Engineered Profiles 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

1. Description of the plan

The following description of the Engineered Profiles 401(k) Plan (the “Plan”) is provided for general information only participants should refer to the Plan agreement for a more complete description of the Plan’s provisions. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (“ERISA”).

Eligibility

The Plan is a defined contribution plan covering certain employees of Engineered Profiles, LLC (the “Employer”) who have completed two months of service.

Contributions

Employer’s matching contribution:

The Employer will make a matching contribution of 100% of the participant’s voluntary contributions for the first 2% of the participant’s payroll period eligible compensation.

Discretionary non-elective contribution:

The Employer may elect to make a discretionary non-elective contribution to all eligible employees on the last day of the plan year. This contribution is allocated under the Social Security Integration rules. Under these rules, a larger percentage of the discretionary non-elective contribution is allocated to each participant whose plan eligible compensation is in excess of the Social Security Taxable Wage Base. The Employer elected not to make the discretionary non-elective contribution for the years ended December 31, 2014 and 2013.

Participant’s voluntary contributions:

A participant may elect to make a voluntary tax-deferred or after-tax contribution of 1% to 90% of his or her annual compensation up to the maximum permitted under Section 402(g) of the Internal Revenue Code (the “Code”) adjusted annually. Section 401(k) of the Code may limit this voluntary tax-deferred contribution. Tax-deferred contributions are limited to \$17,500 for 2014 and 2013.

Automatic participant deferral enrollment:

Employees, after meeting the eligibility requirements, will be enrolled automatically to make a tax-deferred contribution of 2% unless they affirmatively elect otherwise.

Catch-up contribution:

Participants, who during the Plan year attained age 50, became eligible to make catch-up contributions in accordance with the Code. Total catch-up contributions are limited to \$5,500 for 2014 and 2013.

Investment options

Both the Employer and participant contributions can be directed into various investment options offered by the Plan solely at the participant's discretion. The Plan's investment options currently offered include twenty two mutual funds and one common collective trust.

Participant accounts

Each participant's account is credited with the participant's and Employer's contributions and allocated investment earnings and distribution expenses. Allocations are based on the participant's account balance. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting

A participant is fully and immediately vested for voluntary and rollover contributions, and is credited with a year of vesting service in the Employer's matching and discretionary contributions for each year they work. A summary of vesting percentages for Employer's contributions is as follows:

<u>Years of vested service</u>	<u>Percentage</u>
Less than 3 years	0%
3 years or more	100

Payment of benefits

The full value of participants' accounts becomes payable upon retirement, disability, or death. Upon termination of employment for any other reason, participants' accounts, to the extent vested, become payable. Those participants with vested account balances greater than \$5,000 have the option of leaving their accounts invested in the Plan until age 70 ½. Those participants with vested account balances between \$1,000 and \$5,000 who have not elected to either have such distribution paid to them or to an eligible retirement plan shall be rolled over to an individual retirement account with a properly accredited and regulated financial institution.

A participant may obtain an in-service withdrawal of their rollover account at any time and after turning age 59 ½ from any of his or her accounts. A participant may also request a hardship distribution due to an immediate and heavy financial need based on the terms of the Plan.

Forfeitures

Forfeitures are used to reduce the Employer's required contributions, and if so elected by the Employer, to reduce administrative expenses. Forfeitures of \$9,878 were used to reduce the Employer's required contributions for the year ended December 31, 2014. No forfeitures were used during the year ended December 31, 2013. There were unused forfeitures of \$39,359 and \$35,485 at December 31, 2014 and 2013, respectively. These unused forfeitures represent unallocated amounts.

Amounts allocated to participants withdrawn from the plan

There are no amounts allocated, but not yet paid, to participants withdrawn from the Plan as of December 31, 2014 and 2013.

Administrative expenses

Expenses of the Plan are deducted from participants' accounts. These expenses include a \$20 disbursement fee for any withdrawals or termination and an asset fee of between 5 and 70 basis points on the fair value of the investments.

