HEADLANDS VENTURES, LLC
401(K) PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. Description of Plan

The following description of the Headlands Ventures, LLC ('Company') 401(k) Profit Sharing Plan and Trust ('Plan') provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on July 1, 1999 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of three consecutive months of service. Generally, the Plan covers all employees of the Company who are at the age 21 or older, except for the employees who are:

- included in a unit of employees covered by the terms of a collective bargaining agreement; or
- non-resident aliens who received no earned income from the Company; or
- employees as a result of an asset or stock acquisition, merger, or similar transaction.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Participants' contributions

Participants may contribute up to \$17,500 of the pre-tax annual compensation for the year ended December 31, 2014. Participants who have attained age 50 before the end of plan year are eligible to make an additional catch up contribution with an amount up to \$5,500 for the year ended December 31, 2014. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans.

c. Employer's contributions

Each plan year, the Company may contribute, as determined by the Board of Directors, to the Plan based on the total compensation of all the participants eligible to receive an allocation. The Company may, at its discretion, make qualified non-elective contributions to participants who are not highly compensated employees. The Company may also make profit sharing contributions to all qualified participants at its discretion. Both qualified non-elective and profit sharing contributions will be allocated to the participants according to the ratio that the participant's compensation for the plan year bears to the total compensation of all participants for such plan year. For the year ended December 31, 2014, no employer's qualified non-elective and profit sharing contributions were made after December 1, 2014.

d. Participant accounts

Each participant's account is credited with the participants and employer's contributions, and allocations of gains or losses from investments. The allocations are based on terms as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately and fully vested in their contributions and gains or losses thereon allocated to their accounts. Participants vest in the employer's discretionary contributions according to the following schedule:

<u>Years of Employment</u>	<u>Vested Percentages</u>
1	25%
2	50%
3	75%
4	100%

Participants will be fully vested with the employer's discretionary contributions in the event of death, disability, attainment of normal retirement age or complete or partial termination of the Plan.

f. Forfeitures

Forfeitures represent the non-vested portion of terminated participants' account balances. These amounts can be used to pay for plan administrative expenses or to reduce future employer matching or discretionary contributions to the Plan.

g. Investment options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty pre-selected mutual funds and two common/collective trusts as investment options for the participants. Participants may change their investment options and allocations at any time.

h. Rollovers

With the approval of the plan administrator, the Plan may receive any amounts received by an employee as distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

i. Notes receivable from participants

All participants with a vested balance of at least \$2,000, except stockholders who own 5% or more stock of the Company, may borrow from their accounts. Loan fees and interest due are paid by the participant. Each participant may have only one loan outstanding at any given time. The minimum loan amount is \$1,000 but not exceeding the lesser of:

- one-half of the participant's vested account balance; or
- \$50,000 (reduced by the highest outstanding loan balance during the one year period ending on the day the loan agreement is executed).

The maximum repayment period is generally 5 years for a general purpose loan. If the loan is obtained for the purpose of purchasing a primary residence, the maximum repayment period is 30 years. The loan will bear interest at a fixed rate of 1% above the prime rate as published on the first business day of the month. Principal and interest are paid ratably through payroll deductions on a per pay period basis. Borrower may prepay all or a portion of the outstanding loan without penalty. All loans are secured by 50% of the participant's vested account balance.

j. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 59 ½, the participant has three options concerning the account balance when a distribution is made:

- The participant may elect to roll the vested account balance to another qualified retirement plan or to an individual retirement account;
- The participant may elect to have the vested account balance distributed and income taxes will be withheld accordingly; or
- If the account balance is greater than \$5,000, the participant can leave the vested account balance in the Plan until the participant authorizes a distribution.

The Plan allows participants to take an in-service withdrawal even if they are actively employed with the Company upon attainment of the age of 59 ½, employer profit sharing and contributions may be withdrawn from the account.

The Plan does not allow for hardship withdrawals.

k. Administration and costs of plan administration

The Company and the Plan trustee are responsible for administering the Plan.

The Company absorbs all costs of Plan administration. Accordingly, such expenses are not reported in the Plan's statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for what portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes, therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative expenses

Certain administrative expenses incurred in the operation of the Plan are paid by the Company, and are not reflected in the accompanying financial statements.

Payment of Benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through August 26, 2015, the date the financial statements were available to be issued.

3. Fair Value Measurements:

Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") No. 820, "Fair Value Measurements and Disclosures" provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 : Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 : Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no methodologies used at December 31, 2014.

Common collective trust: Valued at fair value, based on quoted redemption values on the last business day of the plan year.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:

<u>Assets at Fair Value as of December 31, 2014</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common Collective Trusts		\$136,883	
Registered Investment Companies	\$1,546,807		
Total assets at fair value	\$1,546,807	\$136,883	
<u>Assets at Fair Value as of December 31, 2013</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common Collective Trusts		\$58,098	
Registered Investment Companies	\$1,364,275

4. Information Certified by the Trustee (Unaudited)

The December 31, 2014 and 2013 Statements of Net Assets Available for Benefits, the investment activity included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certifies includes total investments of \$ 1,760,998 and \$ 1,463,582 at December 31, 2014 and 2013 and the related income of \$ 297,416 for the year ended December 31, 2014.

The table below presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2014</u>	<u>2013</u>
AC Strat Alloc Agg Fund Class A	\$239,847	
AC Strat Alloc Mod Fund Class A	\$144,815

Franklin Templeton Moderate Allocation Class R		\$127,951

Investment income for the year ended December 31, 2014 is as follows:

Net Depreciation in Fair Value of Investments	\$ (40,225)
Interest Income on Notes Receivable from Participants	\$ 3,303
Dividends	\$ 118,528

During the year 2014, the Plan's investments (including gains and losses on investment bought and sold, as well as held during the year) depreciated in value by \$ (40,225) as follows:

Common collective trusts	\$ 7,218
Registered investment companies	\$ (47,443)

5. Investment in Stable Value Assets

The Plan invests in stable value assets that include traditional bank or insurance company-issued guaranteed investment contracts or synthetic investment contracts.

Stable value asset investment is fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan terminations or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or the plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

6. Related Party Transaction

ADP Retirement Services is the trustee and custodian of the Plan and, therefore, these transactions qualify as party-in-interest.

7. Plan Administrative Costs

During 2014 and 2013, the Company elected to pay most of the Plan's administrative costs and not seek reimbursement from the Plan.

8. Plan Termination

Although it has not expressed any intention to terminate the Plan, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

9. Tax Status

The Plan uses a prototype document sponsored by Automatic Data Processing, Inc.

The Internal Revenue Services (IRS) has determined and informed Automatic Data Processing, Inc. by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself, however, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk, associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500
