INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
UNIVERSAL ELECTRIC CORPORATION 401(K) PROFIT SHARING PLAN
Canonsburg, Pennsylvania

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of **UNIVERSAL ELECTRIC CORPORATION 401(K) PROFIT SHARING PLAN** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary Schedule I as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**UNIVERSAL ELECTRIC CORPORATION
401(K) PROFIT SHARING PLAN**

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the **UNIVERSAL ELECTRIC CORPORATION 401(K) PROFIT SHARING PLAN** provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Universal Electric Corporation (the Company) except members of a union, leased, or temporary employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. An employee shall become eligible upon completion of a quarter of a year of service as defined in the plan document.

Contributions

Contributions to the Plan consist of employees' deferrals, including catch-up deferrals as permitted by the applicable guidelines established within the Internal Revenue Code (IRC), and a Company matching contribution up to 4% of employees' compensation. The Company may also contribute an additional profit sharing amount at the option of the Company's board of directors. These amounts are not to exceed the limits as defined within the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Company's matching contribution plus actual earnings thereon. Participants gradually vest in the Company's profit sharing contribution portion of their accounts, plus actual earnings, thereon, in equal increments based on years of continuous service. A participant is 100% vested after six years of credited service.

NOTE 1 - CONTINUED

Notes Receivable From Participants

Until September 30, 2011, participants were permitted to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of the vested account balance. The notes are secured by the balances in the participants' accounts and bear interest at 4.25%, which commensurate with local prevailing rates as determined by the plan administrator. The notes are generally for a period not to exceed five years unless used to acquire a principal residence. Principal and interest is paid ratably through payroll deductions. As of September 30, 2011, the Plan was amended so that notes receivable from participants are no longer permitted.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions may be made to a participant provided the participant has attained normal retirement age as defined in the plan document.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$1,001 and \$1,501, respectively. These accounts will be allocated to participants in accordance with the applicable formula elected by the Company. Forfeitures are invested and held for a period of five years before being allocated. Participants that are reemployed and fulfill certain requirements, as defined in the Plan, will have their forfeited accounts reinstated. During 2014 and 2013, forfeited nonvested accounts of \$30,605 and \$25,117, respectively, were allocated among remaining participants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 - CONTINUED

The investment in the common collective trust fund (which is considered to be a fully benefit-responsive stable value fund) has underlying investments in investment contracts and is valued at the fair market value of the underlying investments and adjusted by the issuer to contract value. Stable value funds held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits that is attributable to fully benefit-responsive stable value funds. Contract value is the amount plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the stable value fund as well as the adjustment of the fully benefit-responsive stable value fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

In preparing these financial statements, the Plan has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2014 through July 16, 2015, the date the financial statements were available to be issued. No such significant events or transactions were identified.

NOTE 3 - INVESTMENTS

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by Bank of America, N.A. (BOA), and was not subjected to any auditing procedures performed by the independent public accountants:

NOTE 3 - CONTINUED

- a. Investments at fair value and notes receivable from participants as shown in the accompanying statements of net assets available for benefits of \$15,312,220 as of December 31, 2014 and \$13,702,691 as of December 31, 2013.
- b. Net increase in net assets available for benefits of \$1,609,529. An adjustment to the contract value of \$374 was subtracted and adjustments for contributions receivable of \$88,897 were added to arrive at the amount of \$1,698,052 shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.
- c. All investment related information in the accompanying supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014.

The fair values of investments that represent five percent or more of the Plan's net assets as of December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
PIMCO Total Return Fund Cl A GM	\$ 678,773 *	\$ 575,978

Putnam Equity Income FD Cl A GM	1,056,465	1,011,411

* Amounts do not represent five percent or more of the Plan's net assets, however, they are included for comparative purposes only.

