NOTES TO FINANCIAL STATEMENTS

Defined Benefit Pension Plan of United Way of Greater Cleveland

1 Description of Plan

The following description of the Defined Benefit Pension Plan of United Way of Greater Cleveland (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan, which was established January 1, 1978, is a non-contributory plan covering all employees of United Way of Greater Cleveland (the "Organization") who meet certain age and service requirements. The Plan is administered by United Way of Greater Cleveland. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2009, the Plan was last amended and restated, and the Plan was frozen to new participants. In addition, former participants in the Plan who were re-hired after December 31, 2009 will not resume participation in the Plan.

Eligibility:

Prior to December 31, 2009, all employees of United Way of Greater Cleveland age twenty-one and older and with one year of service of at least 1,000 hours were eligible to participate in the Plan.

Vesting:

Vesting in the participant's account balance is based on years of service. A participant also becomes fully vested upon reaching age 55, regardless of the years of employment. A participant is vested as follows:

Years of Service	%
1	20%
2	40%
3	60%
4	80%
5	100%

Benefits:

Pension benefits are based on a participant's average annual compensation and years of eligible benefit service on or prior to December 31, 2009. Normally, benefits are paid monthly in the form of an annuity that commences when the participant attains age 65 and continues until the death of the retired participant and participant's spouse, but generally not less than ten years. Participants may elect to receive benefits in the form of a single life annuity, joint pensioner annuity, period certain annuity, or lump sum distribution for benefits accrued prior to July 1, 2006. Benefits accrued after July 1, 2006, shall not be paid in lump sum, unless the amount is less than \$5,000. The Plan permits early retirement with reduced benefits for vested participants who have reached age 55.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments held in the Plan are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Investments in alternate investment vehicles are valued using a net asset value method, as calculated monthly by an independent third party.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

All costs of administering the Plan are paid by the Plan, unless otherwise paid by the Organization.

Plan Termination:

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTES TO FINANCIAL STATEMENTS

Defined Benefit Pension Plan of United Way of Greater Cleveland

2 Summary of Significant Accounting Policies, Continued

Plan Termination, Continued:

Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Risks and Uncertainties:

The Plan's investment include investments in mutual funds, corporate bonds and notes, and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 29, 2015, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

NOTES TO FINANCIAL STATEMENTS

Defined Benefit Pension Plan of United Way of Greater Cleveland

3 Fair Value Measurements, Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices or other observable inputs. These fall into the Level 1 category of the valuation hierarchy.

Money Market Funds:

The fair value of the mutual funds are based on quoted market prices or other observable inputs. These fall into the Level 2 category of the valuation hierarchy.

Limited Partnerships:

The fair value of the limited partnership interest is derived from the net asset value of the fund holdings, measured on a monthly basis. These investments fall into the Level 3 category on the valuation hierarchy.

The Plan invests in a limited partnership interest, which is valued monthly. The Plan is permitted to exit the investment on an annual basis, with written notice provided to the Fund no later than the last business day of October. Redemptions of the Fund are processed using the Fund's net asset value as of December 31.

Common/Collective Trust Funds:

The fair value of the common/collective trust funds are based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

Participant transactions (purchased and sales) may occur daily. The investment strategy for the equity fund is to seek capital appreciation with underlying equity securities. The strategy for the fixed income fund is to seek appreciation based on investments in bonds.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

5 Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees to their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits was determined by an independent actuary and is an amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan year is as follows:

	<u>2014</u>
Actuarial Present Value of Plan Benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 4,378,854
Other participants	<u>5,705,644</u>
Total Vested Benefits	10,084,498
Non-vested benefits	<u>25,503</u>
Total Actuarial Present Value	<u>\$ 10,110,001</u>

NOTES TO FINANCIAL STATEMENTS

5 Accumulated Plan Benefits, Continued

The following highlights the changes in the actuarial present value of accumulated Plan benefits:

Present value of accumulated Plan benefits at January 1, 2013	\$ 10,715,385
Increase (Decrease) during the year attributable to:	
Change in actuarial assumptions	(424,299)
Benefits accumulated and experience (gain) loss	(139,276)
Interest	723,736
Benefits paid	<u>(765,545)</u>
Net increase	<u>(605,384)</u>
Actuarial present value of accumulated Plan benefits at January 1, 2014	<u><u>\$ 10,110,001</u></u>

Significant assumptions underlying the actuarial computations for 2014 are as follows:

Actuarial Cost Method	Unit Credit Method										
Assumed Rate of Return of Investments	7.50%										
Mortality Basis	RP-2000 Mortality Table										
Retirement Age	<table> <tr> <th><u>Age</u></th><th><u>Probability</u></th></tr> <tr> <td>62</td><td>10%</td></tr> <tr> <td>63</td><td>50%</td></tr> <tr> <td>64</td><td>15%</td></tr> <tr> <td>65</td><td>100%</td></tr> </table>	<u>Age</u>	<u>Probability</u>	62	10%	63	50%	64	15%	65	100%
<u>Age</u>	<u>Probability</u>										
62	10%										
63	50%										
64	15%										
65	100%										

The effective interest rates were 4.26% (Pre MAP-21) and 6.42% (Reflecting MAP-21) for current year liability and 4.77% (Pre MAP-21) and 6.23% (Reflecting MAP-21) for prior year liability. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTES TO FINANCIAL STATEMENTS

Defined Benefit Pension Plan of United Way of Greater Cleveland

6 Funding Policy

The Organization's funding policy is to make contributions to the Plan on the basis of an annual actuarial determination of the Plan's liabilities. The amounts of contributions are intended to maintain funding levels in the Plan that will meet current obligations to participants of the Plan, amortize unfunded liabilities and amortize actuarial gains or losses. The Organization's contributions for the years ended December 31, 2014 and 2013 have met the minimum funding requirements under ERISA and the Plan document.

7 Party-in-Interest Transactions

Certain Plan investments are collective investment funds managed by Keybank National Association, the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the Fund for the investment management services.

8 Tax Status

On November 10, 2010, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

APPENDIX B (Continued)

<i>Assumptions Made In Valuing Spouse's Benefit</i>	Eighty percent of the employees included in the valuation are assumed to be married. This percentage is used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.
<i>Optional Form Election</i>	All employees are assumed to elect the life annuity benefit.
<i>Annual Increases to Maximum Benefits, Plan Compensation Limits and Social Security</i>	N/A, plan frozen
<i>Provision for Expenses</i>	The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual administrative expenses during the prior year plus PBGC premiums for the current year, were included in the Target Normal Cost for minimum contribution purposes.
<i>Standing Elections</i>	The client has signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
<i>Asset Method</i>	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
<i>Employees Valued</i>	Only participants as of the valuation date were valued.
<i>Lump Sum Distributions</i>	Funding: 100% of active and deferred participants will receive their June 30, 2006 benefit as a lump sum.

APPENDIX B (Continued)

***Changes in
Assumptions and
Methods since the Last
Actuarial Valuation***

The segmented interest rates used for determining the funding target were 4.94%, 6.15% and 6.76%. These rates were updated to the rates required for the current plan year and adjusted as required by HATFA.

The lump sum rate for the ASC 960-20 lump sum portion of the liability was 3.50%.

The mortality table for the funding target was changed as required under PPA '06.

***Justification for
Changes in Actuarial
Assumptions***

The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."
