REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Plan Administrator of
Kuhlman Electric Corporation Salaried Employees' Pension Plan:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **Kuhlman Electric Corporation Salaries Employees' Pension Plan** (the "Plan"), which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years ended December 31, 2014 and 2013, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended December 31, 2014 and 2013, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2014 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Plan Description

The following brief description of the Kuhlman Electric Corporation Salaried Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

The Plan was established effective January 1, 1974 to provide retirement benefits to eligible employees of Kuhlman Electric Corporation. Kuhlman Electric Corporation was acquired by ABB Inc. (the Company or Employer) in 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). No employees hired May 1, 2006 and thereafter are eligible to participate in the Plan.

Participation and Vesting

In accordance with the Pension Protection Act of 2006, participants are 100% vested after completing three years of eligibility service. The Plan was amended effective April 30, 2006, to freeze participation in the Plan. Therefore, all employees hired after this date will not be eligible to participate in the Plan. In addition, the Plan was amended effective December 31, 2009, to freeze future benefit accruals under the Plan.

Pension Benefits

An account shall be established and maintained for each covered employee to which credits shall be made pursuant to the provisions of the Plan. Participants with three or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) in the form of an annuity indexed to the consumer price index for the life of the participants. The starting value of this annuity is 1/180 times the participant's account balance at benefit commencement date. As provided in the Plan, a benefit equal to a participant's final five-year average pay times 1.2% times credited service (to a maximum of 20 years) is payable if it provides a larger benefit.

An employee may elect to retire at any time after they have both attained age 55 and completed 10 years of service. Their monthly pension under the Plan is computed the same as if they were retiring at normal retirement date, based on their account balance at their early retirement date, and is then reduced by 5/9 of 1% for each month up to sixty (60) months and 5/18 of 1% for each month in excess of sixty (60) months that the benefit commencement date precedes the first day of the month following their sixty-fifth (65th) birthday.

Employees may elect to receive the value of their accumulated plan benefits (account balance) in one of the following forms as described in the Plan: 1) an increasing life annuity (with 60 months guaranteed), 2) a life annuity option (with 60 months guaranteed), 3) a surviving spouse option, 4) a life annuity (with 120 months guaranteed), or 5) a lump sum option.

Covered employees who become disabled are entitled to receive pension benefits upon attainment of age 65, as specified in the Plan. Employees continue to receive pay-based credit during the period from the date of disability until the attainment of age 65.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Cash

The Plan places cash deposits with federally insured financial institutions; however, at times, deposits have exceeded the amount insured by the Federal Deposit Insurance Corporation.

Payment of Benefits

Benefit payments are recorded when paid to participants. Active participants may elect to defer annuity payments after age 70 ½.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year, and (b) an amount necessary to amortize the unfunded accrued liability.

It is the Company's intention to only make contributions that are tax-deductible. For each of the years ended December 31, 2014 and 2013, the Plan has satisfied the minimum funding requirements of ERISA.

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust (Master Trust) along with the assets of certain other plans of the Company. BNY Mellon (the Trustee) is the trustee of the Master Trust.

Income, including realized and unrealized gains/losses, of the Master Trust is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment related expenses are included in net investment gain of the Master Trust presented in the accompanying statements of changes in net assets available for benefits.

Securities Lending

As of and for the years ended December 31, 2014 and 2013, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund consisting of high quality, short-term investments managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to $52,875,149 and $75,852,269 at December 31, 2014 and 2013, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements. Income from securities lending is included in other investment income in Note 4.

Derivatives

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk, or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The values of such derivative contracts are included within the respective investment category in Note 4.

At December 31, 2014 and 2013, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, Derivatives and Hedging, are included in the Master Trust's net assets under unrealized gain on foreign currency contract.

Realized and unrealized gains and losses were $5,800,344 and $1,962,684, respectively, on derivatives contracts entered into during the year ended December 31, 2014 by the Master Trust and realized and unrealized gains were $253,143 and $148,152, respectively, on derivatives contracts entered into during the year ended December 31, 2013 by the Master Trust.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust's net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under a netting agreement at December 31, 2014 and 2013:

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Plan Corrections

In 2014 the Company determined that certain benefit payments were incorrectly made out of the wrong plan (including ABB Cash Balance Pension Plan, The Pension Plan for Hourly Employees of ABB Inc., Kuhlman Electric Corporation Salaried Employees' Pension Plan, Crystal Springs Plant of Kuhlman Electric Corporation Retirement Income Plan, ABB Inc. Fischer & Porter Company Pension Plan and ABB Inc. Pension Plan – UE 625 and 626) and that a correction was made in the 2013 financials to correct for benefits payments of $24,951 for 2010 to 2012 and associated earnings of $2,193 for 2010 to 2012 incorrectly recorded. The total reduction in 2013 related to this matter on the statement of changes in net assets available for benefits (including associated earnings of $1,476 related to 2013) was $28,620.

Subsequent Events

Management evaluated subsequent events for the Plan through September 30, 2015, the date the financial statements were available to be issued, and has determined that there are no material subsequent events.

3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2014 and 2013, were determined by the Plan's actuary, Towers Watson & Company (formerly known as Watson Wyatt & Company), using employee data supplied by the Company as of January 1, 2014 and 2013, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method. A summary of the significant actuarial assumptions underlying the actuarial valuation as of December 31, 2014 and 2013, are as follows:

Mortality – 2014: Based on the Retirement Plans – Collar specific RP2014 Mortality Table with Scale MP-2014 generational projection split between annuitants and non-annuitants and sex distinct.

Mortality – 2013: Based on the Retirement Plans – PPA 2014 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Interest – The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2014 and 2013 were 3.45% and 4.10%, respectively. The change in interest rates is reflected in the "change in actuarial assumptions" in the accompanying Statements of changes in accumulated plan benefits.

Interest Crediting Rate: The assumed interest crediting rate for December 31, 2014 and 2013 was 5%.

Retirement age – 2014 and 2013: Age 55 for terminated vested participants with account balances. Age 65 for other terminated vested participants and the following chart of rates applies for active employees:

Age	Percentage of Employees Expected to Retire Within One Year
55-58	5
59	6
60-61	15
62	20
63-64	25
65	75
66	65
67-69	50
70	100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4 ABB Inc. Master Trust

The Plan's investments are held in the Master Trust which is a master trust established for the investment of the assets of the Plan and other Company sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust.

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2014 and 2013, the Plan had a 1.77% and 2.45% interest in the net assets of the Master Trust held by BNY Mellon, respectively.

On February 3, 2014, $481 million of assets of The Thomas & Betts Pension Plan and Thomas & Betts Pension Plan For Bargaining Unit Employees were merged into the Master Trust.

5 Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity) recorded by the Master Trust as of and for the years ended December 31, 2014 and 2013 (the "Master Trust certification"). Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2014 and 2013 (the "Plan certification"). Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2014 and December 31, 2013 and for the years then ended are detailed below:

December 31	2014	2013
	$	$
Private equity investments	74,620,884	97,190,284
Distressed debt	3,628,574	5,967,713
Fund of funds	17,619,877	23,439,145
Total alternative investments	95,869,335	126,597,142

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

For the years ended December 31	2014	2013
	$	$
Net realized and unrealized appreciation in fair value of alternative investments	8,045,189	17,912,862

At the Plan level, the Plan's "Interest in the ABB, Inc. Master Trust" as reflected in the accompanying statements of net assets available for benefits and the Plan's "Interest in net investment gain of the ABB Inc. Master Trust" in the accompanying statements of changes in net assets available for benefits has also been certified by the Trustee. While the Plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and investment gain of alternative investment noted above. . These amounts represent 6.35% and 6.60% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2014 and for the year then ended and 11.21% and 19.47% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2013 and for the year then ended.

6 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. ASC 820, Fair Value Measurements and Disclosures, (ASC 820) requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2013, there were transfers in and out of Levels 2 and 3.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- U.S. fixed income securities consisting primarily of U.S. corporate bonds, U.S. government securities, and short term investments, are valued at the closing price reported on the active market on which the individual securities are traded.

