PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2014 And 2013

1. Description Of The Plan

The following description of the Plastic Enterprises Co., Inc. Profit Sharing Plan (the Plan) is provided for general information only. Plan participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides retirement benefits for eligible employees of Plastic Enterprises Co., Inc. (the Employer). The Employer established the Plan effective January 1, 1984. On December 31, 2003, the Amended and Restated Profit Sharing Plan for Employees of Plastic Enterprises Co., Inc. was merged into the Plastic Enterprises Co., Inc. Employee Stock Ownership Plan and renamed the Plastic Enterprises Co., Inc. Employee Stock Ownership Plan and Profit Sharing Plan. On February 4, 2011, 100% of the Employer's outstanding shares, including all of the Employer shares held in the Plan, were acquired by an unrelated third party. On this same date, the Plan ceased to invest in Employer stock, and the employee stock ownership plan provisions ceased to apply. The Plan Document was fully amended and restated, effective February 4, 2011, and the Plan was renamed the Plastic Enterprises Co., Inc. Profit Sharing Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by a Benefit Committee consisting of one or more members appointed by the Board of Directors of the Employer.

Employees may begin participation in the 401(k) salary deferral portions of the Plan as of the first day of the calendar quarter following the first day of employment.

Employees who have completed one year of service, as defined by the Plan, are eligible to participate in the Employer safe harbor 401(k) contributions and profit sharing portions of the Plan. Employees begin participation as of the next January 1 or July 1 following completion of the service conditions.

PLASTIC ENTERPRISES CO., INC.

Notes To Financial Statements (*Continued*)

Contributions

Eligible employees may elect to defer up to 50% of their annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution and defined benefit plans (rollover).

The Plan includes 401(k) safe harbor provisions. Under these provisions, the Employer makes required contributions equal to 3% of compensation for each eligible employee. The safe harbor contributions for 2014 and 2013 were \$267,046 and \$298,826, respectively.

The Board of Directors of the Employer may also elect to make discretionary contributions to the profit sharing portion of the Plan, which is allocated based on eligible compensation, as defined. There were no profit sharing contributions in 2014. The profit sharing contributions for 2013 were \$137,101. Participants who are not employed on the last working day of a Plan year are not eligible for an allocation of profit sharing contributions for that Plan year.

Investments

Participants may direct their deferrals, rollover and employer contributions into various investment options maintained by John Hancock Life Insurance Company (U.S.A.) (John Hancock).

Participant Accounts

Each participant's account at John Hancock is credited with the participant's contributions, the Employer's safe harbor and profit sharing contributions, forfeitures, and an allocation of Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the profit sharing discretionary contributions plus earnings thereon is based on years of service as follows:

Years Of Service	Vesting Percentage
2 years or more	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

PLASTIC ENTERPRISES CO., INC.
PROFIT SHARING PLAN

Notes To Financial Statements (*Continued*)

Participants are immediately 100% vested in their contributions and Employer safe harbor contributions. A participant is 100% vested upon termination due to death, disability or retirement, as defined. Forfeited balances of terminated participants' nonvested accounts are reallocated to participants in the same manner as Employer contributions.

Forfeitures

Forfeitures of nonvested participant balances are reallocated to active participants who meet the eligibility requirements for the profit sharing contributions. At December 31, 2014 and 2013, unallocated forfeited nonvested accounts total \$7,499 and \$16,559, respectively.

Payment Of Benefits

Upon termination of service due to death, disability, retirement or other termination of employment, a participant's benefit can be distributed in a lump sum, or in substantially equal annual payments over a period not to exceed certain life expectancies, as defined. Certain distributions of accounts less than \$5,000 are limited to a lump sum form of distribution.

Administrative Expenses

All significant expenses for Plan administration are paid by the Employer.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

PLASTIC ENTERPRISES CO., INC.
PROFIT SHARING PLAN

Notes To Financial Statements (*Continued*)

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Net appreciation (depreciation) represents the difference between the aggregate fair value of investments at year end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through a collective investment in the John Hancock Stable Value Fund Collective Investment Trust (John Hancock Fund). Accounting guidance requires the Plan's investment in this stable value fund be accounted for similar to a fully benefit-responsive investment contract. The statement of net assets available for benefits presents the fair value of the investment in the stable value fund as well as the adjustment from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. The adjustment from fair value to contract value has been presented separately in the accompanying statement of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis.

