Benefits

Upon termination of service or if the participant becomes disabled, a participant may elect to receive a lump-sum amount equal to the value of their account, an annuity contract (if assets are held in a custodial account) or converted into an income option (if assets are invested in an annuity contract). A participant may elect to receive a distribution of their rollover contribution at any time. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Plan Termination

Although it has not expressed an intention to do so, the University has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by individually controlled TIAA, CREF, Fidelity, Voya, VALIC and AXA investments. Contributions are allocated to the various investment options based on the individual participant elections.

The annuity contracts and fixed accounts are fixed-dollar annuities and investment products offered by the insurance companies. The annuity contracts and fixed accounts are maintained in the general accounts. Contributions to the annuity contracts and fixed accounts purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of the insurance companies.

John Carroll University Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2014 and 2013

The TIAA Traditional Annuity account is recorded at contract value, which approximates fair value as estimated by TIAA. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Participants purchase accumulation units in the variable annuity contracts and their value is calculated daily. Variable annuity accounts, except for the money market account, are recorded at their estimated fair value which is based upon the underlying value of the assets. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Quoted market prices, if available, are used to value investments. TIAA-CREF, Fidelity, Voya, VALIC and AXA mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The TIAA Real Estate pooled separate account is valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice period.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Loans

While the Plan does not allow for participant loans, TIAA does issue loans to Plan participants outside of the scope of the Plan. Participants pledge as security a portion of their balance in the TIAA Traditional Annuity, which represents 110% of the outstanding loan balance. Pledged balances were \$84,392 and \$92,350 at December 31, 2014 and 2013, respectively. Plan loan interest rates ranged from 4.29% to 4.82% as of December 31, 2014.

John Carroll University Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2014 and 2013

The Employee Benefit Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, formal guidance has yet to be issued by EBSA.

Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not currently provide that service for 403(b) plans. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. With a few exceptions, the Plan is no longer subject to U.S. federal, tax examinations for years before 2011.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan or University, at the University's discretion.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3: Certification by Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Notes to Financial Statements

Note 6: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 7: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

John Carroll University Tax Deferred Annuity Plan

Notes to Financial Statements December 31, 2014 and 2013

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Fair value determinations for Level 3 measurements of securities are the responsibility of the Business Office. The Business Office contracts with a pricing specialist to generate fair value estimates on a monthly or quarterly basis. The Business Office challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Annuity Contracts and Fixed Accounts
Balance, January 1, 2013	\$ 6,702,019
Investment Income	229,157
Purchases	523,143
Sales	<u>(174,372)</u>
Balance, December 31, 2013	7,279,947
Investment income	254,120
Purchases	1,028,024
Sales	<u>(642,940)</u>
Balance, December 31, 2014	<u><u>\$ 7,919,151</u></u>

As the annuity contracts and fixed accounts are valued at fair value, which approximates contract value, there are no realized or unrealized gains or losses for these investments included in the net increase in net assets available for benefits.
