NOTES TO FINANCIAL STATEMENTS

December 31, 2014

1. Description of Plan

The following description of the San Francisco Giants 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted by San Francisco Baseball Associates LLC (the “Company”) on January 1, 1989, and was most recently restated effective May 1, 2010. The Plan is defined as a contribution retirement plan containing a cash or deferred arrangement described in Internal Revenue Code Section 401(k). All fulltime employees, except for union employees, non-resident aliens, and hourly employees and interns, of the Company are eligible to participate in the Plan upon attaining the age of 21 years of age, no minimum service required. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and certain provisions of the Internal Revenue Code.

Plan Administration

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan. Voya Institutional Trust Company (formerly ING National Trust) was the appointed trustee for the Plan in 2014 and 2013, and acted at the direction of the Plan’s administrator. The Company paid the majority of all necessary and proper expenses incurred in the administration of the Plan. Such expenses primarily comprise legal fees, auditing fees, and expenses relating to the maintenance of the Plan’s records and will not be required to be paid back to the Company.

Contributions

Employees who elect to participate in the Plan may contribute a portion of their salary up to 90% of their compensation for that period, or up to the limits imposed by Section 402(g) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may elect to make Roth 401(k) contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes matching contributions based on employee elective deferrals. Generally, the employer matching contributions will be the lesser of 50% of the employee elective deferral, or \$1,000. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, matching contributions, Plan earnings or losses, and rollovers from other qualified plans. Plan earnings or losses are allocated based upon each participant’s account balance.

Certain fees are charged to the fund investments and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

1. Description of Plan, continued

Vesting

Participants are immediately vested in their voluntary and rollover contributions, plus actual earnings thereon. Participants are likewise 100% vested in the Company's matching contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants are allowed one note receivable at any time and may borrow from their fund accounts a minimum of \$1,000 up to 50% of the value of their account balance, or \$50,000, whichever is less. Note receivable terms range from one to five years, except for notes receivable used to purchase a primary residence, which may be repaid longer than five years as determined by the plan administrator. The notes receivable are secured by no more than fifty percent of the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the time the note receivable originates. Interest rates on notes receivable from participants as of December 31, 2014 ranged from 4.25% to 6.50% per annum. Principal and interest are paid in equal installments through payroll deductions, personal checks from employees on leave, or cashier's checks for the full payoff of the notes receivable.

Payments of Benefits

When participants leave the Company, upon retirement or for any other reason, those participants (or their beneficiaries) may receive the full value of their salary deferrals, rollovers, vested employer contributions, and the net earnings thereon in a single lump-sum payment or substantially equal installments. The Plan also allows for in-service withdrawals upon a participant attaining the age of 59½, or having a hardship. In-service withdrawals may be taken from all account balances, with the exception of hardships that may only be taken from pretax deferred contributions and matching contributions.

In order to receive distributions, participants (or their beneficiaries) are required to file the appropriate forms with the plan administrator. Account values will be determined as of the day the distribution is made.

Distributions under the Plan shall generally be made as soon as possible after the date of retirement, date of death, or termination of employment. In the event of a mandatory distribution greater than \$1,000 if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly, then the plan administrator will pay the distribution in a direct rollover to an Individual Retirement Account designated by the plan administrator.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of pooled separate accounts and a guaranteed investment contract offered by the Plan. Participants may change their investment options at any time.

2. Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and changes in net assets available for benefits. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade date basis. Interest is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Recognition of Benefit Payments

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies, continued

Information Certified by the Trustee

Voya Institutional Trust Company (formerly ING National Trust) has prepared and certified as complete and accurate the Plan's schedule of investment assets, transactions, and net realized and unrealized gains and losses on investments, and interest and dividend income, which was used to prepare the accompanying financial statements and supplemental schedule.

New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): (Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, and (Part III) *Measurement Date Practical Expedient* (consensuses of the FASB Emerging Issues Task Force). Under Part I of the new ASU, fully benefit-responsive investment contracts are to be measured, presented, and disclosed at contract value only.

Part II of the ASU eliminates the disclosure requirements for 1) individual investments that represent 5 percent or more of net assets available for benefits and 2) the net appreciation or depreciation for investment by general type (disclosure in the aggregate is still required), for both participant-directed investments and nonparticipant-directed investments.

Part III of the ASU permits the election of a practical expedient to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with the month-end. Any significant contribution, distribution or other event that occurs between these two measurement dates is required to be disclosed.

The amendments in all three parts of the Accounting Standards Update take effect for fiscal years beginning after December 15, 2015, with earlier application permitted. Parts I and II are required to be presented retrospectively for all periods presented, while Part III is to be applied prospectively. The Plan is currently evaluating the impact of this new guidance on its financial statements and related disclosures.

3. Fair Value Measurements

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under these accounting standards are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued

SAN FRANCISCO GIANTS
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014

3. Fair Value Measurements, continued

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013:

Pooled separate accounts: Valued as determined by reference to its underlying investments, which are valued at closing net asset value per share held by the Plan at year-end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (see Note 6).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Investment Contract with Voya Institutional Trust Company

The Plan entered into a benefit-responsive investment contract with Voya Institutional Trust Company (“Voya”), which was formerly known as ING National Trust. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract as of December 31, 2014 and 2013 was \$6,778,342 and \$6,595,326, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield was approximately 2.60% and 2.80% for 2014 and 2013, respectively. The crediting interest rates for these investment contracts are reset annually by the issuer but cannot be less than zero, and were 1.40% and 2.55% as of December 31, 2014 and 2013, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan’s ability to transact at contract value with participants, is probable.

7. Party-in-Interest Transactions

Certain Plan investments are managed by Voya Institutional Trust Company (formerly ING National Trust), the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTES TO FINANCIAL STATEMENTS

8. Tax Status

The Plan uses a prototype plan document sponsored by Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company). Voya Retirement Insurance and Annuity Company received an opinion letter from the IRS dated September 1, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provisions for income tax have been included in the Plan's financial statements.

9. Plan Termination

The Company has established the Plan with the intention and expectation that the Plan will continue indefinitely. However, the Company reserves the right at any time to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, distributions will be made to participants as described in the Plan agreement.

10. Risks and Uncertainties

The Plan provides for various investment options in any combination of pooled separate accounts and a guaranteed investment contract offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

11. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits as of December 31, 2013:

	<u>2013</u>
Net assets available for benefits per financial statements	\$ 27,502,147
Employer contributions receivable	<u>(7,106)</u>
Net assets available for benefits per Form 5500	<u><u>\$ 27,495,041</u></u>

The following is a reconciliation of net increase in net assets per financial statements to net income per Form 5500 for the year ended December 31, 2014:

Net increase in net assets per financial statements	\$ 2,649,607
2013 Employer contributions accrued on financial statements, recorded in Form 5500 in 2014	<u>7,106</u>

12. Subsequent Events

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through September 29, 2015, the date which these financial statements were available to be issued. Effective January 1, 2015, the Plan was amended and restated, which increased election deferral limit to 100% of compensation, no other material changes were done to the Plan. Management concluded that no other material subsequent events have occurred since December 31, 2014 that requires recognition or disclosure in such financial statements.
