Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Milestone AV Technologies 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a safe harbor defined contribution plan sponsored by Milestone AV Technologies LLC Inc. (the Employer) for all employees who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees is responsible for the oversight of the Plan. The 401(k) Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Effective as of January 1, 2014, the Da-Lite 401(k) Retirement Plan was merged into the Plan. The participating employer sponsoring the Da-Lite 401(k) Retirement Plan is the same Plan Sponsor as the Milestone AV Technologies 401(k) Plan. As a result, participants' account balances totaling approximately \$10,727,000 were transferred into the Plan on January 1, 2014.

Contributions: The Plan includes a cash or deferred arrangement allowed under section 401(k) of the Internal Revenue Code (the Code). Eligible participants are permitted to elect to have a percentage of their compensation contributed as pretax 401(k) contributions to the Plan up to the maximum as permitted by the Internal Revenue Service (IRS). The Plan also allows participants age 50 and older to make catch-up contributions.

The Employer makes safe harbor matching contributions equal to 100 percent of the first 3 percent and 50 percent of the next 2 percent of compensation that a participant contributes to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations.

Each year, at its discretion, the Employer may choose to make a uniform profit sharing contribution allocated to all eligible participants. A participant must complete 1,000 hours of service during the plan year and be employed on the last day of the plan year in order to be eligible for the profit sharing contribution, unless the participant terminates employment because of death, permanent disability or attainment of normal retirement age (65). There was no discretionary profit sharing contribution made for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of plan earnings or losses and administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Employer matching contributions are allocated to a participant based on a percentage of the participant's salary deferral contributions, subject to certain limitations. Employer uniform discretionary profit sharing contributions are allocated on a uniform basis as defined in the Plan. Income or loss is allocated daily based on the participant's investment in each asset. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employee and employer safe harbor contributions are immediately vested. Uniform profit sharing contributions are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after five years of credited service. Notwithstanding the above, participants become 100 percent vested upon normal retirement age (65), death or permanent disability.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account. At December 31, 2014, interest rates were 4.25 percent to 6.00 percent. Principal and interest are paid ratably through biweekly payroll deductions.

Benefit payments: Upon termination of service, for any reason, a participant with an account balance less than \$1,000 will receive a lump-sum amount equal to the value of his or her vested account. Participants with account balances that exceed \$1,000 may elect to receive their vested amount in a lump-sum amount or as a series of installment payments. The Plan also allows hardship distributions and in-service distributions subject to certain restrictions.

Forfeited accounts: At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$701 and \$27,835, respectively. These accounts will be used to reduce future Employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measure at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make a loan repayments, and the Plan Administrator deems the participant's loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included as an offset to net appreciation in fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 18, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan Trustee

The following is a summary of the Plan's asset information as of or for the years ended December 31, 2014 and 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

Registered investment companies	\$ 29,835,667	\$ 17,576,060

*Vanguard Fiduciary Trust Company has certified the contract value of the fund. The fund is being reported at fair value, which has been calculated based upon the audited financial statements of the fund reported by the fund's investment manager at year-end.

**Investment did not exceed 5 percent of net assets available for benefits in the year indicated.

The trustee also certified to the completeness and accuracy of \$809,946 net appreciation in fair value of registered investment companies, \$1,480,057 of dividends and interest related to the aforementioned investments, and \$18,772 of interest income on notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Registered investment companies are valued at the net asset value of shares, based on active market prices, held by the Plan at year-end.

Common/collective trust: The common/collective trust is valued at the unit value as reported by the investment manager at year-end. The fund's underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2014 and 2013.

	Fair Value as of		Redemption Frequency	Redemption Notice Period
	2014	2013		
Common/collective trust:				
Vanguard Retirement Savings Trust (a)	\$ 1,378,034	\$ 1,104,746	Daily	None

(a) The investment seeks capital growth. The fund normally invests in a portfolio of conservative, high-credit-quality, diversified investments.

There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.

Note 5. Income Tax Status

The Plan was adopted under the Vanguard Fiduciary Trust Defined Contribution Prototype Plan. The IRS has issued an opinion letter dated March 31, 2008, stating the Vanguard Fiduciary Trust Defined Contribution Prototype Plan is acceptable under section 401 of the Code (the Code). The prototype plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years beyond three years.

Note 6. Related Party and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common/collective trust managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard Fiduciary Trust Company were approximately \$44,000 for the year ended December 31, 2014.

