BEL BRANDS USA 401(K) AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2014 and 2013

NOTE 1 - Description of the Plan

The following description of the Bel Brands USA 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Bel Brands USA, Inc. and certain affiliates (the "Company") as well as provides for Internal Revenue Code ("IRC") Section 401(k) employee compensation deferral benefits and additional employer contributions for the Company's employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Eligible employees include all salaried personnel at the Company and hourly employees at the Kentucky and South Dakota plants, providing they meet the criteria for eligibility as specified in the Plan document. Effective January 1, 2014, the plan specifically includes expatriates and excludes students and interns.

Participation

An employee of the Company is eligible to participate in the Plan for employee deferrals upon 18 years of age. Employees become eligible for the safe harbor employer contribution of the Plan upon commencement of the employee deferrals into the plan. An employee is eligible for non-elective profit sharing contributions after 1 year of service as defined in the plan document.

Contributions

Participants in the Plan may elect to defer up to a maximum of 75% of pre-tax compensation subject to certain Internal Revenue Service ("IRS") limitations. Effective January 1, 2013, participants may also make Roth deferrals into the Plan. Contributions are subject to certain limitations. The Company's safe harbor matching contribution is equal to 100% of a participant's elective deferral and not to exceed 1% of eligible compensation, plus 50% of participant elected deferrals that exceed 1% of compensation, up to a maximum of 6% of participant's compensation. The Company may also make profit sharing contributions equal to 1% of a salaried and South Dakota hourly participant's eligible compensation and 4.84% of a Kentucky hourly participant's eligible compensation after 1 year of service. Effective January 1, 2014, profit sharing contributions are discretionary and not mandatory.

Effective January 1, 2011, the Company achieved Safe Harbor status. This Safe Harbor qualification was met, in part, by implementing a Qualified Automatic Contribution Arrangement. As of January 3, 2011, unless an election was made to opt out beforehand, all current eligible participants who were not enrolled in the Plan, or were contributing at a rate less than 3% of eligible compensation, were enrolled at a contribution rate of 3%. All newly eligible participants after this date are automatically enrolled to participate in the Plan at a 3% contribution rate after 90 days of employment, unless the participant opts out or elects a contribution rate other than 3% prior to the 90-day mark.

NOTE 1 - Description of the Plan (cont.)

Participant deferral rates will automatically increase on an annual basis, up to a maximum of 6%, according to the following schedule:

Plan Year of Application to a Participant	Automatic Deferral Amount
1	3%
2	4%
3	5%
4 and thereafter	6%

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's matching and any profit sharing contribution, an allocation of forfeitures and an allocation of fund earnings. It is charged with withdrawals, loan expenses and an allocation of fund losses. Allocations of earnings (losses) are based on participant elected fund earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

The interest of a participant in his or her salary deferral account is at all times 100% vested. The interest of a participant in his or her safe harbor contribution made by the Company will be 100% vested after two years of service. The interest of a participant in his or her profit sharing contribution will vest based on the following table:

Vesting Years of Service	Percentage Vested
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Forfeited Accounts

Participants who terminate employment prior to being fully vested will forfeit the portion of the employer match and profit sharing balance that is not vested. Forfeitures will be used first to offset plan expenses, then to reduce employer contributions to the Plan, and finally reallocated to participants. The amount of forfeitures used to were $64,312 and $50,827 in 2014 and 2013, respectively. The amount of forfeitures available at December 31, 2014 and 2013 was $21,489 and $37,746, respectively.

NOTE 1 - Description of the Plan (cont.)

Payment of Benefits

A Plan participant may not withdraw the amount attributable to their contribution and matching benefits from the Company's contributions prior to the earlier of:

- Termination of employment, total and permanent disability, or death
- Attainment of normal retirement (age 65) or early retirement (age 59 1/2)
- Financial hardship, subject to certain limitations

Termination of Plan

Although it has not expressed any intent to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 4.25% - 8.75%, which are commensurate with local prevailing rates as determined quarterly by the Trustee. Principal and interest is paid ratably through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefit payments based upon the terms of the Plan document.

Administrative Expenses

The Company may pay some plan administrative expenses with its own assets rather than using Plan assets. To the extent the Company does not pay plan expenses with its own assets, the Plan generally will pay the expenses of plan administration and will assess the expenses paid against the accounts of all participants in the Plan. Asset-based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund, and are generally deducted directly from a participant’s investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant’s account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the record keeper. The Company may, from time to time, change the manner in which expenses are allocated.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts. The reconciliation of contract value to fair value is not necessary as contract value approximates fair value. Therefore, the reconciliation has not been presented on the Statements of Net Assets Available for Benefits

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Fiduciary Committee determines the Plan's valuation policy utilizing information provided by the investment advisor and asset trustee. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation include the gain and losses on investments bought and sold as well as held during the year.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820), "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)" ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited (cont.)

During the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

	2014	2013
Mutual funds	$ 1,017,845	$ 4,164,620
Collective trust funds	228,119	364,860
Net Appreciation in Fair Value of Investments	1,245,964	4,529,480
Interest and dividends	371,593	332,470
Net investment return certified by trustee	$ 1,617,557	$ 4,861,950
Interest on notes receivable	$ 51,819	$ 48,794

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Values derived using a market approach from quoted market prices of identical assets as substantially all of these instruments have active markets. All mutual funds are traded at their net asset value per share (NAV). The NAV is generally calculated based on the value of the underlying investments as of the close of business of the New York Stock Exchange. There are no restrictions as to redemption of these investments nor does the Plan have any contractual obligations to further invest in any of the individual mutual funds.

Collective Trust Funds: The Wells Fargo Stable Return Fund N is fully benefit responsive and valued at contract value, which approximates fair value. Wells Fargo S&P Index Fund G is not fully benefit responsive and valued using the NAV of the underlying securities. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

The Wells Fargo Stable Return Fund N seeks maximum total return, consistent with preservation of capital and prudent investment management, by investing under normal circumstances at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. Fixed Income Instruments include bonds, debt securities and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities. An investment in the total return fund is not a deposit of a bank and is not guaranteed or insured by the Federal Deposit Insurance Corporation or any other governmental agency. It is possible to lose money on investments in the Fund.

The Wells Fargo S&P Index Fund G seeks to approximate as closely as practicable the total return, before deduction of fees and expenses, of the Standard & Poor's 500 Index. The Fund is an index fund that invests in the equity securities of companies that compose the Index. The Fund will pursue its objective through investment in one or more underlying collective investment funds maintained by BlackRock Institutional Trust Company, N.A.

There was no level 3 fair value activity during the years ended December 31, 2014 and 2013.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

NOTE 5 - Related Party and Parties-In-Interest

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 6 - Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - Subsequent Events

The Plan has evaluated subsequent events through September 28, 2015, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
