Note 1 - Plan Description

The following description of the AK Steel Corporation 401(k) Plan (f/k/a Severstal North America 401(k) Plan I) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

On September 16, 2014, AK Steel Corporation (the "Company") acquired Severstal Dearborn, LLC (Dearborn), which immediately was merged with and into the Company. As a result of this transaction, AK Steel became the plan sponsor of the Plan and assumed all outstanding obligations of the Plan as of the date of acquisition. Following the acquisition, the Plan was renamed from Severstal North America 401(k) Plan I. On December 31, 2014, the Plan merged with and into the AK Steel Corporation Thrift Plan - Plan Document A. See Note 6 for additional information.

General - The Plan was a voluntary, defined contribution plan covering salaried employees of Dearborn, along with salaried laboratory workers and firefighters who have attained three months of service and were hired or rehired before February 1, 2012. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Company was the sponsor of the Plan. Fidelity Management Trust Company functioned as trustee and investment manager. Investment management fees and trustee fees were paid by the Plan or the Company at the discretion of the plan administrator.

Contributions - Participants may have elected to make pretax and Roth contributions to the Plan. The Plan provided for employee salary 401(k) pretax and Roth contributions up to a maximum of 90 percent of the annual compensation subject to limitations established by the Internal Revenue Code (eligible compensation). Participants may have also made contributions to the Plan in the form of a rollover of funds from another qualified plan.

Effective January 1, 2013, the Plan was amended to include a safe harbor nonelective contribution in the amount of three percent of eligible compensation. In addition to the safe harbor contribution, the Company made contributions to the Plan as a percentage of each participant's base salary or, if greater, a minimum base salary, and the participant's age as defined in the plan document. In 2014, the Company made contributions to the Plan according to the following schedule:

Note 1 - Plan Description (Continued)

Participant's Age at End of Pay Period	Monthly Minimum Base Salary	2014 Employer Contribution Percentage
Under 30	$ 1,957	0.1 %
30-34	2,109	0.7
35-39	2,621	1.3
40-44	3,184	1.9
45-49	4,173	2.4
50-54	5,380	2.8
55 and over	7,269	3.2

Participant Accounts - Each participant's account was credited with the participant's contributions, if applicable, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations were based on participants' compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Investment Options - Participant and company contributions may have been allocated to investment options in multiples of one percent. Participants may have changed their investment choices for both future contributions and existing account balances and may have suspended contributions by contacting Fidelity Management Trust Company.

Participant Notes Receivable - Participants may have borrowed from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable were collateralized by the participant's account balance and bore interest at a market rate.

Vesting - Participants were immediately vested in employee salary 401(k) and rollover contributions and any income or loss thereon. Effective September 1, 2011, the Plan was amended to change the vesting schedule related to the Company's contribution portion of participants' accounts, plus actual earnings thereon, to become immediately vested.

Payment of Benefits - Distributions were payable upon retirement, attainment of age 59½, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may have requested that a portion of their contributions account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must have approved any such hardship withdrawals that did not fall within the IRS safe harbor guidelines.

Forfeitures - If a participant was not fully vested on his or her termination date, the nonvested amount of the account was forfeited. Forfeitures were used to reduce future company contributions or to pay administrative expenses of the Plan. At December 31, 2014 and 2013, forfeited account balances were $0 and $29,321, respectively.

Party-in-interest Transactions - Certain plan assets were in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company was the trustee of the Plan; therefore, these transactions qualified as party-in-interest transactions as defined under ERISA guidelines. The Company paid certain administrative fees on behalf of the Plan. The Company was the plan sponsor and therefore, these transactions qualified as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan were stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded as earned. Dividends were recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable were recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable were written off when deemed uncollectible.

Contributions - Contributions were recorded in the period that payroll deductions were made from participants.

Benefit Payments - Benefits were recorded when paid.

Administrative Expenses - Various administrative costs were paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events through and including September 16, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") held the Plan's investments and participant notes receivable and executed all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements were based solely on information provided by the Trustee.

Significant investments included in end of year net assets at December 31, 2013 are as follows:

	2013
Mutual funds:	
Harbor Capital Appreciation Fund	$ 3,882,110
T. Rowe Price Retirement 2015 Fund	2,512,712
T. Rowe Price Retirement 2020 Fund	3,173,698
Money market funds - Fidelity Retirement Money Market	4,275,628

Note 4 - Tax Status

The Plan, as adopted, was a volume submitter plan, which did not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan had received a favorable notification letter from the IRS dated March 31, 2008. The Plan had not individually sought its own determination letter.

Note 4 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan had any uncertain tax positions that required disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities at the measurement date that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly at the measurement date. These Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability at the measurement date. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset or liability.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. Management's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Stock - Common stocks are valued at closing quoted prices reported in active markets.

Note 5 - Fair Value Measurements (Continued)

Money Market Funds - Money market funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Funds - The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013. As detailed in Note 6, all plan assets were transferred to the AK Steel Corporation Thrift Plan - Plan Document A effective December 31, 2014.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

(1) This class represented investments in actively managed common collective trust funds that invested primarily in equity securities, which may have included common stocks, options, and futures.

(2) This class represented investments in actively managed common collective trust funds that invested in a variety of fixed-income investments, which may have included corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

There were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Fair Value Measurements (Continued)

The Plan's policy was to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014.

Note 6 - Plan Merger

During 2014, as part of the acquisition by AK Steel Corporation detailed in Note 1, the Company restructured the Plan and the participants eligible for the Plan. As part of this restructuring, the Plan transferred certain participants to, and certain participants were transferred from, the AK Steel Tax-Efficient Savings Plan for Hourly Employees. Accordingly, assets of $338,166 and $727,788 were transferred into and out of the Plan, respectively.

As of December 31, 2014, effective immediately after the valuation of the accounts as of that date, the Plan merged with and into AK Steel Corporation Thrift Plan - Plan Document A. Accordingly, all assets, participants, and their related account balances were transferred to the AK Steel Corporation Thrift Plan - Plan Document A on December 31, 2015. The Plan ceased to be a separate plan as of December 31, 2014.