- International fixed income securities consisting primarily of international corporate bonds and international government securities are valued at the net asset value, based on quoted market prices in international markets.

- U.S. equities consisting primarily of U.S. corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded.
- International equities and foreign exchange contracts are valued at the net asset value, based on quoted market prices in international markets.
- The various asset classes listed above may be in either pooled or separate accounts. Pooled account investors receive their prorated share of gains and losses, as well as any interest earned. Separate accounts receive all gains and losses as well as interest earned within the portfolio.
- Mutual funds and registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year-end.
- Collective trusts are valued at net asset value as determined by the Trustee.
- Alternative investments are valued at net asset value as reported by the respective fund manager.

The ASC 820 tables above exclude securities lending losses of $0 at December 31, 2014, and $21,506 at December 31, 2013, which are in the Master Trust table in Note 4.

a. This category consists of cash in an interest-bearing checking account.

b. This collateral consists of cash provided by the borrower that is 102% of the value of the securities borrowed; subsequently this cash is invested in an overnight fund consisting of repurchase agreements and time deposits and a liquidating trust invested in repurchase agreements and asset-backed floating rate securities.

c. This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. and internationally issued bonds. There are currently no redemption restrictions on the Level 1 and Level 2 investments; however, in 2014, the Level 3 fixed income investment was released by the U.K. bankruptcy courts and was liquidated by the manager by 2014 year-end.

d. This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. common stocks via direct purchases. There are currently no redemption restrictions on these investments.

e. This category includes investments in mutual funds and diversified pooled, collective trusts and separate accounts that invest in international common stocks. A currency overlay strategy is also employed to add value and reduce currency risk.

f. This category includes investments in private equity, distressed debt and fund of funds. By nature, these investments are illiquid and capital calls and distributions are determined by the investment manager. At December 31, 2014, the Master Trust has unfunded commitments of $8.1 million to be called in future years. The alternative investments include varying redemption restrictions that are dependent upon related market conditions which may dictate timing and redemption amount.

g. This category includes equities and fixed income securities out on loan supported by cash collateral with value in excess of the value of the securities loaned out.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 financial instruments for the years ended December 31, 2014 and December 31, 2013:

December 31	2014	2013
	$	$
Balance, beginning of year	138,944,100	151,712,128
Net realized gains (losses)	1,152,425	(558,447)
Changes in unrealized appreciation (depreciation)	5,594,227	8,133,990
Net sales	(49,781,951)	(34,525,836)
Contribution (return) of capital	(39,466)	(135,755)
Transfers in	-	19,207,238
Transfers out	-	(4,889,218)
Balance, end of year	95,869,335	138,944,100

The Master Trust has elected to use a practical expedient to estimate the fair value of the investments in fixed income securities and alternative investments. The net asset value (NAV), including member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, is used for each investment as of the reporting date.

In determining the reasonableness of the valuation methodology for the investments in fixed income securities and alternative investments, the Company obtains audited financial statements at the respective year-end for each investment manager to support the reported NAV. In addition, the Company, upon consultation with an external investment advisor, regularly evaluates a variety of factors to determine the reasonableness of the valuation methodology, including review of the underlying investments of each fund, comparison of expected performance to actual results, review of the fund manager's investment strategy, and the current economic and capital market environment.

7 Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, to that portion of a participant's accrued benefit which is derived from mandatory contributions to the Plan.

Second, equally among benefits of participants in the following two subcategories;

- In the case of benefits in any pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination); and
- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Third, among all other benefits (if any) of participants under the Plan; guaranteed under the termination insurance provisions of ERISA;

Fourth, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fifth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014 and 2013, that ceiling, which is adjusted annually, was $5,011 and $4,943 per month, respectively. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty.

