Note 1 - Description of the Plan

General

The following brief description of the Savings and Investment 401(k) Plan of White & Case LLP (the "Plan" or "SIP") is provided for general information purposes only. Plan members should refer to the Plan document for more complete information.

The Plan is a profit sharing plan and includes a cash or deferred arrangement pursuant to Section 401(k) of the Internal Revenue Code, under which participants may make contributions to the Plan by means of elective salary deferrals. Plan contributions are credited to an individual account in the name of each participant. The ultimate benefit to be received by a participant depends on the aggregate amount contributed by and on behalf of the participant and investment results. The Plan is intended to benefit its participants, including partners and employees of White & Case LLP (the "Firm" or the "Plan administrator").

Change in Trustee and Recordkeeper

Effective October 1, 2013, the Plan trustee changed from ING National Trust to J.P. Morgan Chase Bank, N.A., and the recordkeeping services transitioned from ING Retirement Services to J.P. Morgan Retirement Plan Services.

On April 3, 2014, J.P. Morgan signed an agreement to sell its large-market 401(k) recordkeeping business, J.P. Morgan Retirement Plan Services, to Great-West Financial. Effective August 29, 2014, J.P. Morgan Retirement Plan Services was sold and became 100% owned by Great-West Life & Annuity Insurance Company and was renamed Great-West Financial Retirement Plan Services, LLC, the new recordkeeper of the Plan.

Eligibility

Generally, each employee or partner is eligible to participate in the Plan as of the first day of the month coincident with or following their date of hire.

Contributions

The Firm contributes, on behalf of each eligible partner and certain general staff employees who have completed one year of service, contributions in amounts determined by the Firm at its sole discretion. In 2014 and 2013, the Firm's discretionary contribution for the general staff participants hired after December 1, 2003 was equal to 7.5% of each participant's annual compensation, as defined, up to $210,000.

Effective January 1, 2005, White & Case LLP decided not to offer participation in the White & Case LLP Retirement Income Plan (the "RIP") for all employees hired after December 1, 2003. Eligible employees hired prior to December 2, 2003 were required to make a one time irrevocable election to continue accruing benefits under the RIP or to receive a 7.5% discretionary Firm contribution in this Plan. If the eligible employee elected to continue accruing benefits under the RIP, they received a discretionary Firm contribution equal to 3% of each participant's annual compensation, as defined, up to the Social Security wage base, and an additional 6% of the portion of annual compensation above the Social Security wage base but below $210,000. In 2014 and 2013, the Firm's discretionary contribution for each partner was $34,500 and $33,500, respectively.

All participants are allowed to make elective salary deferrals under the 401(k) feature of the Plan. Effective in April 2005, new hires were automatically enrolled in the Plan at a contribution rate of 3% unless they elected to opt-out. Effective July 2006, eligible employees who had not previously elected to make a 401(k) deferral were automatically enrolled in the Plan at a 3% contribution rate, unless they made an election to opt out. Effective February 14, 2008, each participant's deferral percentage will automatically increase to the next whole percentage annually, up to 6% of compensation, unless the participant elects otherwise. Automatic enrollment and automatic increase does not apply to participants outside the United States.

Participants are allowed to make after-tax (Roth 401(k)) contributions to the Plan in addition to or in lieu of traditional pre-tax contributions.

Investment Elections

Participants file an election designating the proportion in which elective salary deferrals and contributions on their behalf are to be allocated among a selection of investment options.

To the extent that participants do not provide direction on how to invest the assets in their account, the money is invested in the SIP's qualified default investment alternative ("QDIA"). The QDIA for the SIP is the T. Rowe Price Retirement Trust based on the participant's age.

Vesting

Amounts contributed by or on behalf of a participant are immediately fully vested and are nonforfeitable.

Payment of Benefits

A participant's interest in the Plan's assets is distributable upon termination of service or death. A participant may elect to defer distribution if the participant's account balance exceeds $5,000. If their balance is less than $1,000, it is automatically paid to the participant by check, with the required taxes withheld, in the absence of an election. Pursuant to the terms of the Plan, if the participant's balance is more than $1,000 and less than $5,000, their account will be rolled over to an IRA with Millennium Trust Company in the absence of an election.

For termination for reasons other than death the entire amount to the credit of a participant's account shall be distributed in one of the following forms, (1) single lump sum payment, (2) one or more partial lump sum payments in designated amounts elected by the participant, or (3) a series of lump sum payments made no more frequently than once per month, as defined.

In-Service Withdrawals

A participant who has attained age 59-½ and is employed by the Firm or a Participating Affiliate (regardless of whether the participant is actively at work), or if the participant has qualified for long-term disability benefits under the applicable benefit component of the White & Case LLP Health and Welfare Plan, they may elect to withdraw all or any portion of their account once per month.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Amendment and Termination of the Plan

Effective January 1, 2014, the Plan was amended and restated to (i) permit in-Plan Roth transfers of otherwise non-distributable amounts, (ii) to clarify the definitions of "Temporary Employee" and "Service", (iii) to provide that the Firm Contribution for certain employees who become eligible during a Plan year is based on their actual compensation for the months they are eligible, (iv) to authorize Qualified Non-elective Contributions as necessary to satisfy the Actual Deferral Percentage Test, (v) to provide additional forms in which benefits may be distributed, and (vi) to clarify the provisions governing Plan loans.