Payment Of Benefits

Benefits are recorded when paid.

PLASTIC ENTERPRISES CO., INC.
PROFIT SHARING PLAN

Notes To Financial Statements (*Continued*)

3. Participant Directed Investments

John Hancock holds the Plan's participant directed investments under a flexible investment group annuity contract which provides for pooled separate investment accounts where the underlying investments are primarily mutual funds.

Financial information related to the assets and earnings from the annuity contract is included in the accompanying financial statements and is based on information provided by John Hancock. This information, which has not been audited by the Plan's auditors, has been certified as complete and accurate by John Hancock.

The Plan's investments in pooled separate accounts at fair value that represent 5% or more of the Plan's net assets available for benefits at the end of the respective Plan years are as follows:

	December 31,	
	2014	2013
Pooled separate accounts		
JH Lifestyle Fund - Conservative Fund Portfolio	\$ 8,267,292	\$ 10,180,783
JH Lifestyle Fund - Balanced Fund Portfolio	7,038,291	8,231,827
JH Lifestyle Fund - Growth Fund Portfolio	1,709,798	1,950,755
JH Lifestyle Fund - Moderate Fund Portfolio	1,544,494	1,467,327

Stable Value Funds

During 2014 and 2013, the Plan was invested in the John Hancock Fund.

The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the John Hancock Fund's constant net asset value (NAV) of \$1 per unit. It is the policy of the John Hancock Fund to use its best efforts to maintain a stable net asset value of \$1 per unit, although there is no guarantee that the John Hancock Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the John Hancock Fund, plus earnings, less participant withdrawals and administrative expenses. The John Hancock Fund imposes certain restrictions on the Plan, and the John Hancock Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the John Hancock Fund to transact at less than contract value is remote.

PLASTIC ENTERPRISES CO., INC.
PROFIT SHARING PLAN

Notes To Financial Statements (*Continued*)

As described in Note 2, because the John Hancock Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the John Hancock Fund.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes To Financial Statements (*Continued*)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at the NAV of units held by the Plan at year end. The NAV, as provided by the administrator of the pooled separate accounts, is used as a practical expedient to estimate fair value. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised, primarily, of shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company approximates fair value of the investments. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements, and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Conservative allocation (a)	\$ —	\$ 11,648,110	\$ —	\$ 11,648,110
Moderate allocation (b)	—	8,231,827	—	8,231,827

- (a) Conservative allocation funds seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds and cash. These funds tend to hold smaller positions in stocks than moderate-allocation funds. These funds typically have 20% to 50% of assets in equities and 50% to 80% of assets in fixed income and cash.
- (b) Moderate allocation funds seek to provide both capital appreciation and income by investing in three major areas: stocks, bonds and cash. These funds tend to hold larger positions in stocks than conservative-allocation funds. These funds typically have 50% to 70% of assets in equities and the remainder in fixed income and cash.

- (c) Large blend funds have portfolios that are fairly representative of the overall stock market in size, growth rates and price. They tend to invest across the spectrum of U.S. industries and owing to their broad exposure, the funds' returns are often similar to those of the S&P 500 Index.
- (d) The John Hancock Fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.
- (e) The global allocation funds seek to maintain a balance between risk and return by investing in stocks, bonds and cash worldwide.
- (f) Target date funds seek high total return through its target retirement date, with a greater focus on income beyond that date.
- (g) Mid cap funds seek to achieve the approximate aggregate total return of a mid-cap U.S. domestic equity market index.

There have been no changes in the methodologies used at December 31, 2014 or 2013.

5. Plan Termination

The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan Administrator by a letter dated September 11, 2013 that the Plan as then designed is in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since applying for the determination letter, the Plan Administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's federal tax returns for tax years 2011 and later remain subject to examination by taxing authorities.

7. Transactions With Party-In-Interest

Certain Plan investments are units of pooled separate accounts managed by John Hancock. John Hancock is the Custodian and recordkeeper as defined by the Plan and, therefore, these transactions qualify as allowable party-in-interest transactions.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.
