The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Plan is administered by the Company which is responsible for controlling and managing the operations.

Contributions – Participants may make pre-tax 401(k) contributions in any amount up to 100% of their compensation, subject to certain limits imposed by the Internal Revenue Service ("IRS"). The Plan also provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions, subject to certain IRS limitations.

The Plan also provides for discretionary, non-elective "safe harbor" Company contributions. Such discretionary "safe harbor" contributions are equal to 100% of up to 3% of eligible compensation plus an additional 50% of eligible compensation contributed between 3% and 5% for the year ended December 31, 2014.

Rollovers – Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments – All investments of the Plan are held by Principal Life Insurance Company ("Principal") or Principal Trust Company in participant-directed investment funds.

Participant Accounts – The Plan maintains an individual account for each participant. These accounts are credited with participants' contributions, Company contributions, and related earnings, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The net value of each participant account is established on the last day of the Plan year through the valuation of the funds at fair value.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to the extent of one-half of their vested account balance under the Plan, not to exceed $50,000. The loans are secured by the balance in the participant's account. A participant may have an unlimited number of loans approved in any twelve-month period, but may only have one outstanding loan balance at any time. The loan interest rates will be based on the rates available for similar loans from commercial lending institutions. Principal and interest is paid ratably through payroll deductions.

Note 1. Plan Description (Continued)

Vesting – Participants have a 100% non-forfeitable vested interest in their voluntary contributions, employer "safe harbor" contributions, and earnings thereon.

Benefits – A participant, upon retirement, termination, disability, or the attainment of age 59½ or a participant's beneficiary upon the participant's death, may elect to either roll over the funds, receive a lump-sum amount equal to the value of his or her account, or receive an annuity. In the case of a severe financial hardship, the plan administrator, in its sole discretion, may direct distribution of all or a portion of the participant's voluntary contributions, subject to certain restrictions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Administrative Expenses – Administrative expenses of the Plan are paid by the Company or the Plan at the option of the Company. Participants who elect to receive a distribution or take a loan are charged a processing fee. Administrative expenses may be offset with funds made available by the Plan custodians from fees they receive from investment fund managers, which are netted within administrative fees on the statement of changes in net assets available for benefits for the year ended December 31, 2014.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Company has evaluated subsequent events through September 18, 2015, which is the date the financial statements were available to be issued.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal and Principal Trust Company, the custodians, have certified to the completeness and accuracy of all investments reflected in the statements of net assets available for benefits at December 31, 2014 and 2013, the supplemental schedule at December 31, 2014, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014, and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Investments individually in excess of 5% of the Plan's net assets are as follows:

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for Plan assets measured at fair value:

- The fair value of investments held in the Mutual Funds is determined based on their quoted closing market prices in active markets for identical investments, and is classified as Level 1.
- The investments in Pooled Separate Accounts are held and managed by Principal. The fair value of investments held in the Pooled Separate Accounts is based on their reported net asset value ("NAV"). The NAV is based primarily on observable inputs, the market value of the underlying investments, and is classified as Level 2.

Note 4. Fair Value Measurements (Continued)

- Investments in Guaranteed Investment Contracts with Principal are valued at estimated fair value as determined by Principal because they are deemed not to be benefit-responsive. The investments held in the Guaranteed Investment Contracts are valued utilizing a market value adjustment model and are classified as Level 3. The market value adjustment model takes the aggregation of contributions, plus interest, less withdrawals and adjusts this value by current rates of interest available in the market place. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. There have been no changes in the methodologies used from 2013 to 2014. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Level 3 financial instruments held by the Plan, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

As of December 31, 2014:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significance Input Values
5-year Guaranteed Investment Contracts	$ 72,726	Market value adjustment	Composite guaranteed rate	1.70% - 1.76%
			Current rate on 12/31/2014	0.72%

As of December 31, 2013:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significance Input Values
5-year Guaranteed Investment Contracts	$194,309	Market value adjustment	Composite guaranteed rate	1.69% - 1.77%
			Current rate on 12/31/2013	0.61%

Composite guaranteed rates are used to calculate the interest crediting rates during the year which are applied to the aggregation of contributions, plus interest, less withdrawals. At year-end, a market value adjustment is applied to this aggregate sum utilizing a combination of the current interest rates based on remaining investment term at the reporting date as well as the interest rate on account.

Note 5. Guaranteed Investment Contracts

The Guaranteed Investment Contracts contain provisions that could be construed as placing restrictions on the availability of contract funds. The Guaranteed Investment Contracts are included in the financial statements at estimated fair value because they are not fully benefit-responsive. The Guaranteed Investment Contracts are backed by Principal's general account. Due to the nature of these Guaranteed Investment Contracts, they do not have specific underlying assets assigned.

Note 6. Termination Provisions

The Company anticipates and believes that the Plan will continue indefinitely, however, the Company reserves the right to terminate the Plan at any time. In the event of termination of the Plan, the assets then remaining in the Plan will be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

Note 7. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Party-in-Interest Transactions

Certain Plan investments are held in Mutual Funds, Pooled Separate Accounts, and Guaranteed Investment Contracts of either Principal or Principal Trust Company, the custodians of the Plan. Administrative expenses are paid to the custodians of the Plan; therefore, these transactions qualify as party-in-interest. Total asset-based and transaction-based fees paid to the custodians were $7,939 during the year ended December 31, 2014.

Note 9. Income Tax Status

The Plan has adopted an approved volume submitter Plan document. This Plan document has obtained a determination letter dated March 31, 2008 from the IRS in which the IRS stated that the document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving this determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2014, the Plan's tax years from 2011 and thereafter remain subject to examination by the Internal Revenue Service, as well as by other applicable taxing authorities.