Notes to Financial Statements

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect participants' account balances and the amounts reported in the 2014 statement of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time by action of its Board of Directors. In the event of plan termination or upon complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

Note 9. Reconciliation of Financial Statements to Form 5500

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Milestone AV Technologies 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a safe harbor defined contribution plan sponsored by Milestone AV Technologies LLC Inc. (the Employer) for all employees who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees is responsible for the oversight of the Plan. The 401(k) Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Effective as of January 1, 2014, the Da-Lite 401(k) Retirement Plan was merged into the Plan. The participating employer sponsoring the Da-Lite 401(k) Retirement Plan is the same Plan Sponsor as the Milestone AV Technologies 401(k) Plan. As a result, participants' account balances totaling approximately \$10,727,000 were transferred into the Plan on January 1, 2014.

Contributions: The Plan includes a cash or deferred arrangement allowed under section 401(k) of the Internal Revenue Code (the Code). Eligible participants are permitted to elect to have a percentage of their compensation contributed as pretax 401(k) contributions to the Plan up to the maximum as permitted by the Internal Revenue Service (IRS). The Plan also allows participants age 50 and older to make catch-up contributions.

The Employer makes safe harbor matching contributions equal to 100 percent of the first 3 percent and 50 percent of the next 2 percent of compensation that a participant contributes to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations.

Each year, at its discretion, the Employer may choose to make a uniform profit sharing contribution allocated to all eligible participants. A participant must complete 1,000 hours of service during the plan year and be employed on the last day of the plan year in order to be eligible for the profit sharing contribution, unless the participant terminates employment because of death, permanent disability or attainment of normal retirement age (65). There was no discretionary profit sharing contribution made for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of plan earnings or losses and administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Employer matching contributions are allocated to a participant based on a percentage of the participant's salary deferral contributions, subject to certain limitations. Employer uniform discretionary profit sharing contributions are allocated on a uniform basis as defined in the Plan. Income or loss is allocated daily based on the participant's investment in each asset. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employee and employer safe harbor contributions are immediately vested. Uniform profit sharing contributions are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after five years of credited service. Notwithstanding the above, participants become 100 percent vested upon normal retirement age (65), death or permanent disability.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account. At December 31, 2014, interest rates were 4.25 percent to 6.00 percent. Principal and interest are paid ratably through biweekly payroll deductions.

Benefit payments: Upon termination of service, for any reason, a participant with an account balance less than \$1,000 will receive a lump-sum amount equal to the value of his or her vested account. Participants with account balances that exceed \$1,000 may elect to receive their vested amount in a lump-sum amount or as a series of installment payments. The Plan also allows hardship distributions and in-service distributions subject to certain restrictions.

Forfeited accounts: At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$701 and \$27,835, respectively. These accounts will be used to reduce future Employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measure at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make a loan repayments, and the Plan Administrator deems the participant's loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included as an offset to net appreciation in fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 18, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan Trustee

The following is a summary of the Plan's asset information as of or for the years ended December 31, 2014 and 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

Registered investment companies	\$ 29,835,667	\$ 17,576,060

*Vanguard Fiduciary Trust Company has certified the contract value of the fund. The fund is being reported at fair value, which has been calculated based upon the audited financial statements of the fund reported by the fund's investment manager at year-end.

**Investment did not exceed 5 percent of net assets available for benefits in the year indicated.

The trustee also certified to the completeness and accuracy of \$809,946 net appreciation in fair value of registered investment companies, \$1,480,057 of dividends and interest related to the aforementioned investments, and \$18,772 of interest income on notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Registered investment companies are valued at the net asset value of shares, based on active market prices, held by the Plan at year-end.

Common/collective trust: The common/collective trust is valued at the unit value as reported by the investment manager at year-end. The fund's underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2014 and 2013.

	Fair Value as of		Redemption Frequency	Redemption Notice Period
	2014	2013		
Common/collective trust:				
Vanguard Retirement Savings Trust (a)	\$ 1,378,034	\$ 1,104,746	Daily	None

(a) The investment seeks capital growth. The fund normally invests in a portfolio of conservative, high-credit-quality, diversified investments.

There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.

Note 5. Income Tax Status

The Plan was adopted under the Vanguard Fiduciary Trust Defined Contribution Prototype Plan. The IRS has issued an opinion letter dated March 31, 2008, stating the Vanguard Fiduciary Trust Defined Contribution Prototype Plan is acceptable under section 401 of the Code (the Code). The prototype plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years beyond three years.