The Employer currently pays any additional Plan expenses.

Investment funds pay certain fees directly to the Plan, which is in turn paid to the Plan's trustee. During 2014 and 2013, \$21,161 and \$19,816 of such fees were passed through the Plan's trust accounts and, as a result, is reported in the financial statements as fee income and expense. These fees result in reduced earnings from the investments.

2. Summary of accounting policies

Basis of presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, including investment valuation and income recognition.

Estimates

The Plan prepares its financial statements in conformity with accounting principles generally accepted in the United States of America, which requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Engineered Profiles 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

Risks

The Plan provides for the various investment options as described in Note 1. Any investment is exposed to various risks, such as interest rate, market, and credit. These risks could result in a material effect on participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Net appreciation in fair value of investments

Net realized and unrealized appreciation is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments.

Investment valuation and income recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis using fair value, except for those investments in investment contracts, which are transacted at contract value. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis.

Benefit payments

Benefits are recorded when paid.

New accounting pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, to remove the requirement to categorize with the fair value hierarchy all investments for which fair value is measured using the net asset per share practical expedient as well as to remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted and applied retrospectively. Management has elected to early adopt and the guidance is reflected in these financial statements.

Engineered Profiles 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). ASU 2015-12, Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II and the guidance is reflected in these financial statements.

3. Fair value measurement

ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include • quoted prices for similar assets and liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
---------	---

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

Engineered Profiles 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the quoted market price of shares held by the plan at year-end and are classified within level 1 of the valuation hierarchy.

Stable value common collective trust: The stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 1 year notice in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2014, the Employer has not requested a total or partial withdrawal. The Plan has no contractual obligations to further invest in the fund.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Assets at fair value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$4,160,217	\$ -	\$ -	\$4,160,217

Investments measured at net asset value (a)	-	-	-	193,046
Investments, at fair value	\$4,077,337	\$ -	\$ -	\$4,270,383

- (a) In accordance with Subtopic 820-10 of ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments and earnings from investments for the years then ended, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee of the Plan.

5. Prohibited transaction

During 2013, the Employer failed to remit certain participant contributions to the Plan in a timely manner, as defined by ERISA, totaling \$10,120 (See supplemental schedule on page 14). The transaction was partially corrected during 2014 except for missed earnings. Therefore the transaction is still considered a prohibited transaction until the missed earnings are remitted.

6. Tax status

On March 26, 2010, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Code Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Engineered Profiles 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

There was the prohibited transaction (Note 5), that the Plan's management has indicated its intent to address and correct in accordance with the procedures prescribed by the Internal Revenue Service and, accordingly, management believes that these issues will not impact the Plan's tax-exempt status.

7. Plan administration

The Engineered Profiles Committee, comprised of members appointed by the managing members of the Employer, administers the Plan. The managing members delegated the day-to-day administrative duties to the Engineered Profiles Committee.

8. Plan termination

Although the Company has not expressed any intent to do so, the Employer has the right under the Plan to discontinue their contributions at any time. The Employer has the right at any time, by action of managing members, to terminate the Plan subject to provisions of ERISA. Upon Plan termination or partial termination, participants will become fully vested in their accounts.

9. Parties-in-interest

The Employer provides certain administrative services to the Plan at no charge. Additionally Wells Fargo Bank, N.A., and its affiliates receive fees from the Plan as noted under "Administrative expenses" in Note 1. These transactions are party-in-interest transactions, which are exempt under ERISA.

10. Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2014	2013
Net assets available for benefits per the financial statements	\$ 4,359,050	\$ 4,285,762

11. Subsequent Events

The Plan was amended effective January 1, 2015 to exclude bonuses from Plan compensation.

During 2015 the Plan changed the record keeper and trustee from Wells Fargo to Voya Retirement Insurance and Annuity Company for record keeping and two officers of the Employer for trustee.

Management evaluated subsequent events for the Plan through October 1, 2015, the date the financial statements were available to be issued.
