Vestcom International, Inc. Savings for Retirement Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of Vestcom International, Inc. Savings for Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Vestcom International, Inc. (the Company) for the benefit of its employees who have at least 90 days of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Principal Trust Company is the trustee of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Employee rollover contributions are also permitted. As of December 31, 2013, the Company made matching contributions based on each participant's contribution. The amount of the matching contribution equaled 100% of the participant's elective deferral contribution, up to 1% of the participant's compensation, plus 25% of the participant's elective deferral contribution over 1% of the participant's compensation, but not over 6% of the participant's compensation. During the year, the Company made a change to its matching contribution percentage. Effective May 23, 2014, the amount of the matching contribution will equal 50% of the participant's elective deferral contribution, up to 6% of the participant's compensation. Company profit-sharing contributions are discretionary as determined by the Company's board of directors. Contributions are subject to certain limitations. Forfeitures are used to reduce Company contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Participants with a Plan entry date prior to January 1, 2004, are fully vested at the time of the contribution for all Company matching contributions. Prior to January 1, 2004, all profit-sharing contributions made by the employer on behalf of the participant vest at the rate of 20% after one year of service, increasing ratably through five years of service. Participants with a plan entry date of January 1, 2004, or later, vest in the Company's matching and profit sharing contributions at the rate of 25% after one year of service, increasing ratably through four years of service. Participants become 100% vested upon retirement, death and total disability. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his or her account or a joint and survivor annuity.

Notes Receivable from Participants

The Plan Document includes provisions authorizing notes receivable from the Plan to active participants. The minimum amount of a loan shall be \$1,000. Only one loan is to be approved per participant during a 12-month period. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are collateralized by the balance in the participant's account and are repayable over a period not to exceed five years, except for the purchase of a principal residence, which should not exceed 10 years, as amended effective June 5, 2013. Loans will bear a fixed rate of interest based on prime plus 2%. Participant loans are valued at cost, plus accrued but unpaid interest.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. For 2014 and 2013, the statements of net assets available for benefit present the contract value of the investment contracts, which approximates fair value. For 2014 and 2013, the statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value of shares held by the Plan at year-end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows, based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Participant loans are valued at cost, plus accrued but unpaid interest.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Certification of Plan Trustee

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information included in the accompanying schedule of assets (held at year-end) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Investments

Except for its investment contract with an insurance company (*Note 5*), the Plan's investments are held by Principal Trust Company. The fair value of the Plan's investments at the end of the year is as follows:

	2014	2013

Principal Insurance Company, Group Annuity Contract	3,268,831	3,283,350
	<u>\$ 27,713,384</u>	<u>\$ 26,306,353</u>

The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

Mutual funds	<u>\$ 1,261,701</u>	<u>\$ 3,691,518</u>

*Party-in-interest

**Investment did not meet the 5% threshold for each respective year

Interest and dividends realized on the Plan's investments for the years ended December 31, 2014 and 2013, were \$418,991 and \$339,469, respectively.

Information on the fully benefit-responsive group annuity contract is presented in *Note 5*.

Note 5: Contract with Insurance Company

In 2000, the Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal Insurance). Principal Insurance maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. As described in *Note 2*, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Principal Insurance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Vestcom International, Inc. Savings for Retirement Plan

Notes to Financial Statements

December 31, 2014 and 2013

There are no reserves against contract value for credit risk of the contract issuer or otherwise. At origination, the contract paid a stated rate of return, which was a 3.10% effective annual rate. The rate was reset January 1, 2008, and semi-annually thereafter. The stated rate of return was 2.05% and 2.00% on January 1, 2014, and July 1, 2014, respectively.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average yield		
Based on actual earnings	2.0%	2.2%
Based on interest rate credited to participants	2.0%	2.3%

Note 6: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Plan invests in certain funds of the plan trustee. The Plan paid approximately \$15,200 and \$13,500 of recordkeeping fees to Principal Trust Company during 2014 and 2013, respectively. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of mutual funds managed by the plan trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 8: Disclosures About Fair Value of Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such instruments pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. There are no Level 2 securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The value of the Group Annuity Contract, classified as Level 3, is determined by estimated cash flows less surrender charges. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

Notes to Financial Statements

December 31, 2014 and 2013

Note 9: Significant Estimates and Concentrations

The current economic environment continues to present employee benefit plans with difficult circumstances and challenges, which, in some cases, have resulted in large volatility in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan. The values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 10: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 11: Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Principal Financial Group. This prototype plan document has been filed with the Internal Revenue Service and has received an opinion letter dated March 31, 2014, in which the IRS stated that the Plan Document as filed was acceptable under Section 401 of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 12: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefit.
