Fresquez, Inc. 401(k) Plan

Notes to the Financial Statements For the year ended December 31, 2014

A. Description of the Plan

The following description of the Fresquez, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The plan is a defined contribution plan covering all non-union employees who have completed one year of service and have attained the age of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).
2. *Contributions.* Each year participants may contribute from one percent (1%) up to one hundred percent (100%) in one percent increments of pretax annual compensation, as defined in the Plan, limited to \$17,500 for 2014. Participants aged 50 or older may elect to defer additional amounts (called "catch-up contributions"), up to \$5,500 for 2014, to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a safe harbor matching contribution of 100% of the first 3% and 50% of the elected deferral up to 5% of eligible compensation to each participant. Participants direct the investment of their contributions and the Company's match contributions into various investment options offered by the Plan through the investment custodian. The safe harbor contribution is voted on and funded at the end of each plan year.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and (a) the Company's match, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are vested immediately in their contributions and employer safe harbor contributions plus actual earnings thereon.
5. *Notes receivable from participants.* Participants may borrow from their accounts a minimum of \$1,000 and to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The loans bear interest at a base rate equal to the Prime Rate in effect at the beginning of the month the loan was approved plus 2%. Principal and interest are paid ratably over the loan term through payroll deductions.
6. *Payment of Benefits.* On termination of service, retirement, attainment of age 59 ½, or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.
7. *Hardship Withdrawals.* Withdrawal of a portion of a participant's deferral account will be permitted due to an immediate and heavy financial need, if it meets IRS requirements. Participants who make such a withdrawal will be disallowed from making additional deferrals to the plan for a six month period.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by custodian. See Note I for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The Plan incurs investment advisory and management fees and costs related to the Plan's administration. The Plan Sponsor absorbs a portion of these costs at their discretion. Administration expenses were \$5,481 for the year ended December 31, 2014.

C. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

	<u>December 31, 2014</u>	<u>December 31, 2013</u>
SSgA Cash Series US Government Class L	\$ 789,335	*
Bancorp Bank Master Demand	*	\$ 706,753

* Investment did not represent 5% or more of net assets.

During 2014 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,522.

Fresquez, Inc. 401(k) Plan

Notes to the Financial Statements For the year ended December 31, 2014

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

E. Tax Status

The Company has adopted a prototype plan in which the Internal Revenue Service has determined by a letter dated March 31, 2008, that the form of the plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

F. Information Certified by the Custodians

The Plan transferred investments from Wilmington Trust to a new custodian, State Street Bank & Trust, effective December 2, 2014. The value of assets transferred at that date were \$798,003. The Plan investments were held by the custodians for each respective period during the year and invested in various accounts as directed by the participants. The following information included in the financial statements and supplemental schedule was provided and certified by the Plan's Custodians, for the periods held, as complete and accurate as it relates to the Plan's investments:

- Investments at fair value
- Investment income
- Notes receivable from participants

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Fresquez, Inc. 401(k) Plan

Notes to the Financial Statements For the year ended December 31, 2014

H. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of accounts managed by Wilmington Trust and State Street Bank & Trust, the Custodians, as defined by the Plan, and therefore the relating transactions qualify as party-in-interest transactions. Wilmington Trust, State Street Bank & Trust, Automatic Data Processing, Inc. and EPlan Services, Inc., the third-party administrators and record keepers, charge asset management fees and recordkeeping fees, which are partially paid by the plan sponsor. The plan sponsor is also owned by the two trustees of the plan. Therefore, transactions with the plan sponsor also qualify as party-in-interest transactions.

I. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable measurements (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market dates by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used at December 31, 2014 and 2013.

US Government Securities and *Mutual funds* are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fresquez, Inc. 401(k) Plan

**Notes to the Financial Statements
For the year ended December 31, 2014**

I. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2014:
