MATHEMATICAL RESEARCH, INC.
dba MRI TECHNOLOGIES 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2014 and 2013

NOTE A - Description of the Plan

The following description of the Mathematical Research, Inc. dba MRI Technologies 401(k) Savings Plan (the "Plan") is provided for general information only. Plan participants should refer to the plan document, as amended, summary plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a non-integrated defined contribution plan covering all full-time employees of the Company who are age nineteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to 60% of eligible pretax annual compensation, up to the statutory limit, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50% of the first 6% of deferral that a participant contributes to the Plan. The matching Company contribution is invested as directed by the participant. Additional amounts may be contributed at the option of the Company's board of directors and are invested as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is self-directed and nondiscretionary. The participant's account is credited with the participant's contribution and individual account earnings, an allocation of the Company's contribution and charged with a $10 quarterly administrative fee. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service. Termination of employment before the five-year requirement is met results in forfeiture of a prorated amount of allocated Employer contributions and earnings thereon. Forfeited amounts may be used to pay Plan expenses or to offset future Employer matching contributions. For the year ended December 31, 2014, there has been $0 in forfeited non-vested accounts.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of one-half of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates ranging

from 4.25% to 9.25%, as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vest interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review – Subsequent events were evaluated through September 2, 2015, which is the date the financial statements were available to be issued.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Notes Receivable from Participants – Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measureable date. See Note C for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Participants' accounts are charged $10 per quarter for administrative fees and the remainder of the plan's administrator's fees, are paid directly by the Company.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using:
December 31, 2014	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)

Mutual funds	$118,907

NOTE E – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE H – TAX STATUS

The Plan is a prototype plan as established by Fidelity Management Trust Company (Fidelity). The Internal Revenue Service has determined and informed Fidelity by a letter dated October 9, 2003, that the form of the Plan is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. Through Fidelity non-standardized 401 (k) adoption agreements, the Plan has been amended since Fidelity received its determination letter. The Plan has been open for Examination by tax authorities for the years ending December 31, 2011, 2012, and 2013.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE
