INDEPENDENT AUDITORS' REPORT

To the Trustees
First Alarm Employee Stock Ownership Plan and Trust
Aptos, California

Report on the Financial Statements

We have audited the accompanying financial statements of First Alarm Employee Stock Ownership Plan and Trust (the Plan), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets (deficit) available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in its net assets (deficit) available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1. DESCRIPTION OF PLAN

The following description of the First Alarm Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: First Alarm, Inc. and First Alarm Security and Patrol, Inc. (the Companies) established the Plan effective as of January 1, 2009. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Security Act of 1974 (ERISA). David Hood, Cal Horton and Mahlon W. Edmonson, Jr., collectively, are the Plan's trustee.

During 2013, the Plan purchased 190,000 shares of First Alarm, Inc.'s common stock with a $701,400 down payment along with a $2,040,300 loan to the stockholder (see note 7) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Companies. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012, and for the years ended December 31, 2013 and 2012, present separately the assets and liabilities and changes therein pertaining to:

a. the accounts of employees with vested rights in allocated common stock (allocated), and

b. common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Companies are generally eligible to participate in the Plan if over the age of 21 and have completed one year of service with one thousand hours and are not covered under a union collective bargaining agreement. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of the Companies contributions for such year.

Employer Contributions: The Companies are obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Participants are not allowed to make contributions to the Plan and rollovers to the Plan are not accepted.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits: Distribution of benefits shall be limited to those portions of a participant's vested account. Upon death, disability, or attaining normal retirement age, a participant or beneficiary may elect to receive the value of his or her account as a lump sum amount payable to the participant or his or her beneficiary no later than one year after the end of the plan year in which the participant dies, becomes disabled, or attains normal retirement age. If a participant's entire vested account exceeds $5,000 and distribution is due to other than the participant reaching normal retirement age, disability or death, the distribution of such account shall commence during, but before the end of, the sixth plan year following the plan year in which the participant has a severance from employment. If a participant's entire vested account does not exceed $5,000, the distribution of such account shall be made as soon as administratively feasible after the end of the plan year in which the participant has severance from employment. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of First Alarm, Inc.'s common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Companies are obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2013 and 2012, the Companies did not repurchase any shares from participants.

Plan Expenses: The Companies pay all Plan expenses, and if such expenses remain unpaid for a period of sixty days, they may be paid from the Plan.

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan Termination: The Companies reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, Companies management should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of First Alarm, Inc.'s common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Companies as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting: Vesting is based on years of continuous service in the Plan. A participant is vested after years of credited service per the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Also, a participant will be credited with one year of service for every seven years of service credited prior to the effective date of the Plan, January 1, 2009. The value of a participant's account shall become fully vested when the participant attains his or her normal retirement age while an employee, or upon his or her severance from employment by reason of death.

Put Option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Companies buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Companies can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in First Alarm, Inc.'s common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Forfeitures: Plan forfeitures are allocated to each remaining participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Cash forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2013 and 2012, totaled $5,610 and $32,113, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and uncertainties: The Plan investments consist primarily of First Alarm, Inc.'s common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The shares of First Alarm, Inc.'s common stock are valued at fair value. See note 6 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net unrealized gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events: The Plan's management has evaluated subsequent events through September 24, 2015, the date of issuance of the financial statements. Management is not aware of any subsequent events that would require additional recognition or disclosure in the financial statements.

NOTE 3. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated September 23, 2013, stating that the Plan is qualified, under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan management has analyzed tax positions taken by the Plan and concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

The Plan's 2013 and 2012 Forms 5500 were not filed timely with the Department of Labor (DOL). The Companies are in the process of correcting this error pursuant to the IRS Voluntary Fiduciary Correction Program and will pay any penalties associated with the late filings. The Companies believe that the final outcome will not have a material effect on the Plan's accompanying financial statements or any impact to the Plan's qualified tax status.

