NOTES TO FINANCIAL STATEMENTS
MAGNOLIA RIVER 401K PLAN
DECEMBER 31, 2014

NOTE A – DESCRIPTION OF PLAN

The following description of the Magnolia River 401K Plan (Plan) provides only general information. Participants should refer to the Plan agreements for a more complete description of the Plan's provisions.

1. General – The Plan is a defined contribution plan covering all employees who have obtained age 21 and at least two months of continuous service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan sponsor is Magnolia River Services, Inc. (Company).
2. Contributions – Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the plan, up to the amount allowed by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers forty three mutual fund and common collective trust options as investments for participants. The Company matching contributions are non-discretionary. The Company contributed 100% of the first 3 % of compensation that a participant contributes to the Plan plus 50% of the next 3% to 5% of compensation that a participant contributes to the Plan.
3. Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) Plan earnings, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions and earnings thereon is based on years of continuous service. A participant is 100% vested after two years of credited service. Vesting in the Company's non-elective contribution (if any) and earnings thereon is also based on years of continuous service. A participant is 100% vested after three years of credited service. A year of service requires 1000 hours of service per year calculated by the equivalency method. Hours of service using the equivalency method is calculated by participants credited with 190 hours of service for each month in which an hour of service is credited.
5. Participant Loans – Participants may borrow from their fund accounts up to one half of their vested account balance up to a maximum of \$50,000 and minimum of \$500. The loans are secured by the balance in the participant's account and bear a interest rate of prime plus 2%, determined during the month the loan is effective. Principal and interest is paid ratably through payroll deductions.
6. Payment of Benefits – On termination of service due to death, disability or retirement (including early retirement), a participant is eligible to receive his or her account balance. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account.

MAGNOLIA RIVER 401K PLAN
DECEMBER 31, 2014

NOTE A – DESCRIPTION OF PLAN, CONTINUED

7. Forfeited Accounts – At December 31, 2014, there was \$497 of forfeited nonvested accounts. Forfeited nonvested accounts can be used to pay plan administrative expenses or reduce future employer contributions. In 2014, \$985 of forfeited nonvested accounts were used to reduce employer contributions.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting.
2. Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
2. Notes Receivable from Participants – Notes receivable from participants are measured at their principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Interest income on notes receivable from participants is recorded when earned. Loan fees are expensed when incurred.
3. Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded when received by the trustee. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year. Unrealized appreciation and depreciation are reflected in the financial statements when applicable.

4. Payment of Benefits - Benefits are recorded when paid.
5. Operating Expenses – All expenses of maintaining the Plan are paid by the Company or from forfeited nonvested accounts.

NOTE D – FAIR VALUE MEASUREMENTS (UNAUDITED)

FASB Accounting Standards Codification 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

- Level 1 Inputs are quoted prices for assets or liabilities in active markets.
- Level 2 Inputs are quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets or inputs derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs that are unobservable but significant to the fair value measurement. These inputs often require significant judgment or estimation.

The following is a description of the inputs used for the investments measured at fair value:

Money market: Valued at the net asset value held by the Plan at year end.

Common Collective Trust: Valued at the net asset value of units of a bank collective trust at year end.

NOTE F – ADMINISTRATIVE SERVICES AGREEMENTS

The Plan was under an administrative services agreement with State Street Bank and Trust Company in which ADP serves as the contractual record-keeper.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE H – ALLOCATIONS TO PERSONS WITHDRAWING FROM PLAN

NOTES TO FINANCIAL STATEMENTS
MAGNOLIA RIVER 401K PLAN
DECEMBER 31, 2014

NOTE I – EXCESS CONTRIBUTIONS

At December 31, 2014, there were no contributions allocated to participants in excess of required compliance limits.

NOTE J – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan's Form 5500 is subject to examination by the Internal Revenue Service and Department of Labor for years after 2011.

NOTE K – RISK AND UNCERTAINTIES

The Plan invests in mutual fund investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with mutual fund investment securities, it is at least reasonably possible that changes in the values of mutual fund investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
