Nimlok Company 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following brief description of the Nimlok Company 401(k) Profit Sharing Plan (Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering all full-time employees of Nimlok Company and subsidiaries, Exsel Exhibits, Inc. and Orbus, Inc. (collectively the Company), who have completed three months of service. It is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Ascensus Trust Company, formerly Frontier Trust Company, is the trustee of the Plan under a contractual agreement with the Company and manages all investments. Ascensus is the recordkeeper. The recordkeeping agreement provides that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions, and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period.

Contributions

Subject to Internal Revenue Service limitations, each year participants may contribute a percentage of compensation, as defined in the Plan. In addition, all active participants who are eligible to make pre-tax contributions and who have attained the age of 50 before the close of the year shall be eligible to make employee catch-up contributions of up to $5,500 in 2014 and 2013. A participant's account may include after-tax contributions made to another plan and transferred to the Plan as part of a rollover contribution. The Company will match 100% of the first 2% of salary deferral amounts that a participant contributes to the Plan. In addition, the Company will contribute, as a safe harbor, 3% of the compensation of each participant. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's 3% safe harbor contribution plus actual earnings thereon. Vesting in the Company's matching contribution plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in matching contributions after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from one to five years except for those loans utilized for the purchase of a primary residence, which could exceed five years. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 6.50%, which are commensurate with local prevailing rates as determined by the plan administrator. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

Upon termination of employment or attainment of normal retirement age, the participant, or in the case of death, the surviving spouse, can elect to receive the participant's account balance in a single lump sum or in various installment annuities.

If a participant terminates prior to retirement, death or disability, the vested benefit will be distributed as soon as administratively feasible if it totals less than $5,000. If the benefits are greater than $5,000, the participant may elect a lump-sum distribution directly after their termination or may defer payment until their normal retirement date.

Hardship Withdrawals

Participants may elect to withdraw all or a portion of their elective or employer contribution accounts in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures

At December 31, 2014 and 2013, forfeited non-vested accounts available for use totaled $94,429 and $94,263, respectively. Such forfeitures may be used to reduce administrative expenses and employer contributions. Forfeitures used during the plan years ended December 31, 2014 and 2013 were $19,548 and $0, respectively.

December 31, 2014 and 2013

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments in registered investment companies and money market funds are stated at fair value based on quoted market values.

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses incurred in administering the Plan are paid by the Company and not reimbursed by the Plan. Administrative expenses paid by the Plan are recognized as paid. Certain investment fees are netted in the net appreciation in fair value of investments.

Note 4: Fair Value of Plan Assets and Liabilities

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The fair value of registered investment companies and money market funds is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 5: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6: Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, as agent for Ascensus Trust Company, formerly Frontier Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate to the best of their knowledge:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.

- Interest and dividend income, interest from participant notes receivable and net appreciation in fair value of investments, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

- The information included in the supplemental schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplement schedule.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 8: Income Tax Status

The Company adopted a Prototype Standardized 401(k)/Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 9: Party-In-Interest Transactions

Expenses paid by the plan sponsor and the Plan for services rendered by the trustee and other parties-in-interest were for services required by the Plan. Expenses of $24,553 and $24,880 were paid by the Plan during 2014 and 2013, respectively, for professional services rendered by parties-in-interest.

Note 10: Late Deposits

During a recent Department of Labor (DOL) investigation of the Plan covering the period January 1, 2010 through May 24, 2013, the plan sponsor was notified of late participant contributions. The DOL considered $742,752 of participant contributions and $165,442 of participant loan repayments to be untimely remitted. The plan sponsor has made the participants accounts whole by depositing lost earnings of $2,852 on November 22, 2013. Since the plan sponsor took corrective action, the DOL has indicated that no further action will be taken.

Note 11: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
