1. DESCRIPTION OF PLAN:

The following description of the C.S.A. Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Chard, Snyder & Associates, Inc. (the Company or Employer) who have one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% percent of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Employees may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute a discretionary matching contribution to the Plan. For the year ended December 31, 2014, the Company matched 25% of deferrals, up to a maximum of 1.5% of eligible compensation, as defined. An additional discretionary profit sharing contribution may be contributed at the option of the Company. No profit sharing contribution was made to the Plan during the year ended December 31, 2014. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's elective contributions and the employer's related matching and discretionary contributions, if any, and an allocation of Plan earnings. Allocation of Plan earnings is based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the prime rate, as defined. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of benefits

Upon termination of service due to death, disability, retirement or for termination of service for other reasons, a participant with a vested balance of \$1,000 or more may receive a lump sum distribution equal to the value of the participant's vested interest in his or her account. Participants with a vested account balance less than \$1,000 may receive a lump sum distribution, or a rollover to another qualified plan at the Plan Sponsor's discretion.

Forfeited accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$7,335 and \$9,267 respectively. During the year ended December 31, 2014 \$4,032 of forfeitures were used to pay Plan expenses.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan were prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common/collective trust. Contract value for this common/collective trust fund is based on the net asset value (NAV) of the fund as reported by the investment advisor. As required by professional standards, the statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to the investment contract. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The plan has evaluated subsequent events through September 21, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS:

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	<u>2014</u>	<u>2013</u>
JPMorgan US Equity A	\$ 161,869	130,437
Dreyfus Worldwide Growth A	109,751	97,231
BlackRock Equity Dividend Inv A	109,978	98,961
Franklin Income A	134,881	**
Janus Balanced A	123,361	**
ClearBridge Aggressive Growth A	104,159	**
Principal Real Estate Securities R3	101,721	**
John Hancock Balanced Fund A	**	102,810
JPMorgan Investor Conservative Growth A	**	115,558
Wells Fargo Advantage Growth A	**	98,896

** Investment balance did not exceed 5% of net assets or was not held at end of year.

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$28,163.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Cash and cash equivalents: Valued at face value due to their high liquidity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions from this fund.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

The Fund is comprised of investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds.

5. RELATED PARTY TRANSACTIONS:

Certain Plan expenses were paid by the Company. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. INFORMATION CERTIFIED BY THE CUSTODIAN:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified to the completeness and accuracy of all investments as of December 31, 2014 and 2013, and the related investment activity for the year ended December 31, 2014.

8. INCOME TAX STATUS:

The Company adopted a prototype standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the IRS dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine tax audits by taxing jurisdictions; however, there are currently no audits for periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENT:

On August 1, 2015, an amendment to the Plan changed the definition of an eligible employee. An employee who has been employed for one month and completes 109 hours of service during that month is considered an eligible employee. This amendment also changed the threshold for participants to elect to retain the balance in their account within the Plan upon termination of service from \$1,000 to \$5,000.
