The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

B. Transfers to the Coleman Cable 401(k) Plan

When the employment status of a participant changes between a collective bargaining employee to a nonunion employee not covered by a collective bargaining agreement, eligibility for participation shifts between this Plan and the Coleman Cable 401(k) Plan. When employment status changes, the account balance of the participant is transferred to the corresponding plan. There were no amounts transferred between the Plan and the Coleman Cable 401(k) Plan for the year ended December 31, 2014.

C. Contributions - Employees

Participants may elect to contribute from 1% up to 100% of their pretax compensation, subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute (rollover) amounts representing distributions from other qualified defined contribution or defined benefit plans.

Participants elect the way in which their contributions are invested among the various investment funds permitted by the Plan. The investment election will apply to both employee and employer contributions.

D. Contributions - Employer

The Company makes a nondiscretionary matching contribution, pursuant to the collective bargaining agreement, of 50% of the first 6% of eligible compensation, as defined, that a participant contributes to the Plan. Additional discretionary amounts may be contributed at the discretion of the Company's Board of Directors. No such additional discretionary contributions were made for the year ended December 31, 2014.

1. DESCRIPTION OF THE PLAN (Continued)

E. Participant Accounts

Separate accounts are maintained for each participant and reflect his or her contributions, allocations of Plan earnings, transfers, employer contributions, and administrative expenses. Allocations are based on participant earnings or account balances, as detailed in the Plan document. The benefit available to each participant is the participant's vested balance.

F. Vesting

A participant is immediately vested in his or her contributions, rollovers, and the earnings thereon. Vesting in Company contributions and earnings thereon is based on years of continuous service. Participants vest in Company contributions according to the following schedule:

Years of Service	Vested Percentage
One	20%
Two	40%
Three	60%
Four	80%
Five or more	100%

A participant will become fully vested if termination occurs as a result of retirement, death, or disability.

G. Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, partial payments, or systematic installments as the participant elects. Upon attaining 59½ years of age, a participant has the option to take an in-service distribution for any reason. The Plan allows participants to take hardship withdrawals in accordance with the Plan document.

H. Forfeitures

At December 31, 2014 and 2013, forfeited non-vested account balances totaled $5,106 and $1,567, respectively. These amounts must be used to reinstate the account balances of former participants who are re-employed before five consecutive one-year breaks in service and repay to the Plan any distributions previously taken and may be used to pay any administrative expenses of the Plan and/or to reduce future employer contributions. During the year ended December 31, 2014, $1,100 of forfeitures were used to reduce administrative expenses.

1. DESCRIPTION OF THE PLAN (Continued)

I. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Note terms are for a period not exceeding five years. The notes are secured by the balance in the participant's account and bear interest at prime plus 1% as published in *The Wall Street Journal* on the first working day of the month in which the note was issued. Principal and interest is paid ratably through payroll deductions; however, lump-sum repayments are permitted.

J. Administrative Expenses

Certain expenses of maintaining the Plan, including audit fees, are paid directly by the Company and are excluded from these financial statements. The Company reserves the right to elect to pay, or have the Plan pay, administrative expenses in the future. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The Plan has adopted the Financial Accounting Standards Board (FASB) Codification (Codification). The Codification is the single source of authoritative accounting principles generally accepted in the United State of America (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. All of the Codification's content carries the same level of authority.

B. Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with U.S. GAAP.

C. Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement basis for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents cost plus contributions made under the contracts plus interest at the contract rates less withdrawals and administrative expenses. Any material difference

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Benefit-Responsive Investment Contracts (Continued)

between the fair value of the Plan's direct investments in fully benefit-responsive investment contracts and their contract value is presented as an adjustment in the statements of net assets available for benefits.

Management has determined that the estimated fair value of the Plan's investment in the fully benefit-responsive investment within the guaranteed investment contract as of December 31, 2014 and 2013 approximated contract value. Accordingly, the statements of net assets available for benefits reflect no adjustment from fair value to contract value.

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investment bought and sold as well as held during the year.

E. Payment of Benefits

Benefits are recorded when paid.

F. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of any contingent assets and liabilities. Actual results could differ from those estimates.

G. Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. SUMMARY OF SIGNFICANT ACCOUNTING POLICIES (Continued)

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

3. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

4. FINANCIAL INFORMATION CERTIFIED (Unaudited)

Great-West Trust Company, LLC and Great West Life & Annuity Insurance Company (GWL&A) hold the Plan's investment assets and execute investment transactions. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by Great-West Trust Company, LLC and GWL&A, including the fair value and contract value of investments and notes receivable from participants held as of December 31, 2014 and 2013, and the net depreciation in fair value of investments, dividends and interest, and interest income on notes receivable from participants for the year ended December 31, 2014, except for comparing such information certified by Great-West Trust Company, LLC and GWL&A to information included in the Plan's financial statements and supplemental schedule.

4. FINANCIAL INFORMATION CERTIFIED (Unaudited) (Continued)

The following table is a summary of investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013:

	2014	2013
Mutual funds:		
PIMCO Total Return Admin Fund	$ 266,234	$ 262,241
American Funds Fundamental Investors R4 Fund	275,848	257,412
American Funds EuroPacific Growth R4 Fund	138,932	136,436
JPMorgan Diversified Mid Cap Growth Fund	221,538	190,555
T. Rowe Price Equity Income Advisor Fund	152,546	144,441
Wells Fargo Advantage Growth I Fund	133,164	131,187
Guaranteed investment contract:		
GWL&A Key Guaranteed Portfolio Fund	740,323	746,504

During 2014, the Plan's investments in mutual funds depreciated in value by $13,717.

5. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by Great-West Trust Company, LLC and GWL&A. The framework for measuring fair value under authoritative guidance issued by the FASB provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

5. FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Mutual funds are valued at the net asset value of shares held by the Plan at year end by obtaining quoted prices on nationally recognized securities exchanges.

Guaranteed investment contract: Management reviews the contract value and fair value reporting received from GWL&A (the contract issuer), the current terms of the contract, and GWL&A's credit ratings in determining the fair value estimate for the Plan's investment in the guaranteed investment contract. The fair value of the Plan's guaranteed investment contract has been determined to approximate contract value, as the terms of the contract prohibit transfer or assignment of rights under the contract and provide for all distributions prior to contract termination at contract value, frequent resetting of contractual interest rates based upon market conditions, no significant liquidity restrictions and no defined maturities. Generally, there are no events that allow the issuer to terminate the contract and which require the Plan to settle at an amount different than contract value. In addition, management has determined that no adjustment from contract value is required for credit quality considerations.

The methodologies described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

There were no transfers between Level 1 and Level 2 investments, or into or out of Level 3 investments during the years ended December 31, 2014 and 2013.

6. RELATED PARTY TRANSACTIONS

Great-West Trust Company, LLC and GWL&A perform services for the Plan, sell products to the Plan, and manage and maintain investments for the Plan for which fees are charged to the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

7. TAX STATUS

The underlying prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is tax-exempt. The Plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive investment contract with GWL&A (the Issuer). GWL&A maintains the contributions in its general account. The Plan's contract investment balance is credited with earnings based upon contractually determined crediting interest rates and charged for plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise. The contract is included in the financial statements at estimated fair value, which approximates contract value, as reported to the Plan by GWL&A.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination or merger, premature contract termination initiated by the Company, the establishment of another plan or program to which participants contribute, and a spin-off, sale or merger of any business unit of the employer or Plan administrator causing a group of participants to be excluded from eligibility. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances that would allow the Issuer to terminate

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

the contract include the Plan's termination, loss of its qualified status, addition of a competing investment option to the Plan, or breaches of the contract responsibilities. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than zero. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into/out of the contract, and the duration of the underlying investments backing the contracts. The average yields were as follows:

	2014	2013
Average yields:		
Based on annualized earnings [1]	1.25%	1.26%
Based on interest rate credited to participants [2]	1.25%	1.26%

[1] Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investment on the same date.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investment on the same date.

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 5, 2015, which is the date the financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2014 have been incorporated into these financial statements.