The Firm reserves the right to amend or terminate the Plan at any time, in accordance with the Firm's established rules of procedure. However, neither through amendment, nor by Plan termination, may any part of the Plan's assets ever be returned to the Firm. All assets of the Plan must be used for the exclusive benefit of participants.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting and Financial Statement Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments

Investments in common stocks are valued at fair market value, based on quoted market prices. Investments in mutual funds are valued at the quoted net asset value ("NAV") for each fund on the valuation date. Investments in money market mutual funds are initially valued using the amortized cost method. Investments in common collective trusts are valued at the NAV, as provided by the trustee. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. There are no unfunded commitments or redemption restrictions related to the common collective trust investments. Within the common collective trusts, fixed income securities are valued on the basis of valuations provided by a pricing service; futures contracts are valued at closing market prices of the exchange on which the contracts are traded or on the basis of valuations received from the counterparty, if not traded on an exchange; forward currency contracts are valued at the prevailing forward exchange rates of the underlying currencies; investments in the units of affiliated collective investment funds are generally valued at the net asset value as reported by the respective fund at each valuation date.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Mutual Fund Fees

Underlying investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of investment earnings activity and thus not separately identifiable as an expense.

Administrative and Investment Expenses
Substantially all expenses relating to the administration of the Plan and fees paid to the trustees and the Firm's investment advisor are currently paid by the Firm.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Recent Accounting Pronouncements ASU 2015-07
In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07 ("ASU 2015-07"), *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, an amendment to Fair Value Measurement Topic 820. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. For non-public business entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted.

The Plan elected to adopt ASU 2015-07 as of and for the year ended December 31, 2014. Accordingly, investments measured using the net asset value per share practical expedient have not been categorized within the fair value hierarchy. The amendment has been applied retrospectively to all periods presented.

Recent Accounting Pronouncements ASU 2015-12
In July 2015, the FASB issued Accounting Standards Update No. 2015-12 ("ASU 2015-12"), (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient, amendments to Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965). ASU 2015-12 (i) designates contract value as the only required measure for fully benefit-responsive investment contracts, (ii) simplifies investment disclosure requirements, and (iii) allows an employee benefit plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments using the month end closest to its fiscal year end. The amendments are effective for fiscal years beginning after December 15, 2015. Earlier application is permitted.

The Plan has not early adopted ASU 2015-12.

Note 3 - Fair Value of Financial Instruments

As required by the Fair Value Measurements and Disclosure Topic of the FASB Accounting Standards Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

This Topic establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.
Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Fair Value Measurements

The following table presents the fair value hierarchy for the balances of the assets of the Plan measured at fair value as of December 31, 2014.

Investment Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Investments:				
Cash	$ 27,235	$	$	$ 27,235

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

(a) For 2014: 86% in Target Date Funds, 13% in S&P 500 Index, and 1% in Retirement Income Fund.
(b) For 2014: 21% in Foreign Large Blend Funds, 3% in Intermediate-Term Bonds, 16% in Large Growth Funds, 13% in Small Blend Funds, 12% in Mid-Cap Blend, 9% in Large Blend Funds, 5% in Self Directed Brokerage Mutual Funds, 4% in Diversified Emerging Market Funds, and 17% in World Bond Funds.

The following table presents the fair value hierarchy for the balances of the assets of the Plan measured at fair value as of December 31, 2013.

Investment Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3	Total
Investments:				
Cash	$ 1,368	$	$	$ 1,368
Common Stocks	6,648,362			6,648,362

Common Collective Trusts(A) [(a)]	(A)	(A)	(A)	318,387,412
Total Investments at fair value				$490,914,492

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

(a) For 2013: 88% in Target Date Funds, 11% in S&P 500 Index, and 1% in Retirement Income Fund.
(b) For 2013: 21% in Foreign Large Blend Funds, 19% in Intermediate-Term Bonds, 16% in Large Growth Funds, 12% in Small Blend Funds, 6% in Self Directed Brokerage Mutual Funds, 9% in Mid-Cap Blend, 9% in Large Blend Funds, 5% in Diversified Emerging Market Funds, and 3% in World Bond Funds.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2014, there were no transfers in or out of levels 1, 2 or 3.

Note 4 - Investment Certification

Morgan Chase Bank, N.A., the directed trustee of the Plan, has certified the completeness and accuracy of the respective investments and related investment activity and notes receivable from participants and interest on notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the statement of changes in net assets available for benefits for the year ended December 31, 2014 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014.

Note 6 - Tax Status

The Internal Revenue Service determined and informed the Firm by a letter dated February 18, 2014 that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receipt of the letter, and the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that may not be sustainable upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Risks and Uncertainties

The Plan provides for various investments in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the participants' accounts and amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2014 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Note 8 - Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of the net assets available for benefits as reported on the financial statements at December 31, 2014 and 2013 to the Form 5500:

Certain deemed distributions of participant loans: $(101,960)
Net assets available for benefits as reported on the Form 5500: $494,988,904

Note 9 - Related Party and Party-in-Interest Transactions

Certain investments are managed by J.P. Morgan Chase Bank, N.A., the directed trustee and, therefore, these transactions qualify as party-in-interest.

Note 10 - Subsequent Events
