1. DESCRIPTION OF PLAN:

The following description of the J D Equipment, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was created in November 1979 and was restated effective April 1, 2014. The Plan is a defined contribution plan covering all eligible employees of J D Equipment, Inc., J D Equipment Transit, LTD, and J D Power Systems, LLC (collectively, the Employer). Effective March 19, 2012, the Plan was restated to recognize service for employees previously employed by Finton Equipment, LLC. Employees who have completed six months of service (500 hours of employment) and are at least 19 years of age are eligible to participate. Eligible employees may enter the Plan on the first day of each month of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 90% of their annual compensation to the Plan, subject to certain limitations established by law. Participants may also contribute rollover contributions representing distributions from other qualified plans. Participants who reach age 50 may elect to make catch-up contributions. Effective April 1, 2014, participants are permitted to make elective Roth contributions to the plan.

The Plan document stipulates a discretionary Employer matching contribution. For the years ended December 31, 2014 and 2013, the Employer matched 30% of salary deferrals up to 7% of compensation, as defined. A participant must meet certain requirements in order to receive an Employer contribution.

Participant accounts

Each participant's account is credited with the participant's contributions, related Employer matching contributions and Plan earnings. Income of each investment fund (including appreciation and depreciation in fair value of each fund) is allocated daily to participant accounts based upon the ratio of each participant's account to the total of each investment fund balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant notes receivable

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Note terms cannot exceed 5 years or 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with the local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the remainder of their accounts is based upon years of continuous service. A participant is 20% vested after two years of credited service, 40% vested after three years of credited service, 60% vested after four years of credited service, 80% vested after five years of credited service and 100% vested after six years of credited service. Participants are fully vested in any contributions to their account if they were hired on or before December 31, 2005. Effective in 2007, certain employees were terminated due to the sale of the assets of J & D Implement, Inc., resulting in a partial plan termination. Accordingly, the affected participants became 100% vested.

Payment of benefits

In accordance with the Plan agreement, a participant may receive the vested value of their account upon attainment of age 59½, retirement, total disability or termination. Upon the death of a participant, the beneficiary shall be entitled to the full value of the account. Distributions shall be made in lump sum payments if the vested account balance is \$1,000 or less. If the vested account balance is in excess of \$1,000, the participant or his or her beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or may purchase an individual retirement account or annuity. If the vested account balance is between \$1,000 and \$5,000 and the participant does not elect a payment option, the distribution will be paid to an individual retirement account set up on behalf of the participant. The nonvested portion of the account is treated as a forfeiture.

Before a participant attains the normal retirement age or termination, he or she may elect to withdraw any or all of his or her before-tax contributions and vested portions of Employer contributions only in the event of financial hardship (as defined in the Plan). The plan administrator must approve all hardship withdrawals.

Forfeited accounts

Forfeitures are used first to restore balances of participants who are rehired and had forfeited balances, then to pay Plan expenses and then to reduce Employer contributions.

Administrative expenses

Certain administrative expenses are paid by the Employer and are excluded from these financial statements. Fees related to administration, notes receivable, and distributions are charged to participants' accounts and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date basis. Interest and dividend income is recorded on the accrual basis.

Participant notes receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Upon default (as defined), the plan administrator treats the default as a distribution and offsets the outstanding balance of the note against the participants' vested account balance.

Payment of benefits

Benefit payments are recognized when paid.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through September 25, 2015, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2014 and 2013 was obtained from data that has been prepared and certified to as complete and accurate by Huntington Bank, the trustee of the Plan, and furnished to the plan administrator:

- Investments
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Assets held at end of year

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in methodologies used at December 31, 2014 and 2013.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money market fund: Valued at observable market acquisitions for identical assets and are priced on a daily basis.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

During the year ended December 31, 2014, the Plan's investments in mutual funds (including investments bought, sold, and held during the year) depreciated in value by \$132,954. During the year ended December 31, 2013, the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated in value by \$896,339.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. TAX STATUS:

The Employer has adopted a prototype plan of Huntington Bank, which obtained its latest opinion letter on March 31, 2008. In that opinion letter, the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2011.

8. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by Huntington Bank, the trustee of the Plan. Therefore, transactions involving these investments qualify as party-in-interest transactions.

9. FORFEITED ACCOUNTS:

Forfeited nonvested accounts totaled \$8,309 and \$4,380 as of December 31, 2014 and 2013, respectively. Forfeitures of \$700 and \$6,845 were used to pay plan expenses for the years ended December 31, 2014 and 2013, respectively.
