Notes to Financial Statements
December 31, 2014 and 2013

Note A – Description of plan

The following description of the Rogers-O'Brien Construction Company, LTD 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have three months of service and are age twenty-one or older. Effective September 1, 2014, the Plan was amended to allow immediate entry if age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and funding. Each year, participants may contribute up to $17,500 of pretax annual compensation, as defined in the Plan. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective September 1, 2014, the Plan automatically defers 4% for all employees who do not make an affirmative deferral election.

Company contributions. The Plan allows a discretionary employer matching contribution and an additional discretionary profit sharing contribution at the option of the Company's board of Directors. In 2014, the Company elected to match 50% of the first 6% of compensation that a participant contributes to the Plan. No additional discretionary profit sharing contribution was authorized.

Rollovers. Participants may also contribute amounts representing distributions from other eligible retirement plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), (c) cost of investment management expenses, transactional costs and service charges. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their voluntary contributions and prior year Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's nonelective and discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. After one year of service participants become 20 percent vested, and an additional 20 percent for each year thereafter, reaching 100 percent vested at the completion of five years of credited service.

Note A – Description of plan (cont'd)

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2014, all outstanding loans held an interest rate of 4.25% to 7%. Principal and interest is paid ratably through weekly payroll deductions.

Payment of benefits. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their investment options as often as they choose.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note K for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits. Benefits are recorded when paid.

Note B – Summary of significant accounting policies (cont'd)

Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Withdrawals. Participants may make hardship withdrawals subject to certain restrictions.

Forfeitures. Forfeitures may be used to reduce administrative expenses or to reduce employer matching contributions. In 2014, administrative fees were reduced by $20,515 from forfeited nonvested accounts. The forfeited nonvested accounts as of December 31, 2014 and 2013 totaled $12,513 and $7,393, respectively.

Accounts payable. Accounts payable represents cash paid to participants January 2, 2015 in accordance with participant loan requests.

Operating expenses. Operating expenses consist of fees for recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received. The Company pays a portion of the plan operating expenses each year.

Note C – Reconciliation of financial statements to Form 5500

There were no differences between the form 5500 and these financial statements for the years ended December 31, 2014 and 2013.

Note D – Tax status

The IRS has determined and informed the Employer by a letter dated November 4, 1999, that the Plan and related trust are designed in accordance with applicable regulations of the Code. The Plan has been amended since receiving the determination letter; however, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that all Plan years remain open and subject to audit.

Note E – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain Plan investments are shares of mutual funds managed by Charles Schwab Bank. Charles Schwab Bank is the Trustee as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (loss) in fair value of investments. These transactions are not considered prohibited transactions.

Note H – Information certified by the plan's trustee

Plan assets are held by Charles Schwab Bank, the Trustee. The Trustee holds the Plan's investment assets and executes investment transactions in accordance with the Plan documents. The information provided by the Trustee is certified as complete and accurate in accordance with 29 CF 2520.103-5c of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee's certification covers all information as shown below. The certified information is also included in the supplemental schedule.

The plan held a 12.93% interest in a general partnership whose assets were land and cash. The partnership sold land, its last asset, and terminated the partnership in 2014. All assets of the partnership interest were transferred to shares of registered investment companies or money market funds.

Note K – Fair value measurements

The carrying values of various financial instruments, such as cash and accounts payable, approximate their fair value due to their short maturity.

The authoritative accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note K – Fair value measurements (cont'd)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Partnership interest: Valued at the Plan's share of the value of proceeds received from the sale of land owned by the partnership.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note K – Fair value measurements (cont'd)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014.

	Level 1	Level 2	Level 3	Total
Mutual funds				
Equity	$ 14,277,655	$ 0	$ 0	$ 14,277,655
International	1,062,863	0	0	1,062,863
Fixed income	1,220,973	0	0	1,220,973
Money market funds	144,878	0	0	144,878
Partnership interest	0	0	0	0
Other	0	128,928	0	128,928
Total assets at fair value	$ 16,706,369	$ 128,928	$ 0	$ 16,835,297

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2014 are reported in net appreciation in fair value of investments, net depreciation in money market funds, net appreciation in other investment, and net appreciation in partnership investment.

The Plan's policy is to recognize transfers into and out of Level 2 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2014, there were two significant transfers into Level 1 from Level 2: $60,462 on March 12, 2014, and $4,845 on December 2, 2014, there were no significant transfers out of Level 1 to Level 2. All transfers were a result of the terminated partnership interest.

Note K – Fair value measurements (cont'd)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013.

	Level 1	Level 2	Level 3	Total

There were no significant transfers between Levels 1, 2, or 3 for the year ended December 31, 2013.

Note L – Participant statements

Participant statements are reported on the modified accrual basis and do not reflect employee and employer receivables at the end of the year.

Note M – Date of management's review

Plan management reviewed its operations and transactions occurring since December 31, 2014 through September 30, 2015, the date of which these financial statements were available to be issued, and did not identify any subsequent events.
