NOTES TO FINANCIAL STATEMENTS

ROSKAM BAKING COMPANY HOURLY EMPLOYEES RETIREMENT PLAN

December 31, 2014 and 2013

Note A – Description of the Plan

The following description of the Roskam Baking Company Hourly Employees Retirement Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing and 401(k) plan that covers certain hourly employees of Roskam Baking Company (the Plan Sponsor) and its controlled group of corporations (Company). Eligible employees can become participants in the 401(k) portion of the Plan on January 1 or July 1 following completion of one year of employment with at least 1,000 hours of service. Employees become eligible to receive contributions from the Company on January 1 following the completion of 12 consecutive months of employment with at least 1,000 total hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions

Participants may elect to make contributions to the Plan through payroll deductions of a percentage of each participant's compensation, as defined, not to exceed statutory limits. The Plan allows participants to transfer funds from other employer qualified plans into the Plan.

The Company is required to make a contribution based on hours worked, up to a maximum of 40 hours per week, multiplied by an amount that is determined by collective bargaining. The amount contributed for the 2014 and 2013 plan years was \$.25 per hour worked.

Plan Operations

The Company has appointed John Hancock Life Insurance Company to serve as group annuity contract holder of the Plan and a salaried employee of the Plan Sponsor to serve as the trustee and administrator. The group annuity contract holder is responsible for holding the investment assets of the Plan, executing investment transactions, and making distributions to participants. The Trustee interprets and communicates the provisions of the Plan, ensures that all government and participant reporting requirements are fulfilled, and approves all distributions from the Plan to participants.

ROSKAM BAKING COMPANY HOURLY EMPLOYEES RETIREMENT PLAN

December 31, 2014 and 2013

Note A – Description of the Plan (Continued)

Participant Accounts

Individual accounts are maintained for each participant, with benefits limited to the amount contributed to the participant's account plus or minus any allocation of income, expenses, gains or losses. Allocations to participant accounts are based on compensation, hours worked, or account balances, as specified by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan allows a participant to self-direct investment transactions associated with separate investment fund options made available by the employer for this purpose.

Vesting

Participants are immediately fully vested in their voluntary and employer contributions.

Loans

Loans to participants are not allowed by the Plan. However, existing loans granted to transferred participants will be maintained by the Plan.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or periodic installments, at least annually, over a period not longer than the joint life expectancy of the participant and spouse or beneficiary. In-service withdrawals are permitted upon attaining age 59½ or in cases of hardship.

Costs and Expenses

Certain administrative expenses are paid by the Plan and are based on reasonable and customary rates. Certain other costs and expenses incurred in connection with the operation of the Plan are borne by the Company.

Note B – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investments

Investments are reported in the Plan's financial statements at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document, therefore an allowance for credit losses is not considered necessary at December 31, 2014 and 2013.

Income Recognition

Income from interest is recorded as it is earned. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis. Net appreciation or depreciation of investments is determined using the value at the beginning of the year or purchase price if acquired since that date. Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefits are recorded when paid.

Note B – Summary of Accounting Policies (Continued)

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through August 25, 2015, which is the date the financial statements were available to be issued.

Note C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets and liabilities in markets that are not active
- other inputs that are observable or can be corroborated by observable market data
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

ROSKAM BAKING COMPANY HOURLY EMPLOYEES RETIREMENT PLAN

December 31, 2014 and 2013

Note C – Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at net asset value (NAV) based on the closing price for underlying securities, reported on the active market on which underlying securities are traded or based on quoted prices of similar assets. The NAV of each of the separate accounts is reported by the fund managers as of the financial statement date based on recent transaction prices, and represents the price at which the Plan would be able to initiate a transaction. The pooled separate accounts held by the Plan provide for daily redemptions by the plan at reported NAV with no advance notice requirement, and have no unfunded commitments. Investment objectives and strategies of significant pooled separate accounts are as follows:

Pooled Separate Account Name	Objective	Allocation Strategy (percentages approximate)
Lifestyle Funds (operating as funds of funds)		
Conservative	Seeks high level of current income with some consideration given to growth of capital	80% in portfolios that invest primarily in fixed income securities and 20% in portfolios that invest primarily in equity securities
Moderate	Seeks balance between high level of current income and growth of capital, with greater emphasis on income	60% in portfolios that invest primarily in fixed income securities and 40% in portfolios that invest primarily in equity securities
Balanced	Seeks balance between high level of current income and growth of capital, with greater emphasis on growth of capital	50% in portfolios that invest primarily in fixed income securities and 50% in portfolios that invest primarily in equity securities
Growth	Seeks long term growth of capital	30% in portfolios that invest primarily in fixed income securities and 70% in portfolios that invest primarily in equity securities
Aggressive	Seeks long term growth of capital	100% in portfolios that invest primarily in equity securities

Total	\$ -	\$ 4,781,845	\$ -	\$ 4,781,845

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total assets available for benefits. For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of levels 1, 2, or 3.

NOTES TO FINANCIAL STATEMENTS

Note D – Investments

The following table presents the fair market values of investments at December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's assets are separately identified.

	2014	2013
Investments at Fair Value:		
Venture Lifestyle Conservative Fund	\$ 622,287	\$ 502,779
Venture Lifestyle Moderate Fund	500,984	457,443
Venture Lifestyle Balanced Fund	1,314,481	1,067,991
Venture Lifestyle Growth Fund	1,308,913	1,125,568
Venture Lifestyle Aggressive Fund	765,188	586,555
Other pooled separate accounts	1,129,952	1,041,509
	<u>\$ 5,641,805</u>	<u>\$ 4,781,845</u>

During the years ended December 31, 2014 and 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$232,907 and \$696,682, respectively.

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of assets available for benefits.

Note E – Information Certified by John Hancock Life Insurance Company

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2014 and 2013, and net appreciation in fair value of investments and interest for the years then ended, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company.

Note F – Party-In-Interest Transactions

Certain plan investments are shares of pooled separate accounts offered by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the group annuity contract holder, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS

ROSKAM BAKING COMPANY HOURLY EMPLOYEES RETIREMENT PLAN

December 31, 2014 and 2013

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions subject to any applicable provision of its collective bargaining agreement and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would remain 100 percent vested in their accounts.

Note H – Tax Status

The Plan has adopted a volume submitter plan which received a favorable opinion letter dated March 31, 2008. Although the plan has not applied for an individual determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
