INDEPENDENT AUDITOR'S REPORT

To the Trustee of
The Advertising Checking Bureau, Inc.
401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013, and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule on page 19 as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following is a general description of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1955 as a defined contribution plan covering all employees of The Advertising Checking Bureau, Inc. (the "Employer"). Effective March 17, 1997, the Employer elected to amend the Plan in order to convert to a 401(k) plan. The Plan is exempt from federal income tax under the applicable provisions of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), and has been amended as required by law.

Effective April 1, 2014, the Plan entered into an adoption agreement with ING Life Insurance and Annuity Company for a non-standardized 401(k) Profit sharing Plan. In April 2014, ING U.S. changed its name to Voya Financial.

Eligibility

An employee who has attained the age of 20 years and has completed six months of service by the entry dates of January 1, April 1, July 1, or October 1, will automatically become a participant in the Plan.

Contributions

Employee salary deferral contributions are based on specified percentages or amounts of gross pay, but may not exceed a dollar limit which is set by law. Certain participants (age 50 and older) can make an additional catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Rollover contributions amounted to $-0- in 2014 and 2013. Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds and a fixed income account as investment options for participants.

At its discretion, the Employer may also make a matching contribution. To be eligible to receive the discretionary match, the employee must be an eligible participant in the Plan. The Employer match is a percentage of the defined employee's compensation. Matching contributions amounted to $45,395 and $45,639 for the 2014 and 2013 plan years, respectively.

Note 1 - Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the matching employer contribution, as well as an allocation of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Each participant's elective account shall be fully vested for participant contributions and the earnings thereon, at all times and shall not be subject to forfeiture for any reason. Effective April 1, 2014, employer contributions are vested according to the following schedule:

Completed Years of Service	Vested Percentage
After 1 years	25%
After 2 years	50%
After 3 years	75%
After 4 years	100%

A participant is fully vested at age 65, or upon disability or death.

Notes Receivable from Participants

Participants may obtain loans secured by their account value. Loans made are limited to the lesser of $50,000 or one-half of the vested balance in the account, but not less than $1,000. The interest rate charged is a reasonable rate of interest as determined by the plan administrator. Actual interest rates on loans ranged from 4.25% to 9.25% at December 31, 2014 and 2013. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or for reasons other than the preceding, a participant may elect to receive a distribution of his or her vested balance in accordance with provisions provided in the plan document. When a participant reaches age 70 1/2, such participant must receive a required minimum distribution. The Plan also provides for in-service distributions subject to conditions and limitations provided for in the plan document.

Note 1 - Plan Description (Continued)

Forfeitures

As of December 31, 2014 and 2013, forfeited non-vested accounts totaled $568 and $2,369, respectively. These amounts will be used to reduce future administrative expenses allocated to plan participants. Also, in 2014 and 2013, administrative expenses allocated to plan participants were reduced by $4,944 and $ 8,544, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are held in a trust fund maintained by Voya Retirement Insurance and Annuity Company ("Voya") (formerly ING Life Insurance and Annuity Company ("ING"). The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Unless the employer elects to pay such expenses, plan administrative expenses are first paid out of forfeited non-vested accounts before being paid from the participants' accounts.

Subsequent Events

On April 1, 2015, the Plan adopted an agreement with Transamerica Retirement Solutions to hold and maintain its investments and administer the plan.

The Plan has evaluated subsequent events and transactions through October 1, 2015, the date that the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

	December 31,	
	2014	2013
Voya Fixed Account	$ 5,642,596	$ 5,712,888

American Funds Washington Mutual Investors Fund (Class R-2)	1,335,878	*
BlackRock Equity Dividend Fund A	*	865,286

* Represents less than 5% of net assets

As stated in Note 10, the Voya Fixed Account, which is deemed to be fully benefit-responsive, is stated at fair value in the statements of net assets available for benefits, with a corresponding adjustment to contract value. The contract value of this investment was $5,419,060 and $5,565,936 at December 31, 2014 and 2013, respectively.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $105,442 and $1,452,051, as follows:

	2014	2013
Mutual funds	$ 105,442	$ 1,452,051

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

Note 4 - Fair Value Measurements (Continued)

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Fixed account:

The fair value of the fixed account is calculated by Voya (formerly ING) by discounting cash flows based upon the seven-year treasury bond rate and the fixed account interest rate (see Note 10).

