Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following description of the ***Systems Made Simple, Inc. 401(k) Profit-Sharing Plan and Trust*** (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Systems Made Simple, Inc. (the “Company”) who have completed three months of service. Effective January 1, 2015, employees scheduled to work less than 2,080 hours in a year are excluded from participation. Senior management and the board of directors of the Company control and manage the operation and administration of the Plan. Voya Retirement Insurance and Annuity Company (Voya) serves as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100 percent of annual compensation, as defined by the Plan, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company provides a safe harbor matching contribution of 100% of employee deferrals up to 4% of compensation by each eligible employee. The Company may also make annual discretionary profit sharing contributions in an amount that is determined by the Company’s board of directors. For 2014, the Company did not make any discretionary profit sharing contribution to the Plan. Contributions are subject to certain limitations.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a guaranteed investment contract as investment options for participants.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions, and plan earnings, and charged with benefit payments and transaction fees related to notes receivable from participants and distributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2014, outstanding loans bore an interest rate of 4.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment options as provided for by the Plan.

Forfeitures

At December 31, 2014 and 2013, forfeited nonvested accounts were \$18,069 and \$14,354, respectively. These accounts will reduce future Company contributions or be used to pay administrative expenses. During 2014, the Company did not use forfeitures to reduce contributions or to pay administration expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, investment contracts held by defined contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits as of December 31, 2013 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2014, the contract value was equal to the fair value and an adjustment was not necessary,

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Subsequent Events

The Plan has evaluated subsequent events through September 9, 2015, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets:

	December 31,	
	2014	2013
American Funds Washington Mutual Fund	\$ 1,484,531	\$ *
Vanguard Target Retirement 2025 Fund	1,393,564	*
JP Morgan Large Cap Growth Fund	1,279,770	*
Voya Fixed Account – at contract value	955,013	625,681
Vanguard Target Retirement 2035 Fund	945,514	*
American Funds New Prospective Fund	805,662	*
Vanguard 500 Index Fund	683,716	*
ING Solutions 2035 Portfolio Fund	*	723,041
ING Solution 2025 Portfolio Fund	*	654,014
ING PIMCO Total Return Intermediate Fund	*	536,630

**Amount represents less than 5 percent of net assets at the end of the year.*

During 2014, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$737,516.

4. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 2 investment securities include pooled separate accounts for which quoted prices are not available in active markets for identical instruments. The fair value has been determined using the net asset value per unit. The net asset value (NAV) of the account is based on the fair value of the underlying investments and is not a publically quoted price in an active market.

Guaranteed investment contracts (GIC) are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate.) Disclosure of unobservable inputs to fair value measurement has not been included for the GIC because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by the insurance company.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2014 and 2013.

Fair Value as of December 31, 2014				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Blend (a)	\$ -	\$ 7,097,141	\$ -	\$ 7,097,141
Growth (b)	-	3,382,554	-	3,382,554
Value (c)	-	526,551	-	526,551
Bonds (d)	-	1,058,062	-	1,058,062
Money market (e)	-	18,069	-	18,069
Total pooled separate accounts	-	12,082,377	-	12,082,377
Guaranteed investment contract	-	-	955,013	955,013
Total	\$ -	\$ 12,082,377	\$ 955,013	\$ 13,037,390

Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total

Blend (a)	\$ -	\$ 1,684,882	\$ -	\$ 1,035,934
Growth (b)	-	5,059,165	-	2,467,498
Value (c)	-	1,272,575	-	711,234
Bonds (d)	-	853,685	-	386,190
Money market (e)	-	14,354	-	7,685
Total pooled separate accounts	-	8,884,661	-	8,884,661
Guaranteed investment contract	-	-	650,488	650,488
Total	\$ -	\$ 8,884,661	\$ 650,488	\$ 9,535,149

- (a) Blended funds invest in securities that are balanced between securities whose primary objective is to appreciate and securities whose primary objective is to pay dividends.
- (b) Growth funds invest in corporate securities with capital appreciation as the primary objective.
- (c) Value funds invest in corporate securities that are deemed to be undervalued in price and are likely to pay dividends.
- (d) Bond funds invest in a diversified portfolio of long duration fixed income securities.
- (e) Money market funds seek to provide stable returns that are relatively risk free.

The pooled separate account investments do not have an unfunded commitment, redemption restrictions or a redemption notice period. The redemption frequency is immediate.

The following table illustrates the activity of Level 3 assets measured at fair value on a recurring basis from December 31, 2013 to December 31, 2014:

	Guaranteed Investment Contract
Fair value at December 31, 2013	\$ 650,488
Interest income	6,167
Purchases	386,004
Sales	(86,840)
Administrative charges	(806)
Fair value at December 31, 2014	<u>\$ 955,013</u>

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in the adjustment from fair value to contract value for the fully benefit-responsive investment contracts in the statements of net assets available for benefits.

5. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2014 and 2013 and for the year ended December 31, 2014 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2014	2013
Investments*	\$ 13,037,390	\$ 9,510,343
Net appreciation in fair value of investments	\$ 737,516	\$ -
Interest and dividends	\$ 10,655	\$ -

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

*All investments are certified at fair value with the exception of the guaranteed investment contract, which are certified at contract value at December 31, 2013. At December 31, 2014, contract value was equal to fair value.

6. Guaranteed Investment Contract

The Plan has a fully benefit-responsive guaranteed investment contract (GIC) with Voya which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The GIC is included in the financial statements at fair value and then adjusted to contract value. As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

<u>Average yields:</u>	<u>2014</u>	<u>2013</u>
Based on actual earnings	1.12%	2.22%
Based on interest rates credited to participants	1.12%	2.22%

7. Exempt Party-In-Interest Transactions

Certain plan investments are shares of funds managed by Voya Retirement Insurance and Annuity Company (Voya). Voya is the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the custodian by the Plan for participant initiated transaction fees were \$5,632 for 2014.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts.

9. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (IRS) stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2008 that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
