Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Anchor Danly 401(k) Retirement Plan (formerly the Lamina, Inc. Profit Sharing 401(k) Retirement Savings Plan) (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan with a cash deferral arrangement covering all United States employees of Anchor Lamina America, Inc. (the “Employer”) who have completed six months of service (“Participant”). Participants are eligible to begin participating in the Plan on the first day of the month following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Contributions

Participants may contribute up to 100% of their annual pre-tax compensation as defined by the Plan, up to a dollar limit set by Federal law. There is an automatic enrollment, at a 2% deferral rate of all employees who meet the eligibility requirements, unless an alternative election is made. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to \$5,500. In addition, participants may elect to defer up to 10 percent of after-tax compensation as contributions. Participants may also contribute amounts representing distributions from other qualified plans (“Participant Rollovers”).

Employer Contributions

The Employer, at its discretion, may make a matching contribution. For the 2014 Plan year, the Employer elected to match contributions at 50% of the first 4% of eligible compensation that a participant contributed to the Plan, subject to certain limitations.

In addition, at its discretion, the Employer may make a profit sharing contribution. In order to be allocated a profit sharing contribution, a participant must be employed on the last day of the Plan year, unless separated due to death, disability or attainment of early or normal retirement age. For the Plan year ended December 31, 2014, there was no profit sharing contribution made to the Plan.

Participant Accounts

Each participant’s account is credited with the Participant’s contribution and a pro rata allocation of (a) the Employer’s contribution, (b) the Plan’s investment earnings, (c) an allocation of investment fees and (d) direct administrative expenses. Allocations are based on participant contributions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the Participant’s vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

ANCHOR DANLY 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Payment of Benefits

Participants that have attained age 59½ may take an in-service withdrawal from any of his or her vested accounts. The Plan also allows for hardship withdrawals from his or her vested deferral and Employer matching contribution accounts due to financial hardship (after exhausting the maximum amount available to the Participant as a loan under the Plan). Deferrals must be suspended for a period of six months after receipt of a hardship withdrawal. Participants are entitled to their account balance upon death, disability, retirement or termination of employment. A participant may elect to receive a lump-sum amount, installment payments or annuity payments, equal to his or her account balance. In addition, if a participant's account is less than \$1,000, and a distribution election has not been made by the Participant, the Plan administrator may distribute the benefit to the Participant.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range up to five years (or up to 15 years for the purchase of a primary residence). Participants are allowed only one loan outstanding at any given time. Loans are secured by the balance in the Participant's account and bear interest at a rate equal to prevailing local bank rates for similar loans. Principal and interest are paid ratably through payroll deductions.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan. An executive of the Employer serves as the Plan's trustee.

Administrative Expenses

Individual participant accounts are charged directly for loan recordkeeping and benefit disbursement processing fees, if applicable. Investment expenses are paid by the Plan and administrative expenses are paid by the Employer.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting which is in conformity with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussions of fair value measurements.

ANCHOR DANLY 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Investments, Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in the financial accounting standards relative to reporting of fully benefit-responsive investment contracts, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Unit Values

Individual participant accounts for the pooled separate investment accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Benefits Paid

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

ANCHOR DANLY 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could vary from those estimates.

Subsequent Events

The Employer has evaluated subsequent events through September 23, 2015, the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Note 3 - Investments

Plan investments are held by the Plan's custodian, State Street Bank and Trust ("State Street"). State Street has certified to the fair value of pooled separate investment accounts and contract value of the guaranteed investment account at December 31, 2014 and 2013 and investment transactions during the year ended December 31, 2014. Investment transactions include interest and dividend income and net appreciation in fair value of investments. Information included in the supplemental schedule has also been derived from information certified by State Street. The Plan offers investment choices to allow participants to create a diversified portfolio of assets based on the participants' risk tolerance.

The following investments represent 5% or more of the net assets available for benefits at December 31:

	2014	2013
Guaranteed Interest Fund **	\$ 8,758,947	\$ 9,427,443
MM S&P 500 Index (Northern Trust)	1,913,454	1,618,051
Select MidCap Growth II (T. Rowe Price)	1,657,425	1,576,289
T Rowe Price Retirement Fund 2030	1,372,948	1,341,166

** At contract value.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ANCHOR DANLY 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Investment Accounts

Pooled separate investment accounts are valued at the net asset value of units of the separate accounts. The net asset value ("NAV"), as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the accounts less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed Interest Account

The Plan has a benefit-responsive guaranteed investment contract with MassMutual Life Insurance Company ("MassMutual"). MassMutual maintains the contributions in a general account. The guaranteed interest account is stated at fair value. The fair value of the contract is calculated by discounting the related cash flows based on current yield of similar instruments with comparable durations considering the creditworthiness of the issuer. Since participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The guaranteed interest account is a guaranteed investment contract with principal and interest guaranteed by the general funds of MassMutual. There are no reserves against contract value for credit risk of the contract issuer or otherwise. A substantial penalty will be imposed for early discontinuance of the contract prior to maturity. The crediting interest rate was 3.10% at December 31, 2014 and 2013. The average yield was 2.66% in 2014. The crediting interest rate is based on a formula agreed upon with the issuer. Interest rates are reset semi-annually.

ANCHOR DANLY 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

Guaranteed Interest Account (Continued)

The guaranteed investment account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statements of Net Assets Available Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by State Street, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013.

<i>Investments</i>	<i>Fair Value</i> <i>12/31/2014</i>	<i>Fair Value</i> <i>12/31/2013</i>	<i>Unfunded</i> <i>Commitments</i>	<i>Redemption</i> <i>Frequency</i>	<i>Redemption</i> <i>Notice</i> <i>Period</i>

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Related-Party Transactions and Party-In-Interest Transactions

Plan investments include shares of pooled separate accounts and a guaranteed interest account managed by affiliates of MassMutual. MassMutual is the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During the Plan year ended December 31, 2014, \$7,230 of administrative expenses were incurred by the Plan to MassMutual. In addition, notes receivable from participants also qualify as exempt party-in-interest transactions, as defined by ERISA. An executive of the Employer serves as the Plan's trustee.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

Note 9 - Tax Status

The Plan has adopted the Massachusetts Mutual Life Insurance Company prototype non-standardized 401(k) profit sharing plan. The Plan and related trust has been determined by the Internal Revenue Service (the "IRS") to be tax-exempt under Internal Revenue Code Section 401(a). The most recent favorable opinion letter from the Internal Revenue Service was received by the Plan, dated May 11, 2009. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
