NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

1. DESCRIPTION OF PLAN

The following description of The Comprehensive Group 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Merger –

Effective December 31, 2014, The Comprehensive Group 401(k) Retirement Plan was merged into the Health Pro Rehabilitation 401(k) Plan. Accordingly, all Plan assets were transferred to Health Pro Rehabilitation 401(k) Plan as of December 31, 2014.

General –

The Plan was a defined contribution plan covering all employees of The Comprehensive Group (the Company) who were age twenty-one or older. The Plan was subject to the provisions of the Internal Revenue Code of 1986, as amended (the Code) and the Employee Retirement Income Security Act of 1974 (ERISA). Charles Schwab Bank served as the custodian for the Plan's investments. All investments were participant directed.

Contributions –

Participants could elect to defer from their eligible compensation and contribute to the Plan up to the maximum amount allowed by the Code. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Company match was determined each year by the Plan sponsor on a discretionary basis. For the year ended December 31, 2014, the Plan sponsor matched 20% of amounts deferred by participants, up to 5% of eligible compensation.

In addition to matching contributions, the Company could make discretionary profit sharing contributions with the approval of the Board of Directors. There were no profit sharing contribution for the year ended December 31, 2014.

Participant Accounts –

Each participant's account was credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's discretionary profit sharing contribution, actual earnings thereon and an allocation of administrative expenses.

The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

Rollovers –

With the approval of the Plan administrator, the Plan could accept amounts received by an employee as a distribution from another qualified plan provided that the receipt of such amounts did not adversely affect the qualified tax status of the Plan. Participants were fully vested in these amounts.

Vesting –

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contribution portion of their accounts, plus actual earnings thereon, was based on years of continuous service. For new participants entering the Plan from January 1, 2013 and on, they were 100% vested after three years of credited service. Plan participants prior to January 1, 2013 were 100% vested after two years of credited service.

Notes Receivable from Participants –

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever was less. Loans were required to be repaid within five years unless the loan was to be used for the purchase of a primary residence in which case the loan could be repaid within a period of no more than thirty years. The loans were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest were paid ratably through biweekly payroll deductions.

Payment of Benefits –

Upon termination of service, retirement, disability or death, a participant could elect to receive a lump sum amount or in certain limited circumstances, periodic installment payments, equal to the value of the participant's vested interest in their account either in a distribution or a rollover. In-service withdrawals from the participant's account were available upon reaching age 59 ½. If a participant's account balance was greater than \$1,000 but equal to or less than \$5,000, the Plan administrator could automatically rollover the entire vested account balance into a traditional IRA. If a participant's account balance was less than \$1,000, the Plan administrator could distribute the entire balance in a lump sum amount. Hardship withdrawals were available from the participant's elective deferral account, in order to meet a participant's immediate and heavy financial need. Participant deferrals were suspended for six months following receipt of a hardship distribution.

Forfeitures –

Forfeited balances of terminated participant's non-vested amounts were first used to pay administrative expenses of the Plan. At December 31, 2014 and 2013, the Plan had available forfeitures totaling \$0 and \$2,995, respectively. For the Plan year ended December 31, 2014, \$10,825 of forfeitures was used to pay administrative expenses of the Plan and \$1,121 was transferred to the merged plan.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

1. DESCRIPTION OF PLAN (Concluded)

Administrative Expenses –

The Plan was responsible for administrative expenses unless the Company elected to pay the cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting –

The financial statements of the Plan were prepared under the accrual method of accounting.

Use of Estimates –

The preparation of financial statements in conformity with U.S. generally accepted accounting principles required the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual amounts could differ from those estimates.

Valuation of Investments and Income Recognition –

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants –

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. No allowance for credit losses had been recorded as of December 31, 2014 and 2013. Delinquent notes receivable from participants, if applicable, were reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits –

Benefits were recorded when paid.

Date of Management's Review –

Subsequent events have been evaluated by management through September 30, 2015, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds:

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

5. INFORMATION PREPARED AND CERTIFIED BY PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013 and the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014.

6. TAX STATUS

The Plan had adopted a prototype plan and relied on the prototype plan's opinion letter from the Internal Revenue Service dated March 31, 2008. The Plan had not applied for a determination letter from the Internal Revenue Service specific for the Plan. However, the plan administrator believed that the Plan was currently designed and was being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes had been included in the Plan's financial statements.

U.S. generally accepted accounting principles required Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator had analyzed the tax positions taken by the Plan, and had concluded that as of December 31, 2014, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants would become 100% vested in their accounts.

Effective December 31, 2014, The Comprehensive Group 401(k) Retirement Plan was merged into the Health Pro Rehabilitation 401(k) Plan. Accordingly, all Plan assets were transferred to Health Pro Rehabilitation 401(k) Plan as of December 31, 2014.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by affiliates of Charles Schwab Bank. Charles Schwab Bank was the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualified as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market, and credit risk.
