A Description of Plan.

The following description of the American Furniture Warehouse 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1 General. The Plan is a defined contribution plan covering all employees of American Furniture Warehouse (the "Company") who have completed six months of service and are age twenty-one or older. An employee must be participating in the Plan in order to receive the Company's matching contributions. An employee must be employed on the last day of the Plan year in order to be eligible to receive the Company's profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the Plan administrator and is responsible for oversight of the Plan. State Street Bank & Trust Company serves as the trustee and Automatic Data Processing, Inc. serves as third party administrator and record keeper. The Plan Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

2 Contributions. Each year, participants may contribute up to the amount allowed by law of annual compensation, as defined in the Plan, on a pretax or after-tax basis. Unless the participant elects otherwise, an automatic deferral of 2% will apply. Deferral contributions and after-tax Roth contributions shall not exceed certain limits set forth by the Internal Revenue Code ("IRC") ($17,500 in 2014). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (up to $5,500 in 2014). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions equal to a percentage of each participant's contributions. For the year ended December 31, 2014, the Company contributed 25% of each participant's contribution, up to 6% of a participant's compensation. The Company may also make additional profit sharing contributions equal to a percentage of each participant's compensation. The Company intends to utilize forfeited accounts in the amount of $135,509 as a discretionary profit sharing contribution for the year ended December 31, 2014. Contributions are subject to certain limitations.

3 Participant Accounts. Each participant's account is credited with the participant's contribution, Company's contributions, and allocations of (a) Plan earnings and (b) charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4 Vesting. Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on periods of continuous service. A participant is 100 percent vested after six periods of credited service. A period of credited service is every twelve month period commencing with a participant's first day of employment or re-employment with the Company and ending on the first day of a period of severance.

5 Investment Options. Participants direct the investment of their contributions into various investment options offered by the Plan. Those participants who are auto-enrolled are invested in the default option. The Plan currently offers various mutual funds as investment options for participants. Participants may change their investment options at any time.

6 Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from one to five years, but may be extended at the discretion of the Plan administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates of 1% over the prime rate published in the Wall Street Journal on the 14th day of the month the loan is originated. A loan will carry the same rate of interest throughout its term. Principal and interest is paid ratably through weekly payroll deductions.

7 Payment of Benefits. Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as required by minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

8 Hardship Withdrawals. Hardship withdrawals are available if the participant meets certain criteria.

9 Forfeited Accounts. At December 31, 2014 and 2013, the balance of the forfeited accounts totaled $135,509 and $46,750, respectively. These accounts may be first used to pay administrative expenses and any remaining forfeitures may be used to reduce any future employer contributions. During the year ended December 31, 2013, forfeitures allocated to eligible participants totaled $77,659. The Company intends to utilize the forfeited accounts total of $135,509 as a discretionary profit sharing contribution for the year ended December 31, 2014.

B Summary of Accounting Policies.

1 Basis of Accounting. The financial statements of the Plan are prepared using the accrual basis of accounting.

2 Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and the trustee. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

4 Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit (losses) has been recorded as of December 31, 2014 and 2013. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the Plan documents.

5 Excess Contributions Payable. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contribution to the applicable participant on June 16, 2015.

6 Payment of Benefits. Benefits are recorded when paid.

7 Operating Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation in fair value of investments.

8 Subsequent Events. The Plan has evaluated subsequent events through September 9, 2015, the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure.

C Investments and Information Prepared and Certified by Trustee (Unaudited).

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and investment information included in the notes to the financial statements.
- Notes receivable from participants and related interest income on notes receivable from participants.
- Dividends, interest, other income, and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at year-end included as supplemental information.

This information has not been audited by the Plan's independent auditors.

The following table presents the Plan's investments at December 31, 2014 and 2013. Investments that represent 5% or more of net assets available for benefits are separately identified.

	2014	2013
Morgan Stanley Liquid Asset Fund	$ 3,526,202	$ 3,196,960

Others Less than 5%	14,894,217	14,181,913
	$29,444,897	$27,993,524

(a) Less than 5% of net assets available for benefits (included in "Others").

During the year ended December 31, 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $226,159.

D Fair Value Measurements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

E Related Party Transactions and Party-In-Interest Transactions.

State Street Bank & Trust Company is the trustee and Automatic Data Processing, Inc. serves as third party administrator and record keeper and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment. The Plan made a direct payment to the third party administrator of $38,842, which was not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

F Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

G Tax Status.

The Plan utilizes a prototype plan, which obtained a favorable opinion letter from the Internal Revenue Service ("IRS") dated July 8, 2014, stating that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Effective June 1, 2014, a restated 401(k) profit sharing plan was put into place by the Company to be in compliance with the Internal Revenue Code. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

H Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

I Reconciliation of Financial Statements to Form 5500.