8 Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 17, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Pension Review Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9 Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10 Prohibited Transaction

The ABB Inc. Master Trust had a $84,319 receivable at year end 2012 that reflected a prohibited transaction. This prohibited transaction was comprised of external legal fees that occurred as a result of a 2012 Department of Labor exemption request to allow the plan sponsor to make Treasury-bill contributions in lieu of cash contributions. The plan sponsor reimbursed the Master Trust for this amount plus interest during 2013 and took all necessary corrective actions to ensure the Plan and the trust maintain its income tax status as described in Note 8 above. As of December 31, 2013, there are no remaining receivables in the Master Trust attributable to these expenses. The Plan Sponsor intends to file a Form 5330 to resolve this transaction.

11 Differences Between the Financial Statements and Form 5500

The following is a reconciliation of net asset available for benefits per the financial statements to the Form 5500:

	December 31	
	2014	**2013**
	$	**$**
Net assets available for benefits per the financial statements	26,829,286	27,618,647
Less amounts allocated to withdrawing participants	(92,949)	(76,518)
Net assets available for benefits per Form 5500	26,736,337	27,542,129

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the years ended December 31, 2014 and 2013:

	2014	**2013**
	$	**$**
Benefits paid to participants per financial statements	1,846,343	1,161,270
Less benefits payable at beginning of year	(76,518)	(47,595)
Plus benefits payable at end of year	92,949	76,518
Benefits paid to participants per Form 5500	1,862,774	1,190,193

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end, but not yet paid.

SCHEDULE SB ATTACHMENTS

Benefit commencement date

• Preretirement death benefit	The later of the date of death of the active participant or the date the participant would have attained age 55.
• Deferred vested benefit	The later of age 55 or termination of employment.
• Disability benefit	Upon disablement.
• Retirement benefit	Upon termination of employment.
Form of payment	Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement.
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible participants are assumed to be married.
Spouse age	Wife three years younger than husband.
Plan-related expenses	$140,000
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement
Future Increases in Maximum Benefits and Plan Compensation Limitation	Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

SCHEDULE SB ATTACHMENTS

Methods	
Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year, as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year).
Benefits not valued	Generally, benefit changes which are adopted after the first day of the plan year are not recognized for such plan year. To the best of our knowledge, all benefits were included in this valuation.
Change in assumptions and methods since prior valuation	In addition to the prescribed changes in the mortality table, the following change in assumptions and methods was made as part of this valuation: ● The plan's effective interest rate increased 15 basis points compared to the prior year (6.22% vs. 6.07%), which increased the funding surplus. ● The assumed plan-related expenses added to the Target Normal Cost were changed from $170,000 to $140,000.

Normal Retirement Benefit

Normal Retirement Income: Normal retirement income as an annuity indexed to CPI for the life of the participant (with 66.7% continuation to the participant's spouse if applicable). The starting value of this annuity is 1/180 times the participant's Account Balance at Benefit Commencement Date.

The Account Balance is initially established on the present value of the benefit accrued under the plan at 12/31/86. Participants earn annual credits to Account Balances equal to 3% of eligible compensation in excess of 1/4th of the Social Security Maximum Taxable Wage Base for that year plus 6% of compensation in excess of 1/4th of the Social Security Maximum Taxable Wage Base. In addition, certain participants are eligible to receive special transitional credits equal to a specified percentage of annual pay. Account Balances are credited with an Interest Credit Percentage at the end of each quarter based on the Account Balance at the beginning of each quarter.

The Interest Credit Percentage is equal to the lesser of:

(i) The Consumer Price Index as measured for the 12 month period ending 3 months prior to the start of the plan year, and

(ii) The 12 month average of the yields of One-Year Treasury Constant Maturities for the 12 month period ending 3 months prior to the start of the plan year.

The Plan was amended effective January 1, 2001 to provide a minimum interest crediting percentage of 5% and a maximum interest crediting rate of 8%.

A minimum benefit applies to all active participants earning benefits under the plan after December 31, 1986 and is equal to five year average pay times 1.2% times credited service (to a maximum of 20 years) is payable if it provides a larger benefit.

In no event will the present value of benefits due to a participant commencing payment under the Plan be less than the value of his accrued benefit under the Plan as of December 31, 1986.
