DECEMBER 31, 2014

1. Description of Plan:

The following description of the Chicago Dryer Company Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Chicago Dryer Company (Plan Sponsor) who complete 250 hours of service within three (3) consecutive months of service and having attained the age eighteen (18) are eligible to participate as of the date such employee has satisfied these requirements. An eligible employee shall become a participant effective as of the earlier of the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or next following the date such employee met the eligibility requirements provided the employee was still employed as of such date. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan. They determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions

Each year, participants may elect to defer a portion of compensation which would have been received in the Plan year up to the maximum amount which will not cause the Plan to violate current tax laws. Effective January 1, 2010, a participant may elect to have all or a portion of their deferral to be Roth elective deferrals when contributed to the Plan. The Roth elective deferrals are included in the participant's gross income at the time deferred and must be irrevocably designated as Roth elective deferrals by the participant in the Deferral Election Agreement. Participants who have attained age 50, before the end of the Plan year are eligible to make catch-up contributions. Contributions are limited by Internal Revenue Service regulations. The 2014 limits were $17,500 with a catch-up contribution limit of $5,500. The annual compensation limit was $260,000 and the annual defined contribution limit was $52,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan Sponsor made a Safe Harbor contribution of 3.0% of participant's compensation to the Plan and a profit sharing amount of .5%. This profit sharing contribution is at the option of the Plan Sponsor's trustees.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of the a) the Plan Sponsor's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings and employer cumulative contributions.

1. Description of Plan: (continued)

Investment options
Participants may direct the investment of all contributions into various investment options offered by the Plan.

Notes receivable from participants
The Plan Sponsor may make plan loans to participants or beneficiaries under the following circumstances: (1) loans shall be made available to participants and beneficiaries on a reasonably equivalent basis; (2) loans shall not be made available to highly compensated employees in an amount greater that the amount that is made available to other participants and beneficiaries; (3) loans shall bear a reasonable rate of interest; (4) loans shall be adequately secured; and (5) loans shall provide for periodic repayment up to five to fifteen years depending on the loan type. Furthermore no Plan loan shall exceed fifty percent of account balance of a participant's vested interest in the Plan.

Payment of benefits
On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in certain monthly, quarterly, semi-annual or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship withdrawals from a participant's deferral contribution accounts are permitted when applicable criteria are met.

Forfeited accounts
At December 31, 2014 and 2013, there are no forfeited participant accounts.

2. Summary of significant accounting policies:

Management's review
Subsequent events were evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued. No material subsequent events were required to be recorded or disclosed.

Basis of accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. Summary of significant accounting policies: (continued)

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the plan year.

Investments valuation in a common/collective trust fund
The Stable Value Trust Fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 5); however, since these contracts are fully-responsive, an adjustment is reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant's note balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor.

3. Investments Certified by Custodian:

In order to qualify for a limited-scope audit, the plan investments must be held by a bank, trust company, or insurance company who provides certification under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA that the investment information is complete and accurate.

4. Investments:

5. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820 Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

5. Fair Value Measurements: (continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end. The NAV is based upon quoted market prices.

Common stocks: Valued at the closing price reported in the active market in which the individual securities are traded.

Common collective trust funds: Valued at the net asset value of units held by the plan at year end. The NAV is determined by the custodian of the fund and is based upon the fair value of the underlying assets held by the fund.

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements: (continued)

The following tables set forth by level within the fair value hierarchy.

Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3
Index funds	$1,527,968

Synthetic		884,523	
Cash equivalents	72,078		
Other	20,373		
Total	$6,872,123	$ 922,103	$ -

(a) This category includes a common/collective trust that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. The fair value of this fund has been estimated on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

6. Plan termination:

Although it has not expressed any intent to do so, the Plan Sponsor shall has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

7. Tax status:

The Internal Revenue Service has determined and informed the Company by letter dated July, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2011.

During the years 2014 and 2013, the Plan has not recognized penalties and interest on tax deficiencies. Management believes that any penalties or interest assessed would be absorbed by reserves. If income tax deficiencies were incurred they would be recorded under generally accepted accounting principles (GAAP) for uncertainties in income taxes and recognized as interest expense in the first period the relevant tax law requires interest accrual. Similarly for expected deficiencies recorded under (GAAP) for uncertainties in income taxes that are subject to penalties would be recognized as an expense of the statutory penalty in the period in which the entity claims or expects the position in the return.

8. Risks and uncertainties:

The Plan invests in various investments (Note 4). Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

9. Reconciliation of financial statements to Schedule H of Form 5500:

The financial statements and Schedule H of Form 5500 are prepared using the current values as of December 31, 2014. There are no reconciling differences between either net assets available for benefits or benefits paid to participants, as reported herein, to Schedule H of Form 5500 for the year 2014.

10. Non-employee participant balances:

As of December 31, 2014, the Plan has 42 participants with accounts amounting to $142,638, who are no longer employed by Chicago Dryer Company and not contributing to the Plan.

11. Plan amendments:

There were no amendments made to the Plan for the year ended December 31, 2014. Effective January 1, 2010 provisions were made to adopt a non-elective formula for the safe harbor contributions. Also effective December 1, 2010, the Plan was amended to permit participants to rollover part or all of a Non-Roth account to a Roth account in the Plan. This is an In-plan Roth contribution.

12. Recent accounting pronouncements:

In July, 2015 the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12 (Part 1): Plan Accounting: Defined Contributions Pension Plans (Topic 962), Health & Welfare Benefit Plans (Topic 965), Part 1: Fully Benefit Responsive Investment Contracts, Topic 962, Plan Accounting - Defined Contribution Pension Plans require fully benefit responsive investment contracts to be measured at contract value. It also requires an adjustment to reconcile contract value to fair value, when the measures differ, on the face of the Plan financial statements.

The amendments in Part 1 of this update are effective for the fiscal years beginning after December 31, 2015, early application is permitted.

This will have no impact on the plans financial reporting.
