Rimkus Consulting Group, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014

Note 1 - Description of the Plan

The following description of Rimkus Consulting Group, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions, which is available from the Plan administrator.

General

The Plan is a defined contribution plan established on April 3, 1992 covering all full time employees of Rimkus Consulting Group, Inc. (the "Company" or "Employer") who are age 21 or older. The Plan was most recently amended on December 1, 2013. The Plan is administered by the Company. Voya Retirement Insurance and Annuity Company ("Custodian" or "Voya") serves as the custodian for the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may elect to defer a specified amount or percentage of their compensation as contributions to the Plan. Contributions are subject to certain limitations. The Company, at its discretion, may make matching and profit sharing contributions to the Plan. Effective January 1, 2009, the Company elected to match 25% of the first 6% of annual eligible participant compensation deferred up to $100,000. The matching contributions are limited to $125 per month and/or $1,500 per year per participant. There were no profit sharing contributions to the Plan in 2014 or 2013. Participants direct the investment of their contributions as well as the Company's contribution into various investment options offered by the Plan. The Plan currently offers several pooled separate accounts and a guaranteed investment contract with an insurance company as investment options for participants.

A participant who receives a qualifying distribution from a former employer's retirement savings plan may contribute the distribution to the Plan, provided that such contribution qualifies as a rollover contribution in accordance with Section 402 of the Internal Revenue Code ("IRC") or is made by a direct trust-to-trust transfer.

Participant accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, if any, and Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants employed as of December 31, 2008 are 100% vested in the Company's contributions. Participants hired after December 31, 2008 are vested in the Company's contribution portion of their accounts based on years of service. Participants begin vesting at 25% after one year of service, increasing 25% each year thereafter, with the participant 100% vested after four years.

Note 1 - Description of the Plan (Continued)

Forfeitures

The Plan provides that nonvested portions of Company contributions are forfeited by terminated participants and may be used to reduce Company matching contributions or reallocated to participant's accounts. Forfeitures of $0 and $15,089 were reallocated to participant's accounts during 2014 and 2013, respectively. As of December 31, 2014 and 2013, the Plan had $30,041 and $10,736, respectively, of forfeitures which had not yet been applied.

Payment of benefits

Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or payment by some other method of distribution as specified in the *Plan Document*.

If the value of the participant's vested account balance (excluding rollover contributions) is less than $5,000, the Company is allowed to distribute the entire vested account balance out of the Plan. If the value of the participant's vested account balance is more than $1,000 but less than $5,000 and the participant does not consent to a lump sum distribution, the account balance will be distributed to an individual retirement account for the benefit of the participant at the direction of the Plan administrator. If the participant's vested account balance is greater than $5,000, the participant may elect to receive a lump sum distribution, roll the balance into another qualified retirement plan or an individual retirement account, or leave the vested balance in the Plan. Any taxable distribution paid by the Custodian directly to the participant will be subject to mandatory federal income tax withholding of 20% of the requested distribution.

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note terms range from one to five years. However, if the note is for the purchase of a principal residence, the Plan administrator may permit a longer repayment term. The notes are secured by the balance in the participant's account and bear interest at 1% over the prime rate index.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2 - Summary of Significant Accounting Policies

Accounting method

The accompanying financial statements are presented on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Valuation of investments and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan recognizes net appreciation or depreciation in the fair value of its investments. Unrealized appreciation or depreciation in the fair value of investments held at year-end is determined using the fair value at the beginning of the year or the purchase price if the investment is acquired during the year. The realized gain or loss on the sale of investments is determined using historical cost. Upon the sale of an investment, the current year realized appreciation or depreciation is adjusted for unrealized gains and losses recognized in prior years. Unrealized appreciation or depreciation and realized gains and losses are reported as net appreciation or depreciation in fair value of investments in the statement of changes in net assets available for benefits.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions, based upon terms of the *Plan Document*, upon liquidation of their account balance.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Risks and uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan participants bear the risk of any Plan investment losses.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3 - Fair Value Measurements

The Plan uses a three-level hierarchy, in accordance with the fair value standard, that establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The hierarchy of fair value measurements is described below:

- Level 1 – quoted prices in active markets for identical assets or liabilities;
- Level 2 – inputs other than level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of these assets or liabilities; or
- Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Guaranteed investment contract – This investment is a diversified portfolio which invests in a fully benefit-responsive investment contract issued by Voya. Pursuant to the terms of the investment contract, the investment is contractually obligated to repay the principal and a specified interest rate to the Plan. The investment consists primarily of U.S. corporate and foreign securities, commercial and residential mortgage loans and short-term investments, and is intended to provide a stable crediting rate consistent with stability and preservation of principal. See Note 6.
- Pooled separate accounts – These investments are valued daily at the net asset value of shares or units held by the Plan based on the quoted market value of the underlying assets as provided by the Custodian. All investments in this category can be redeemed daily, have a daily redemption notice period, and have no unfunded commitments. The investments underlying the funds primarily include domestic and global equities, domestic and global fixed income securities, common stock, bonds, and cash or cash equivalents. In the event that a pooled separate account fund initial valuation is not deemed representative of market value, the trustee or its advisors may make adjustments as approved by the respective trustee board of directors to achieve a price believed to be more reflective of fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

* Contract value was $2,863,312 and $3,243,067 as of December 31, 2014 and 2013, respectively.

During the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value by $1,601,175 and $3,792,229, respectively.

Note 5 - Information Certified by the Custodian (Unaudited)

For the Plan years 2014 and 2013, the financial information included in the Plan's financial statements, except for contributions, benefits paid to participants and administrative expenses, has been derived from information certified as complete and accurate by Voya, in accordance with 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Note 6 - Investment Contract with Insurance Company

In 2011, the Plan entered into a fully benefit-responsive investment contract (the "Contract") with the Custodian. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfer all or a portion of their investment at contract value.

The Contract can be redeemed daily unless the amounts transferred from the Contract are being transferred to a competing contract for a period of 90 calendar days beginning on the date such an amount is transferred from the account or if a partial transfer has occurred within the last 90 calendar days. Participants may be subject to a surrender charge or market value adjustment upon early liquidation of their investment in the Contract.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00% and is guaranteed for the life of the Contract.

The declared interest rate credited during a contract year shall not be less than the guaranteed rate for such contract year. The average yield as of December 31, 2014 and 2013 for the guaranteed interest account was 1.00%. The rate of credited interest was 1.00% as of December 31, 2014 and 2013.

Note 7 - Plan Tax Status

The Plan has adopted a prototype plan document, which obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Party-In-Interest Transactions

The Plan incurs expenses related to general administration and recordkeeping. These expenses and certain accounting and auditing fees relating to the Plan are paid by the Company as the Plan sponsor.

Plan investments are pooled separate accounts and a guaranteed investment contract managed by Voya, therefore, qualify as party-in-interest transactions.

Note 9 - Subsequent Events

Management has evaluated subsequent events as of September 30, 2015, which was the date the financial statements were available to be issued, and has determined that there are no subsequent events to be disclosed.