Note 4 - Fair Value Measurements (Continued)

Mutual funds:

Mutual funds are valued at the net asset value of the shares held by the Plan at year end and are deemed to be actively traded.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2014 and 2013:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Related Party Transactions

Certain Plan investments are managed by Voya (formerly ING). Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Plan fees for investment management services for the years ended December 31, 2014 and 2013 were $3,250 and $3,350, respectively.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

If this Plan should be terminated, the right of all participants to the amounts credited to their accounts as of the date of such termination shall be non-forfeitable.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated November 4, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The trustee does not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service's determination letter, will affect the qualified and tax-exempt status of the Plan and the Trust, respectively. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Information Certified by the Plan's Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator has obtained certification from Voya (formerly ING), the trustee of the Plan, that the information pertaining to the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2014	2013
Investments:		
Fixed account, at contract value	$ 5,419,060	$ 5,565,936
Mutual funds, at fair value	10,187,851	9,619,198
Total investments	$ 15,606,911	$ 15,185,134
Investment income:		
Net appreciation in fair value of investments	$ 105,442	$ 1,452,051
Interest and dividends	765,529	460,007
Net investment income	$ 870,971	$ 1,912,058

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 9 - Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Voya Fixed Account

The Plan entered into a fully benefit-responsive investment contract, the Voya Fixed Account, with Voya (formerly ING). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $5,642,596 and $5,712,888, respectively. The crediting interest rate is based upon a formula agreed upon with the issuer but it may not be less than 3% for the years ended December 31, 2014 and 2013. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) change to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 10 - Voya Fixed Account (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

INDEPENDENT AUDITOR'S REPORT

To the Trustee of
The Advertising Checking Bureau, Inc.
401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance and Annuity Company), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013, and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule on page 19 as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE ADVERTISING CHECKING BUREAU, INC.
401(K) PLAN
Notes to Financial Statements
December 31, 2014 and 2013

Note 1 - Plan Description

The following is a general description of The Advertising Checking Bureau, Inc. 401(k) Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1955 as a defined contribution plan covering all employees of The Advertising Checking Bureau, Inc. (the "Employer"). Effective March 17, 1997, the Employer elected to amend the Plan in order to convert to a 401(k) plan. The Plan is exempt from federal income tax under the applicable provisions of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), and has been amended as required by law.

Effective April 1, 2014, the Plan entered into an adoption agreement with ING Life Insurance and Annuity Company for a non-standardized 401(k) Profit sharing Plan. In April 2014, ING U.S. changed its name to Voya Financial.

Eligibility

An employee who has attained the age of 20 years and has completed six months of service by the entry dates of January 1, April 1, July 1, or October 1, will automatically become a participant in the Plan.

Contributions

Employee salary deferral contributions are based on specified percentages or amounts of gross pay, but may not exceed a dollar limit which is set by law. Certain participants (age 50 and older) can make an additional catch-up contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Rollover contributions amounted to $-0- in 2014 and 2013. Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds and a fixed income account as investment options for participants.

At its discretion, the Employer may also make a matching contribution. To be eligible to receive the discretionary match, the employee must be an eligible participant in the Plan. The Employer match is a percentage of the defined employee's compensation. Matching contributions amounted to $45,395 and $45,639 for the 2014 and 2013 plan years, respectively.

Note 1 - Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and the matching employer contribution, as well as an allocation of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Each participant's elective account shall be fully vested for participant contributions and the earnings thereon, at all times and shall not be subject to forfeiture for any reason. Effective April 1, 2014, employer contributions are vested according to the following schedule:

Completed Years of Service	Vested Percentage
After 1 years	25%
After 2 years	50%
After 3 years	75%
After 4 years	100%

A participant is fully vested at age 65, or upon disability or death.

Notes Receivable from Participants

Participants may obtain loans secured by their account value. Loans made are limited to the lesser of $50,000 or one-half of the vested balance in the account, but not less than $1,000. The interest rate charged is a reasonable rate of interest as determined by the plan administrator. Actual interest rates on loans ranged from 4.25% to 9.25% at December 31, 2014 and 2013. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement or for reasons other than the preceding, a participant may elect to receive a distribution of his or her vested balance in accordance with provisions provided in the plan document. When a participant reaches age 70 1/2, such participant must receive a required minimum distribution. The Plan also provides for in-service distributions subject to conditions and limitations provided for in the plan document.