Note 6. Related Party and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common/collective trust managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard Fiduciary Trust Company were approximately \$44,000 for the year ended December 31, 2014.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect participants' account balances and the amounts reported in the 2014 statement of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time by action of its Board of Directors. In the event of plan termination or upon complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

Note 9. Reconciliation of Financial Statements to Form 5500

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Milestone AV Technologies 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a safe harbor defined contribution plan sponsored by Milestone AV Technologies LLC Inc. (the Employer) for all employees who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees is responsible for the oversight of the Plan. The 401(k) Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Effective as of January 1, 2014, the Da-Lite 401(k) Retirement Plan was merged into the Plan. The participating employer sponsoring the Da-Lite 401(k) Retirement Plan is the same Plan Sponsor as the Milestone AV Technologies 401(k) Plan. As a result, participants' account balances totaling approximately \$10,727,000 were transferred into the Plan on January 1, 2014.

Contributions: The Plan includes a cash or deferred arrangement allowed under section 401(k) of the Internal Revenue Code (the Code). Eligible participants are permitted to elect to have a percentage of their compensation contributed as pretax 401(k) contributions to the Plan up to the maximum as permitted by the Internal Revenue Service (IRS). The Plan also allows participants age 50 and older to make catch-up contributions.

The Employer makes safe harbor matching contributions equal to 100 percent of the first 3 percent and 50 percent of the next 2 percent of compensation that a participant contributes to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations.

Each year, at its discretion, the Employer may choose to make a uniform profit sharing contribution allocated to all eligible participants. A participant must complete 1,000 hours of service during the plan year and be employed on the last day of the plan year in order to be eligible for the profit sharing contribution, unless the participant terminates employment because of death, permanent disability or attainment of normal retirement age (65). There was no discretionary profit sharing contribution made for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of plan earnings or losses and administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Employer matching contributions are allocated to a participant based on a percentage of the participant's salary deferral contributions, subject to certain limitations. Employer uniform discretionary profit sharing contributions are allocated on a uniform basis as defined in the Plan. Income or loss is allocated daily based on the participant's investment in each asset. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Employee and employer safe harbor contributions are immediately vested. Uniform profit sharing contributions are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after five years of credited service. Notwithstanding the above, participants become 100 percent vested upon normal retirement age (65), death or permanent disability.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account. At December 31, 2014, interest rates were 4.25 percent to 6.00 percent. Principal and interest are paid ratably through biweekly payroll deductions.

Benefit payments: Upon termination of service, for any reason, a participant with an account balance less than \$1,000 will receive a lump-sum amount equal to the value of his or her vested account. Participants with account balances that exceed \$1,000 may elect to receive their vested amount in a lump-sum amount or as a series of installment payments. The Plan also allows hardship distributions and in-service distributions subject to certain restrictions.

Forfeited accounts: At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$701 and \$27,835, respectively. These accounts will be used to reduce future Employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment contract.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measure at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make a loan repayments, and the Plan Administrator deems the participant's loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included as an offset to net appreciation in fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 18, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan Trustee

The following is a summary of the Plan's asset information as of or for the years ended December 31, 2014 and 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

**Investment did not exceed 5 percent of net assets available for benefits in the year indicated.

The trustee also certified to the completeness and accuracy of \$809,946 net appreciation in fair value of registered investment companies, \$1,480,057 of dividends and interest related to the aforementioned investments, and \$18,772 of interest income on notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Milestone AV Technologies 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Registered investment companies are valued at the net asset value of shares, based on active market prices, held by the Plan at year-end.

Common/collective trust: The common/collective trust is valued at the unit value as reported by the investment manager at year-end. The fund's underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

	Fair Value as of		Redemption Frequency	Redemption Notice Period

Common/collective trust:				
Vanguard Retirement Savings Trust (a)	\$ 1,378,034	\$ 1,104,746	Daily	None

(a) The investment seeks capital growth. The fund normally invests in a portfolio of conservative, high-credit-quality, diversified investments.

There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.

Note 5. Income Tax Status

The Plan was adopted under the Vanguard Fiduciary Trust Defined Contribution Prototype Plan. The IRS has issued an opinion letter dated March 31, 2008, stating the Vanguard Fiduciary Trust Defined Contribution Prototype Plan is acceptable under section 401 of the Code (the Code). The prototype plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years beyond three years.

Note 6. Related Party and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common/collective trust managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard Fiduciary Trust Company were approximately \$44,000 for the year ended December 31, 2014.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect participants' account balances and the amounts reported in the 2014 statement of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time by action of its Board of Directors. In the event of plan termination or upon complete discontinuance of contributions, participants will become 100 percent vested in their accounts.
