DADE MOELLER & ASSOCIATES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 DESCRIPTION OF PLAN

The following description of the Dade Moeller & Associates, Inc. (Company) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2001. The Plan has been amended and restated throughout the years to comply with tax legislation. The Plan was last restated effective January 1, 2009 and most recently amended effective January 1, 2015. The Plan is designed to cover all full-time and scheduled part-time employees of the Company. Eligible employees can participate in the Plan on the later of their date of employment or attainment of age 21 (the Plan was subsequently amended to eliminate the minimum age requirement). Participants are eligible for the profit sharing contribution if they meet the eligibility requirements above and are employed on the last day of the Plan year (the Plan was subsequently amended to change eligibility related to the employer contribution to 6 months of service). Employees employed as a Part-time Support Employee, Temporary Support Employee, Hanford Mission Support Site Employee and independent contractors are not eligible to participate in the Plan.

The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions.

The Company may, at its discretion, elect to make a matching or profit sharing contribution to the Plan. For the years ended December 31, 2014 and 2013, the Company matching contribution was 100% of the first 4% of eligible compensation deferred into the Plan by the participant. There were no Company discretionary profit sharing contributions for the years ended December 31, 2014 and 2013.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching or profit sharing contribution, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company discretionary matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant is 100% vested after four years of credited service. Notwithstanding the above, a participant is fully vested upon reaching age 65, death, or permanent disability.

Benefit Payments

Upon termination of service due to separation, death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum or rollover payment. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name. The Plan allows for in-service distributions of rollover contributions and financial hardship, subject to Plan provisions. Effective January 1, 2015, the Plan was amended to allow for partial withdrawals and installment payments if the participant's (or to the participant's beneficiary in the event of the participant's death) vested account balance is greater than \$5,000. The Plan was subsequently amended to replace the hardship distribution feature with a hardship loan feature and allow for in-service distributions after attaining age 59 1/2.

Forfeited Accounts

Forfeited non-vested accounts may be used to pay Plan administrative expenses and/or used to reduce future Company contributions. Forfeited non-vested accounts as of December 31, 2014 and 2013 totaled \$51,076 and \$55,096, respectively. There were \$78,000 and \$148,000 of forfeitures used to reduce Company contributions for the years ended December 31, 2014 and 2013, respectively.

Notes Receivable from Participants

Prior to January 1, 2015, notes receivable from participants were not allowed. Effective January 1, 2015, the Plan was amended to allow for notes receivable from participants. The notes are available to participants who have incurred a financial hardship resulting from an immediate and heavy financial need (as defined by the Plan).

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reclassifications

Certain amounts in the 2013 financial statements have been reclassified to conform with the 2014 presentation. These reclassifications do not affect net assets available for benefits as previously reported.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company pays most of the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2015, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. New York Life Trust Company, the Plan's trustee, has certified to the completeness and accuracy of the investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the related investment activity reflected in the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2014.

NOTE 5 FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Mutual Funds and Money Market Funds: Investments in the mutual funds and money market funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Pooled Separate Account: Investment in the pooled separate account is valued at the NAV of units of a separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment custodian reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common Stock: Investments in common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed Interest Account: The guaranteed interest account is fully benefit-responsive and is stated at fair value which approximates contract value. The fair value of the general account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 6 CONTRACT WITH INSURANCE COMPANY

On December 4, 2014, the Plan entered into a group annuity contract with New York Life Insurance Company (NYLIC). NYLIC maintains certain contributions in a guaranteed interest account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by NYLIC. Because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. The guaranteed interest account is presented on the face of the statements of net assets available for benefits at fair value, which approximates contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) total or partial Plan termination (2) changes to the Plan's prohibition on competing investment options (3) mergers (4) spin-offs (5) lay-offs (6) early retirement incentive programs (7) sales or closings of all or part of a participating plan sponsor's operations (8) bankruptcy (9) receivership (10) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yields earned by the guaranteed interest account at December 31, 2014 are as follows:

Average Yields

Based on actual earnings	2.45%
Based on interest rate credited to participants	1.95%

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTES TO FINANCIAL STATEMENTS

NOTE 9 PLAN TAX STATUS

The Plan is placing reliance on a determination letter dated July 16, 2010 received from the IRS indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

New York Life Investment Management, LLC (NYLIM) is the third-party administrator for the Plan. The Plan invests in mutual funds (i.e. "Mainstay" funds) and a group annuity contract managed by New York Life Trust Company and New York Life Insurance Company. Therefore, the investment transactions qualify as party-in-interest as defined by ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 DESCRIPTION OF PLAN

The following description of the Dade Moeller & Associates, Inc. (Company) 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2001. The Plan has been amended and restated throughout the years to comply with tax legislation. The Plan was last restated effective January 1, 2009 and most recently amended effective January 1, 2015. The Plan is designed to cover all full-time and scheduled part-time employees of the Company. Eligible employees can participate in the Plan on the later of their date of employment or attainment of age 21 (the Plan was subsequently amended to eliminate the minimum age requirement). Participants are eligible for the profit sharing contribution if they meet the eligibility requirements above and are employed on the last day of the Plan year (the Plan was subsequently amended to change eligibility related to the employer contribution to 6 months of service). Employees employed as a Part-time Support Employee, Temporary Support Employee, Hanford Mission Support Site Employee and independent contractors are not eligible to participate in the Plan.