During 2014, the Plan's investments in mutual funds and common collective trusts, including gains and losses on investments bought and sold, as well as held during the year, depreciated in value by \$29,253.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

NOTE 4 - CONTINUED

Inputs other than the quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following sections describe the valuation methodologies used by the Plan to measure investments at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts (CCT) - Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE 5 - INVESTMENT CONTRACTS

The Plan invests in a fully-benefit responsive investment fund through an investment contract with Federated Capital Preservation Fund (the Fund) which is a stable value fund. The Fund's underlying investments include various guaranteed investment contracts (GICs), money market funds and other stable value products that can be carried at contract value. The Fund seeks to provide current and stable income, while maintaining a stable unit value of \$10. The expectation is that each unit of the Fund will maintain a constant net asset value of \$10, but there is no assurance that this will be the case. The fair value of the investment contract at December 31, 2014 and 2013 was \$457,966 and \$381,047, respectively.

Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Fund. The Fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Federated Capital Preservation Trust at December 31, 2014 and 2013, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5 - CONTINUED

The interest rate of the Fund (also known as the crediting rate) is initially based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying fixed-income securities. Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they may have a material impact on the contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the contract value are represented on the Plan's Statements of Net Assets Available for Benefits as the "Adjustments from fair value to contract value for fully benefit-responsive investment contracts".

If the adjustment from fair value to contract value is positive for a given contract, this indicates that the contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the adjustment from fair value to contract value figure is negative, this indicates that the contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

The key factors that influence future interest crediting rates for the Fund's various GICs include: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into and out of the GIC, the investment returns generated by the fixed-income securities underlying the GIC, and the duration of the fixed-income securities underlying the GIC. The GICs in the Fund provide for a minimum interest crediting rate of zero percent, which is intended to protect participant's principal and accrued interest. The Fund's weighted average gross crediting interest rate was 1.76% and 1.23% as of December 31, 2014 and 2013, respectively. The average yields of the Fund were as follows:

	<u>2014</u>	<u>2013</u>
Ratio of year end market value yield to investments (at fair value):	1.10%	1.21%
Ratio of year end crediting rate to investments (at fair value):	1.14%	1.46%

Interest rates are reviewed on a monthly or quarterly basis according to the underlying guaranteed investment contracts.

The Plan has no unfunded commitments to the Fund which provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirement for the purpose of funding a bona fide benefit payment, making a participant loan, honoring an employee-directed transfer of the employee's interest in the plan to another investment election, or paying trust fees. Withdrawals from the Fund for any other purpose generally require 12 months advance written notice. Certain events limit the ability of the Fund to transact at contract value. These events may include, but are not limited to the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events within the control of the Fund or the plan sponsor resulting in a material and adverse financial impact on the Fund's obligations under the GIC. The plan administrator does not believe that any events have occurred that would prevent participants from transacting at contract value.

NOTE 5 - CONTINUED

The contracts into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the contracts on short notice. These circumstances may include, but are not limited to, the following: (a) the Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated; (b) the trustee fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or (c) if the fixed-income securities underlying the separate account or synthetic GIC fail to meet certain criteria as specified in each GIC. If one of these events were to occur, the issuer could terminate the separate account or synthetic GIC at the market value of the underlying fixed-income securities (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

NOTE 6 - INVESTMENT OPTIONS

Participants direct the investment of their account balances into various investment options of the Plan. The Plan offers mutual funds and a common collective trust as investment options for participants.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

Certain plan investments were managed by BOA, the trustee and, therefore, qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Such transactions, while considered party-in-interest transactions are specifically exempt as prohibited transactions under ERISA.

NOTE 8 - AMENDMENT AND TERMINATION

The plan agreement may be amended or terminated by the Company at any time. No such termination is contemplated, but if it should occur, the assets of the Plan shall be used to pay or provide for the payment of any and all obligations hereunder, in accordance with the provisions of the Plan and the directions of management. No portion of the assets of the Plan, directly or indirectly, shall revert to or accrue to the benefit of the Company. In addition, in the event of the termination or partial termination of the Plan, all participants shall have a fully vested interest in all accrued benefits.

NOTE 9 - TAX STATUS

The Company adopted a prototype standardized profit sharing plan with a cash or deferral arrangement. The prototype plan sponsor has obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. The plan administrator timely adopted the restated prototype plan. The plan administrator believes that the Plan currently is designed and being operated in accordance with IRC and therefore, believes the Plan is qualified and the related trust is tax exempt.

NOTE 9 - CONTINUED

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500
