CLEVER DEVICES LTD. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

Note 1 - Description of Plan

The following description of the Clever Devices Ltd. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1997 and is a defined contribution profit sharing plan covering all eligible employees. The Plan's sponsor is Clever Devices Ltd. (the "Company" or "Employer" or "Sponsor"). The Plan's custodian/trustee was John Hancock Life Insurance Company of New York at December 31, 2013 and from January 1, 2014 through September 9, 2014, and Voya from September 10, 2014 through December 31, 2014.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a percentage of their salary, up to the maximum amount permitted by law. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company provides a dollar for dollar match up to and including the first $3,000 contributed by an employee to his or her 401(k) plan if the participant has completed at least 1,000 hours of service during the Plan year and is employed by the Company on the last day of the Plan year. In addition, the Company, at its discretion may make profit sharing contributions to the Plan if the participant has completed at least 500 hours of service during the Plan year or is employed by the Company on the last day of the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants shall have a vested percentage in their employer contribution accounts according to a graded vesting schedule based on years of service.

Note 1 - Description of Plan (cont'd.)

Vesting (cont'd.)

Participants' accrued benefits from voluntary pre-tax salary reduction contributions and related interest and investment gains and losses are 100% vested at all times. A participant is 100% vested if termination is due to death or disability.

Participants' vesting schedule for the matching contribution and profit sharing contributions is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
3 or more years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. If a loan was taken in the previous 12 months, the amount of the highest outstanding loan balance is deducted from the amount the participant may borrow. Loans are secured by the balance in the participant's account. Loans will be subject to interest charges equal to the annual effective prime rate plus 1.5%. Principal and interest is paid ratably through monthly payroll deductions.

Loans must normally be repaid within such period as agreed to between the participant and the Plan, up to a maximum of five years. Any outstanding loans must be fully repaid when employment terminates. At December 31, 2014, the interest rate on loans was 4.75% to 5.25% per annum. The loans have various maturity dates.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The Plan also allows certain withdrawals at age 59 ½ and hardship withdrawals.

Forfeitures

The nonvested portion of a participant's account is forfeited when employment is terminated and those forfeited balances are used to offset plan expenses and may be used to reduce the matching contribution. At December 31, 2014, there was $16,809 in forfeited nonvested accounts. At December 31, 2013, there were no forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits at December 31, 2013 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance of credit losses has been recorded at December 31, 2014 or 2013.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 - Information Prepared and Certified By Custodian

The Plan administrator has obtained certification from John Hancock Life Insurance Company of New York, custodian/trustee of the Plan at December 31, 2013 and from January 1, 2014 through September 9, 2014. The Plan administrator also obtained certification from Voya, custodian/trustee of the Plan at December 31, 2014 and from September 10, 2014 through December 31, 2014. Information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodians/trustees of the Plan. This information has not been audited by the independent auditors.

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 - Fair Value Measurements (cont'd.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

The Level 1 inputs relate to pooled separate accounts that invest in mutual funds. The fair value of the underlying mutual funds are publicly quoted pricing inputs and are used in determining the net asset value ("NAV") of the pooled separate accounts, which is not publicly quoted.

Level 2 inputs at December 31, 2014, relate to the Voya Fixed Account, which is a guaranteed interest account, which is valued at the approximate amount that would have been paid if the contract had been terminated as of the last day of the reporting period and potential surrender charges and market value adjustments were applied as of such date. The credited rate, account balance and formulas upon which payments may be based are observable through the contract and related communications. The credited rate is communicated to the Plan and credited daily. Any market value adjustment or surrender charge is based on the formulas and schedules in the contract.

The Level 2 inputs relate to common collective trusts at December 31, 2013 whose underlying asset is a stable asset fund which invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the stable asset fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The stable asset fund is recorded in the accompanying financial statements at fair value. Fair value represents quoted market prices for synthetic GICs, while the fair value of conventional GICs is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate at December 31, 2013.

Note 5 - Fair Value Measurements (cont'd.)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:

Note 6 - Common Collective Trust

The Plan invested in a common collective trust at December 31, 2013, which held fully benefit-responsive investments. John Hancock Life Insurance Company of New York maintained the contributions in a general account. Each account was credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) complete or partial termination of the Plan, (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yields for 2013 are as follows:

Average yields:	2013
Based on actual earnings	1.91%
Based on interest rate credited to participants	2.27%

Note 7 - Voya Fixed Account

In 2014, the Plan has an investment with Voya. Under the terms of the contract, Voya maintains contributions in a general account. The account is credited with earnings on the underlying investments and is charged for Plan withdrawals and administrative expenses. The investment is recorded at fair value because it is not fully benefit-responsive. Therefore no adjustment from fair value to contract value is necessary. The average yield earned by the Plan and credited to participants was 1.2% for the year ended December 31, 2014. Withdrawals from the investment for other than the payment of benefits to participants may be subject to a Market Value Adjustment and a surrender charge.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9 - Related Party Transactions

Certain Plan investments and guaranteed investment contracts are managed by Voya from September 10, 2014 to December 31, 2014, and certain Plan investments and pooled separate accounts and common collective trusts are managed by John Hancock Life Insurance Company of New York from January 1, 2014 to September 9, 2014. Voya and John Hancock Life Insurance are custodians/trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to $32,259 for the year ended December 31, 2014.

Note 10 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 11 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12 - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 to the Form 5500:

	2013
Net asset available for benefits per the financial statements	$ 12,028,812
Adjustments from contract value to fair value for fully benefit-responsive investment contracts	4,278
Net assets available for benefits per the Form 5500	$ 12,033,090

No reconciliation was necessary for December 31, 2014.

The following is a reconciliation of total income for the year ended December 31, 2014 per the financial statements to the Form 5500:

	2014
Total income per the financial statements	$ 788,632
Adjustment from contract value to fair value for fully benefit-responsive investment contracts, December 31, 2013	(4,278)
Total income per the Form 5500	$ 784,354

Note 13 - Subsequent Events

The Plan has evaluated subsequent events through the date of these financial statements, which is the date the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