The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Directors is responsible for the oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code (IRC). Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) or Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions.

The Company may, at its discretion, elect to make a matching or profit sharing contribution to the Plan. For the years ended December 31, 2014 and 2013, the Company matching contribution was 100% of the first 4% of eligible compensation deferred into the Plan by the participant. There were no Company discretionary profit sharing contributions for the years ended December 31, 2014 and 2013.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching or profit sharing contribution, and an allocation of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company discretionary matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant is 100% vested after four years of credited service. Notwithstanding the above, a participant is fully vested upon reaching age 65, death, or permanent disability.

Benefit Payments

Upon termination of service due to separation, death, disability, or retirement, a participant may elect to receive the value of the vested interest in his or her account in the form of a lump sum or rollover payment. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent. If the balance of the terminated participant's account is between \$1,000 and \$5,000, the Plan Sponsor may authorize that the benefit payment be rolled into an individual retirement account in the participant's name. The Plan allows for in-service distributions of rollover contributions and financial hardship, subject to Plan provisions. Effective January 1, 2015, the Plan was amended to allow for partial withdrawals and installment payments if the participant's (or to the participant's beneficiary in the event of the participant's death) vested account balance is greater than \$5,000. The Plan was subsequently amended to replace the hardship distribution feature with a hardship loan feature and allow for in-service distributions after attaining age 59 1/2.

Forfeited Accounts

Forfeited non-vested accounts may be used to pay Plan administrative expenses and/or used to reduce future Company contributions. Forfeited non-vested accounts as of December 31, 2014 and 2013 totaled \$51,076 and \$55,096, respectively. There were \$78,000 and \$148,000 of forfeitures used to reduce Company contributions for the years ended December 31, 2014 and 2013, respectively.

Notes Receivable from Participants

Prior to January 1, 2015, notes receivable from participants were not allowed. Effective January 1, 2015, the Plan was amended to allow for notes receivable from participants. The notes are available to participants who have incurred a financial hardship resulting from an immediate and heavy financial need (as defined by the Plan).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reclassifications

Certain amounts in the 2013 financial statements have been reclassified to conform with the 2014 presentation. These reclassifications do not affect net assets available for benefits as previously reported.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company pays most of the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 1, 2015, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. New York Life Trust Company, the Plan's trustee, has certified to the completeness and accuracy of the investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the related investment activity reflected in the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2014.

NOTE 5 FAIR VALUE OF INVESTMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Mutual Funds and Money Market Funds: Investments in the mutual funds and money market funds are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Pooled Separate Account: Investment in the pooled separate account is valued at the NAV of units of a separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment custodian reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common Stock: Investments in common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed Interest Account: The guaranteed interest account is fully benefit-responsive and is stated at fair value which approximates contract value. The fair value of the general account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 6 CONTRACT WITH INSURANCE COMPANY

On December 4, 2014, the Plan entered into a group annuity contract with New York Life Insurance Company (NYLIC). NYLIC maintains certain contributions in a guaranteed interest account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by NYLIC. Because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. The guaranteed interest account is presented on the face of the statements of net assets available for benefits at fair value, which approximates contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) total or partial Plan termination (2) changes to the Plan's prohibition on competing investment options (3) mergers (4) spin-offs (5) lay-offs (6) early retirement incentive programs (7) sales or closings of all or part of a participating plan sponsor's operations (8) bankruptcy (9) receivership (10) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yields earned by the guaranteed interest account at December 31, 2014 are as follows:

Average Yields

Based on actual earnings	2.45%
Based on interest rate credited to participants	1.95%

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTE 9 PLAN TAX STATUS

The Plan is placing reliance on a determination letter dated July 16, 2010 received from the IRS indicating that the Plan is qualified under Section 401 of the IRC and is therefore not subject to tax under current income tax law. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

New York Life Investment Management, LLC (NYLIM) is the third-party administrator for the Plan. The Plan invests in mutual funds (i.e. "Mainstay" funds) and a group annuity contract managed by New York Life Trust Company and New York Life Insurance Company. Therefore, the investment transactions qualify as party-in-interest as defined by ERISA.
