Note 1 - Plan Description

The following description of CFC, Inc. Employees' Profit Sharing and 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all nonunion employees of CFC, Inc. (the "Company" or "employer") who have completed 1,000 hours of service in a 12-month period, as defined by the Plan, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

An employee may enroll in the Plan on the first day of the month following or coinciding with his or her date of eligibility. The Plan does not allow participation by employees who are covered by a collective bargaining agreement with the Company.

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 92 percent of the annual compensation subject to maximum tax deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The employer makes a safe harbor contribution to all eligible employees equal to 3 percent of the participant's compensation. Total safe harbor contributions were $222,984 for the year ended December 31, 2014.

The employer makes discretionary matching contributions equal to 100 percent of each participant's contribution, not to exceed 2 percent of the employee's compensation. Total discretionary matching contributions were $125,355 for the year ended December 31, 2014.

The employer may also make discretionary profit-sharing contributions. To receive profit-sharing contributions, participants must have completed 1,000 hours of service during the Plan year and be employed on the last day of the plan year. There were no discretionary profit-sharing contributions for 2014.

Participant Accounts - Each participant's account is credited with the participant contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary, rollover, and employer safe harbor contributions and any income or loss thereon. Participants become fully vested in their employer matching and profit-sharing contributions, plus actual earnings thereon, as follows: 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Participant Notes Receivable - Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Generally, loan terms are a maximum of five years, but residential loans may be longer. Principal and interest are paid ratably through regular payroll deductions. Notes receivable are collateralized by the participant's account balance and bear interest at market rates.

Payment of Benefits - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum payment, installments over a period not to exceed the life expectancy of the participant, or an annuity. Participants are also eligible for in-service benefit payments upon reaching the normal retirement age of 59 1/2.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the non-vested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2014 and 2013, forfeited account balances totaled $10,332 and $4,034 respectively. During 2014, there were no forfeitures used to reduce employer contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Voya Retirement Insurance and Annuity Company (Voya), formerly known as ING Life Insurance and Annuity Company, or its affiliates. Voya is the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 1 - Plan Description (Continued)

Reclassification and Restatement - Certain prior year amounts have been reclassified to conform to the current year presentation. As a result of the reclassification, during 2014, it was determined that investments previously classified as Level 1 mutual fund investments should have been classified as Level 2 pooled separate accounts based on the fair value hierarchy. Accordingly, the 2013 fair value disclosure has been updated..

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Voya (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Significant investments as of December 31, 2014 and 2013 are as follows:

	2014	2013
Pooled separate accounts - At fair value:		
American Funds EuroPacific Growth	$ 384,556	$ 369,786
Franklin Growth Fund	997,980	682,901
RidgeWorth Large Cap Value Equity Fund A	707,626	597,992
Unallocated investment contract - At contract value -		
Voya Fixed Account	3,917,386	3,540,128

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Unallocated Contract - The fully benefit-responsive insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.

(2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

At December 31, 2014 and 2013, there were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Investment Contracts

The Plan has a benefit-responsive investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5 - Investment Contracts (Continued)

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest credit rates for this product, Voya considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. The minimum crediting rate under the contract rate is 3.00 percent.

Generally, there are no events that could limit the ability of the plan to transact at contract value paid within 90 days, or in rare circumstances, contract value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

	December 31, 2014	December 31, 2013
Average yields:		
Based on actual earnings	7.07 %	2.45 %
Based on interest rate credited to participants	2.14 %	2.45 %

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 7 - Reconciliation to Form 5500

Note 1 - Plan Description

The following description of CFC, Inc. Employees' Profit Sharing and 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all nonunion employees of CFC, Inc. (the "Company" or "employer") who have completed 1,000 hours of service in a 12-month period, as defined by the Plan, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

An employee may enroll in the Plan on the first day of the month following or coinciding with his or her date of eligibility. The Plan does not allow participation by employees who are covered by a collective bargaining agreement with the Company.

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 92 percent of the annual compensation subject to maximum tax deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The employer makes a safe harbor contribution to all eligible employees equal to 3 percent of the participant's compensation. Total safe harbor contributions were $222,984 for the year ended December 31, 2014.

The employer makes discretionary matching contributions equal to 100 percent of each participant's contribution, not to exceed 2 percent of the employee's compensation. Total discretionary matching contributions were $125,355 for the year ended December 31, 2014.

The employer may also make discretionary profit-sharing contributions. To receive profit-sharing contributions, participants must have completed 1,000 hours of service during the Plan year and be employed on the last day of the plan year. There were no discretionary profit-sharing contributions for 2014.

Participant Accounts - Each participant's account is credited with the participant contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary, rollover, and employer safe harbor contributions and any income or loss thereon. Participants become fully vested in their employer matching and profit-sharing contributions, plus actual earnings thereon, as follows: 20 percent after two years of service and an additional 20 percent per year thereafter until they become fully vested after six years of service.

Participant Notes Receivable - Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Generally, loan terms are a maximum of five years, but residential loans may be longer. Principal and interest are paid ratably through regular payroll deductions. Notes receivable are collateralized by the participant's account balance and bear interest at market rates.

Payment of Benefits - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum payment, installments over a period not to exceed the life expectancy of the participant, or an annuity. Participants are also eligible for in-service benefit payments upon reaching the normal retirement age of 59 1/2.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the non-vested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2014 and 2013, forfeited account balances totaled $10,332 and $4,034 respectively. During 2014, there were no forfeitures used to reduce employer contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Voya Retirement Insurance and Annuity Company (Voya), formerly known as ING Life Insurance and Annuity Company, or its affiliates. Voya is the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 1 - Plan Description (Continued)

Reclassification and Restatement - Certain prior year amounts have been reclassified to conform to the current year presentation. As a result of the reclassification, during 2014, it was determined that investments previously classified as Level 1 mutual fund investments should have been classified as Level 2 pooled separate accounts based on the fair value hierarchy. Accordingly, the 2013 fair value disclosure has been updated..

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Voya (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Significant investments as of December 31, 2014 and 2013 are as follows:

	2014	2013
Pooled separate accounts - At fair value:		
American Funds EuroPacific Growth	$ 384,556	$ 369,786
Franklin Growth Fund	997,980	682,901
RidgeWorth Large Cap Value Equity Fund A	707,626	597,992
Unallocated investment contract - At contract value -		
Voya Fixed Account	3,917,386	3,540,128

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Unallocated Contract - The fully benefit-responsive insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

At December 31, 2014 and 2013, there were no unfunded commitments or redemption restrictions on the investments described above.

Note 5 - Investment Contracts

The Plan has a benefit-responsive investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5 - Investment Contracts (Continued)

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest credit rates for this product, Voya considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. The minimum crediting rate under the contract rate is 3.00 percent.

Generally, there are no events that could limit the ability of the plan to transact at contract value paid within 90 days, or in rare circumstances, contract value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

	December 31, 2014	December 31, 2013
Average yields:		
Based on actual earnings	7.07 %	2.45 %
Based on interest rate credited to participants	2.14 %	2.45 %

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
