RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1.

The following brief description of the Cuningham Group Architecture, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all eligible employees, as defined, of Cuningham Group Architecture, Inc., (the Company), who have completed one (1) month of service and are age eighteen (18) or older. In order to be eligible for the Company's contributions, employees must have completed one (1) year of service as well as fulfilling the age requirement.

Contributions – Participants are allowed to make voluntary pretax contributions of eligible compensation, as defined, to their plan accounts. Participants may also make rollover contributions from qualified benefit plans of previous employers. The Company may also contribute on a discretionary basis a match equal to a percentage of employee contributions. Additional discretionary amounts may be contributed at the election of the Company's Board of Directors. Contributions are subject to certain limitations. The Company's contributions are made in cash.

– Each participant's account is credited with the participant's contributions, the Company's discretionary matching contribution, if any, and allocations of (a) the Company's additional discretionary, if any, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting – Participants are immediately vested in their voluntary contribution and rollover contributions. Vesting in the Company's voluntary matching contributions and additional discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is one hundred percent (100%) vested after six (6) years of credited service.

Forfeitures – Forfeitures shall first be made to reinstate previously forfeited account balances to former participants, as defined. The remaining forfeitures, if any, shall be used to reduce future contributions made by the Company. There were \$5,529 and \$13,824 of forfeitures allocated to eligible participants since there were no contributions made by Company in the years ended December 31, 2014 and 2013, respectively. The balance of forfeitures at December 31, 2014 and 2013, was \$8,580 and \$5,529, respectively.

NOTES TO FINANCIAL STATEMENTS

1.

Notes Receivable - Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or fifty percent (50%) of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant's loan fund. Loan terms range from one to five years, or a longer term for the purchase of a primary residence. The loans are secured by the balance in the participant's account, and the interest rates charged vary between 4.25% and 6.00%. Principal and interest is paid ratably through biweekly payroll deductions.

- Benefits paid to participants represent the amount paid during the year to withdrawing participants. Upon termination of service due to death, disability, or retirement, a participant may elect to receive the value of his or her benefits in the form of a lump-sum amount equal to the participant's account balance or installment payments over a specified period of time. For termination of service due to other reasons, a participant may receive the value of his or her account as a lump-sum distribution.

2.

Subsequent events were evaluated through September 21, 2015, which is the date financial statements were available to be issued.

The accompanying financial statements reflect transactions on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2.)

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of mutual funds are recorded on a trade day basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Company pays all administrative expenses of the Plan, except for fund fees as reported herein

Benefits are recorded when paid.

Reclassifications

Certain amounts in prior year comparative totals have been reclassified to conform with the presentation in the current year financial statements.

4. Fair Value

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical investments.

Level 2 – Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – Significant unobservable inputs

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Participant loans are valued at Level 2 inputs.

The following is a summary of the inputs used to determine the fair value of the investments at December 31:

	Level 1	Level 2	Level 3	Fair Value
Collective Fund:				
WF Stable Return Fund	\$ 1,257,058	\$	\$	\$ 1,257,058

5. Income Tax Status

The Plan obtained its latest determination letter on June 24, 1996, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC) and exempt from income tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provision of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted *Accounting for Uncertainty in Income Taxes*, ASC 740-10. The Plan's policy is to evaluate uncertain tax positions, at least annually, for the potential for income tax exposure. In compliance with its IRC status, the Plan annually files an Annual Return/Report of Employee Benefit Plan (Form 5500). The returns for the years ending December 31, 2011 and later remain subject to examination by the Internal Revenue Service.

6. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants become fully vested in their accounts.

7.

The Plan's investments are managed by the trustees to the plan. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in the net appreciation/depreciation in fair value of the investment, as they are paid through revenue sharing, rather than direct payment. The Plan made direct payments to third party administrators of \$75,542 and \$55,073 which was not covered by the revenue sharing in the years ended December 31, 2014 and 2013, respectively. The Plan sponsor pays directly for any other fees related to the Plan's operations.