NOTE 4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of First Alarm, Inc.'s common shares, are held by the Trustee of the Plan.

The Companies contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

NOTE 4. ADMINISTRATION OF PLAN ASSETS (Continued)

Certain administrative functions are performed by officers or employees of the Companies or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Companies.

NOTE 5. INVESTMENTS

The Plan's investments, at December 31, are presented in the following table:

	2013		2012	
	Allocated	Unallocated	Allocated	Unallocated
First Alarm, Inc. common stock:				
Number of shares	81,926	108,074	--	--
Cost	$ 1,182,192	$ 1,559,508	$ --	$ --
Fair Value	$ 1,119,109	$ 1,476,291	$ --	$ --

NOTE 6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6. FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

- The fair value of the First Alarm, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of market and income valuation techniques. The market approach utilized the Guideline Transactions Method and concentrated on multiples of revenue, recurring monthly revenue, and gross profit. The income approach utilized the Capitalized Returns Method. In addition, the appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of the Companies assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

- The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the 2008-2012 financial statements of the Companies. The appraiser prepares a preliminary report which plan management, along with the ESOP administrator, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

December 31, 2013

	Level 1	Level 2	Level 3	Total
Investment in First Alarm Inc. common stock	$ --	$ --	$ 2,595,400	$ 2,595,400
Total investments at fair value	$ --	$ --	$ 2,595,400	$ 2,595,400

NOTE 6. FAIR VALUE MEASUREMENTS (Continued)

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013.

	Level 3 Assets Year Ended 31-Dec-13
	Investment in First Alarm, Inc. Common Stock
Balance, beginning of year	$ --
Shares purchased	2,741,700
Realized gains/(losses)	--
Unrealized gains/(losses) relating to assets still held at the reporting date	(146,300)
Shares distributed to participants	--
Balance, end of year	$ 2,595,400
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (146,300)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation/depreciation in fair value of investments in the Statements of Changes in Net Assets (Deficit) Available for Benefits.

NOTE 7. LOAN PAYABLE

In 2013, the Plan entered into a $2,040,300 loan agreement with the stockholder to finance the purchase of First Alarm, Inc. common stock. Unallocated shares are collateral for the loan; initially 141,392 of shares were pledged as collateral. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 33,318 shares being released and allocated for the plan year ended December 31, 2013.

NOTE 7. LOAN PAYABLE (Continued)

The note payable requires monthly principal payments of $60,000 plus interest at 2% with a final due date of December 1, 2016. Future principal payments for each of the succeeding years ending December 31 are due as follows:

2014	$ 650,364
2015	720,000
2016	669,936
	$ 2,040,300

NOTE 8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain officers and employees of the Companies (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Companies pay these individuals salaries and also pays other administrative expense on behalf of the Plan. These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

The Plan invests in First Alarm, Inc.'s common stock and has indebtedness guaranteed by the Companies. These are related party and party-in-interest transactions.

NOTE 9. AMOUNT DUE TO TERMINATED PARTICIPANTS

As of December 31, 2013 and 2012, net assets available for Plan benefits due to participants who have withdrawn from participation in the Plan was $0 and $12,503, respectively.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 1,115,899	$ 797,916
Adjustment for distributions payable	--	(12,503)
Adjustment for accrued interest	(24,580)	--
Net assets available for benefits per Form 5500	$ 1,091,319	$ 785,413

The following is a reconciliation of deductions from net assets per the financial statements to Form 5500:

	2013	2012
Total deductions per financial statements	$ 30,661	$ 332
Adjustment to benefits paid to participants	(12,503)	12,503
Adjustment for interest expense	24,580	--
Total deductions per Form 5500	$ 42,738	$ 12,835

NOTE 11. RELATED PARTY PAYABLE

The related party payable to First Alarm, Inc. consists of distribution payments made by First Alarm, Inc. on behalf of the Plan. The Plan intends to reimburse First Alarm, Inc.
