Note 1 - Plan Description

The following description of Northeast Ohio Neighborhood Health Services, Inc. Tax Shelter Annuity Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Northeast Ohio Neighborhood Health Services, Inc. (the "Company"). Participants are automatically eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee contributions up to the limits set by the Internal Revenue Service (IRS). Participants may make contributions to the Plan in the form of a rollover of funds from another qualified plan. There are no employer contributions related to this Plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon.

Payment of Benefits - Distributions are payable upon retirement, death, disability, hardship, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Plan Loans - Participants may borrow from The Variable Annuity Life Insurance Company (VALIC), the custodian of the Plan, using the vested portion of their VALIC Fixed Account Plus as collateral for the loan. Collateral is required in an amount equal to 100 percent of the outstanding loan balance. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance subject to annuity contract and plan provisions. Loan terms range from one to five years or within a reasonable time for the purchase of the participant's principal residence. Loans bear interest at market rates. Principal and interest are paid ratably by the participant to VALIC and each payment will reduce amounts collateralized by the participant's VALIC Fixed Account Plus investment. The amount of these outstanding loans was $221,455 and $206,292 at December 31, 2014 and 2013, respectively. Approximately $76,000 and $48,000 of the loans were in default at December 31, 2014 and 2013, respectively. These loans are not included as assets in the accompanying financial statements. See Note 4 for additional information.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, net assets would be distributed to participants according to each participant's account balance.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by The Variable Annuity Life Insurance Company or its affiliates. The Variable Annuity Life Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The variable separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. The fully benefit-responsive insurance contracts are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 6). The fair value of the unallocated contracts is based on contract value adjusted for certain contractual provisions. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 4, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

VALIC (the "Custodian") holds the Plan's investments and executes all related transactions. The investment balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Significant investments at December 31 are as follows:

	2014	2013
Unallocated insurance contract - At contract value -		
Fixed Account Plus Fund	$ 3,447,636	$ 3,339,329
Variable separate accounts - At fair value:		
Growth Fund	553,159	493,851
Stock Index Fund	622,502	510,207
Vanguard Wellington Fund, Inc.	688,884	605,610
Vanguard Windsor II	547,389	461,272

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for 403(b) plan determination letters. The plan administrator has indicated the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 4 - Tax Status (Continued)

As mentioned in Note 1, VALIC, the custodian of the Plan, has entered into loan transactions directly with participants using their account balances as collateral for the loans. These transactions appear to violate certain provisions of ERISA and thereby would constitute a nonexempt transaction. The Department of Labor is currently analyzing these types of transactions to determine how they should be reported and expects to issue reporting guidance. No guidance has been issued as of the date of this report. The effect of this matter is unknown at this time and has not been reflected in the accompanying financial statements and supplemental schedule.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(2) This class represents investments in actively managed variable separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed variable separate accounts that invest primarily in money market funds that seek high current income consistent with maintaining liquidity and preserving capital.

(4) This class represents investments in actively managed variable separate accounts that invest primarily in debt and equity securities representing special interest objectives such as health sciences and social responsibility.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. During the year ended December 31, 2014, there were no significant transfers between levels of the fair value hierarchy.

Note 6 - Investment Contracts

The Plan entered into benefit-responsive investment contracts with The Variable Annuity Life Insurance Company (VALIC). VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent for accounts set up before December 1, 2003 or less than 2 percent for accounts set up after December 1, 2003. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan, or (iv) the failure of the trust to quality for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The unallocated investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers.

Note 6 - Investment Contracts (Continued)

As described in Note 2, because the investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the unallocated insurance contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.