Note 1 - Plan Description (Continued)

Forfeitures

As of December 31, 2014 and 2013, forfeited non-vested accounts totaled $568 and $2,369, respectively. These amounts will be used to reduce future administrative expenses allocated to plan participants. Also, in 2014 and 2013, administrative expenses allocated to plan participants were reduced by $4,944 and $ 8,544, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are held in a trust fund maintained by Voya Retirement Insurance and Annuity Company ("Voya") (formerly ING Life Insurance and Annuity Company ("ING"). The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Unless the employer elects to pay such expenses, plan administrative expenses are first paid out of forfeited non-vested accounts before being paid from the participants' accounts.

Subsequent Events

On April 1, 2015, the Plan adopted an agreement with Transamerica Retirement Solutions to hold and maintain its investments and administer the plan.

The Plan has evaluated subsequent events and transactions through October 1, 2015, the date that the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets available for benefits.

	December 31,	
	2014	2013
Voya Fixed Account	$ 5,642,596	$ 5,712,888
Voya T. Rowe Price Growth Equity Portfolio	2,008,840	1,977,760
Voya American Century Small-Mid Cap Value Portfolio	*	963,257
Voya MidCap Opportunities Fd (Class A)	852,788	856,704
America Beacon MidCap Value Fund Y	1,009,598	*
American Funds Washington Mutual Investors Fund (Class R-2)	1,335,878	*
BlackRock Equity Dividend Fund A	*	865,286

* Represents less than 5% of net assets

As stated in Note 10, the Voya Fixed Account, which is deemed to be fully benefit-responsive, is stated at fair value in the statements of net assets available for benefits, with a corresponding adjustment to contract value. The contract value of this investment was $5,419,060 and $5,565,936 at December 31, 2014 and 2013, respectively.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $105,442 and $1,452,051, as follows:

	2014	2013
Mutual funds	$ 105,442	$ 1,452,051

Note 4 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

Note 4 - Fair Value Measurements (Continued)

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Fixed account:

The fair value of the fixed account is calculated by Voya (formerly ING) by discounting cash flows based upon the seven-year treasury bond rate and the fixed account interest rate (see Note 10).

Note 4 - Fair Value Measurements (Continued)

Mutual funds:

Mutual funds are valued at the net asset value of the shares held by the Plan at year end and are deemed to be actively traded.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2014 and 2013:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investments at fair value as of December 31, 2014:

Total investments	$ 15,332,086	$ 9,619,198	$ 5,712,888	$ -

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5 - Related Party Transactions

Certain Plan investments are managed by Voya (formerly ING). Voya is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Plan fees for investment management services for the years ended December 31, 2014 and 2013 were $3,250 and $3,350, respectively.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

If this Plan should be terminated, the right of all participants to the amounts credited to their accounts as of the date of such termination shall be non-forfeitable.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated November 4, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The trustee does not anticipate that changes in the Plan after the date of the amendments covered by the Internal Revenue Service's determination letter, will affect the qualified and tax-exempt status of the Plan and the Trust, respectively. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Information Certified by the Plan's Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the plan administrator has obtained certification from Voya (formerly ING), the trustee of the Plan, that the information pertaining to the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2014	2013
Investments:		
Fixed account, at contract value	$ 5,419,060	$ 5,565,936
Mutual funds, at fair value	10,187,851	9,619,198
Total investments	$ 15,606,911	$ 15,185,134
Investment income:		
Net appreciation in fair value of investments	$ 105,442	$ 1,452,051
Interest and dividends	765,529	460,007
Net investment income	$ 870,971	$ 1,912,058

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 9 - Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Voya Fixed Account

The Plan entered into a fully benefit-responsive investment contract, the Voya Fixed Account, with Voya (formerly ING). Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $5,642,596 and $5,712,888, respectively. The crediting interest rate is based upon a formula agreed upon with the issuer but it may not be less than 3% for the years ended December 31, 2014 and 2013. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) change to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 10 - Voya Fixed Account (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 11 - Reconciliation of Financial Statements to Form 5500 Annual Return/Report of Employee Benefit Plan

In accordance with ERISA regulations Section 2520.103-1(b)(3), set forth below is a reconciliation of amounts appearing in the accompanying financial statements to amounts appearing on Form 5500.
