## Note 1 - Plan Description

The following description of Retirement Plan for Employees of H.B. Magruder Memorial Hospital (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan covering all full-time employees of H.B. Magruder Memorial Hospital (the "Hospital") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions** - The Plan provides for employer fixed contributions of 4.5 percent of the participant's eligible compensation subject to the maximum eligible compensation consideration established by the Internal Revenue Code. Employee contributions are not permitted by the Plan. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

**Participant Accounts** - Each participant's account is credited with employer contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on the participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

**Vesting** - Participants are immediately 100 percent vested in rollover contributions and any income or loss thereon. Vesting in the Hospital's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants are fully vested in contributions made by the Hospital after one year of service.

**Benefit Payments** - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account or in installment distributions. The Plan also allows the participant to select other optional forms of payments.

**Forfeitures** - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer contributions and plan expenses.

**Party-in-interest Transactions** - Certain plan assets are in investment funds managed by Massachusetts Mutual Life Insurance Company (MassMutual) and State Street Bank and Trust Company (State Street) or their affiliates. MassMutual and State Street are the custodians of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

## Note 1 - Plan Description (Continued)

**Termination** - While it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

## Note 2 - Summary of Significant Accounting Policies

**Investment Valuation** - The Plan's investments are stated at fair value except as noted below. The fully benefit-responsive unallocated insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 4). The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions.

All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Benefit Payments** - Benefits are recorded when paid.

**Administrative Expenses** - Various administrative costs are paid by the Hospital.

**Use of Estimates** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

**Risks and Uncertainties** - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**Subsequent Events** - The financial statements and related disclosures include evaluation of events up through and including August 21, 2015, which is the date the financial statements were available to be issued.

## Note 3 - Unaudited Information

MassMutual Retirement Services, a division of Massachusetts Mutual Life Insurance Company (MassMutual), and State Street Bank and Trust Company (State Street) (collectively, the "Custodians") hold the Plan's investments and execute all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by MassMutual, including information provided on behalf of State Street.

Investments that exceed 5 percent of end of year net assets are as follows:

| | 2014 | 2013 |
|---|---|---|
| Mutual funds - At fair value: | | |
| T. Rowe Price Retirement 2030 Fund | $ 2,771,234 | $ 2,646,036 |
| T. Rowe Price Retirement 2020 Fund | 1,630,868 | 1,587,588 |
| T. Rowe Price Retirement 2040 Fund | 830,856 | 811,983 |
| Unallocated insurance contract - Fixed Interest Account at contract value | 3,734,032 | 3,791,814 |

## Note 4 - Unallocated Insurance Contract

The Plan has a benefit-responsive unallocated insurance contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include (1) the complete or partial termination of the Plan or (2) the establishment or activation of, or material change in, any plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

## Note 4 - Unallocated Insurance Contract (Continued)

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of a material provision of the agreement that is not cured within 10 business days; a portion of the Market Value Account is below $1,000 or the Book Value Account is zero; establishment, activation, or material change to any plan investment fund that does not allow the insurer to operate the agreement under current terms; or the Plan fails to make contributions to the Fixed Interest Account investment option required under the agreement. After termination, the insurer will not accept deposits or permit transfers or make distributions. Termination payments would be made under one of three options: book value installment payment option, annuity purchase payment option, or the lump-sum payment option.

As described in Note 2, because the insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the insurance contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields for the unallocated insurance contract are as follows:

| | 2014 | 2013 |
|---|---|---|
| Based on actual earnings | 6.52 % | (1.49)% |
| Based on interest rate credited to participants | 3.40 % | 2.96 % |

## Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

## Note 5 - Tax Status (Continued)

During the current year, it was discovered that contributions for certain participants were being calculated based on income in excess of IRS limits. Management is working with legal counsel to resolve this matter. No amounts related to the impact of this issue have been recorded in the accompanying financial statements as the amounts are not determinable at this time. Once a determination of corrective action is made, management intends to take any steps reasonably necessary to maintain the tax-exempt status of the Plan.

## Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

**Level 1** - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

**Level 2** - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

**Level 3** - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

| Total | $ 7,229,911 | $ 3,950,317 | $ - | $ 11,180,228 |

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014.

## Note 7 - Reconciliation to Form 5500

As of December 31, 2014 and 2013, the accompanying financial statements have included contributions receivable in the amounts of $62,620 and $62,532, respectively. The 2014 and 2013 Form 5500 has recorded its assets on the cash method of accounting and did not record contributions receivable at December 31, 2014 and 2013. Accordingly, contribution income on Form 5500 for the year ended December 31, 2014 is $88 lower than amounts reported on the accompanying financial statements.
