Note 1 - Description of Plan

The following description of the Orly International, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and employer matching plan covering substantially all employees of Orly International, Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective August 24, 2014, SpaRitual, LLC, a member of the controlled group, adopted the Plan and its employees became eligible for the Plan in accordance with the Plan Agreement. Orly International, Inc. and SpaRitual, LLC (collectively the "Company") are the Plan's sponsors and serve as plan administrators.

Eligibility – Employees of the Company are eligible to participate in the Plan and receive employer matching contributions upon attaining 21 years of age and after completing one year of consecutive service. Participants must complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer paid profit sharing contributions. Entry date to the Plan is January 1st or the date six months later, coincident with or next following satisfaction of the eligibility requirement.

Contributions

Participant contributions – Each year, participants may contribute between 1-100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. In 2014, the Company matched 50% of employee contributions, up to 5% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2014.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Note 1 – Description of Plan (continued)

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a period of ten years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2014, the rates of interest on outstanding loans ranged from 4.25% to 7.00% with various maturities through November 2019.

Payment of benefits – On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Effective January 1, 2014, participants may also elect to receive in-service withdrawal upon reaching the age of 59 ½. Vested accounts of $1,000 or less will be automatically paid in a lump-sum amount as soon as administratively feasible. Vested accounts greater than $1,000, but not to exceed $5,000, will be automatically distributed in the form of a rollover into an individual retirement account.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, and will first be used to pay plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2014 and 2013, forfeited non-vested accounts totaled $8,684 and $6,214, respectively. For the year ended December 31, 2014, $8,000 was used for payment of plan administrative expenses from forfeited non-vested accounts. Forfeitures were not used to reduce Company contributions during the year ended December 31, 2014.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Note 2 – Summary of Significant Accounting Policies (continued)

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncement – In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).

The ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value practical expedient ("NAV practical expedient") per share. The ASU has been adopted for the December 31, 2014 Plan year end; however, the retrospective approach requires that an investment for which fair value is measured using NAV practical expedient be removed from the fair value hierarchy in all periods presented in the financial statements. Accordingly, the fair value hierarchy disclosures previously included in the footnotes are no longer required.

In July 2015 FASB issued ASU 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962) I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. The ASU removes the requirement to:

- disclose individual investments held which exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

ASU 2015-12 has been adopted for the December 31, 2014 plan year end, however, the retrospective approach requires that the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

Investment valuation – The investments are stated at fair value as certified by the Plan's custodian, John Hancock Life Insurance Company (U.S.A.).

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Note 2 – Summary of Significant Accounting Policies (continued)

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon severance from employment, retirement, death, if the participant becomes disabled and takes a final distribution, or if the participant reaches the earliest date on which an in-service distribution is permitted under the Plan.

Payment of benefits – Benefits are recorded when paid.

Expenses – General plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

Effective January 1, 2015, the Plan was amended to change the minimum service requirement for eligibility for elective deferrals, non-elective contributions and matching contributions. The minimum service requirement was changed from one year to three consecutive months, using the elapsed time method. The Plan entry date was also amended to be the first day of each calendar month, coincident with or next following satisfaction of the eligibility requirement.

The Plan has evaluated subsequent events through September 3, 2015, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

Note 3 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan adopted ASU 2015-07, which removed the requirement to categorize investments valued at NAV from the fair value hierarchy table.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Units held in pooled separate accounts ("PSAs") are valued using NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Each of the PSAs represents net contributions from unit holders that are allocated to that fund (a sub-account of the relevant separate account). Each PSA invests solely in shares of a mutual fund (the "underlying funds") which are segregated from other assets of John Hancock Life Insurance Company (U.S.A.).

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 8, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 6 – Information Certified By the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Investments reflected on the schedule of assets (held at end of year).

Note 7 – Party-In-Interest Transactions

Plan investments include units of PSAs managed by John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) is the custodian of the Plan and, therefore, transactions with the entity qualifies as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to John Hancock Life Insurance Company (U.S.A.) amounted to $365 for the year ended December 31, 2014.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
