Note 1 - Description of Plan:

The following description of the Westbrook Service Corporation Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan was established on October 1, 1990 as a defined contribution plan covering substantially all employees of *Westbrook Service Corporation* (the Company), who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants in the Plan may voluntarily contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, within the limits prescribed by the Internal Revenue Service (IRS). Participants may also roll over amounts representing distributions from other qualified defined-benefit or contribution plans. For both years ended December 31, 2014 and 2013, individual participants' contributions were limited to $17,500 ($23,000 if over the age of 50).

The Plan provides for Company matching contributions and discretionary matching contributions, both of which are determined annually. For the years ended December 31, 2014 and 2013, the Company matched 25% of a participant's first 6% of match eligible contributions. Plan participants must have been an active participant in the matching portion of the Plan and have completed 1,000 or more hours of service in the Plan year to be eligible for the Company's matching contributions.

The Company's discretionary matching contribution to the Plan is a proportional percentage amount based upon a pre-defined formula that takes into consideration each participant's respective amount of annual compensation. To be eligible, an employee must be an active participant in the Plan and have completed 1,000 or more hours of service in the Plan year. There were no discretionary matching contributions approved or made during the years ended December 31, 2014 and 2013.

Participant accounts - Each participant account is credited with the participant's contribution and allocation of: (a) the Company's contribution and discretionary matching contribution (if any) and (b) plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Note 1 - Description of Plan (Continued):

Allocation and vesting of benefits - Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contribution and discretionary matching contribution (if any) portion of their accounts, plus any earnings or losses thereon, is based upon the number of years of continuous service. Participant accounts vest at a rate of 20% per year of service after the first year and become 100% vested after six years of credited service. Participant accounts become fully vested upon death, disability (as defined by the Plan), attainment of normal and/or early retirement age (defined by the Plan as 65 and 55, respectively), or upon termination of the Plan.

Forfeitures - Any non-vested portion of an account balance after the distribution of terminated participants vested account balance is forfeited. A forfeiture will also occur without a distribution after five consecutive one year breaks in service.

Nonvested Company matching and discretionary matching contributions forfeited by participants are used to reduce certain administrative expenses or reduce Company contributions to the Plan. For the year ended December 31, 2014, the Company used $662 to reduce administrative expenses with a forfeited account.

Payment of benefits - Distributions of a participant's pre-tax account are made upon retirement from the Company, in cases of financial hardship, termination from service from the Company, death, or permanent or total disability. The normal retirement age, as defined by the Plan, is the date at which participants reach the age of 65. Participants still employed who have reached the age of 59 ½ are eligible to withdraw all or a portion of their vested accounts. If a participant terminates before retirement, the participant will receive either a lump-sum payment of his or her account balance, or if the account exceeds $1,000, the participant may elect any distribution date up to age 70 ½. The period may not extend beyond the life expectancy of the participant or the joint life expectancy of the participant and his or her beneficiary.

Participant notes receivable - Plan participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may not have more than one note outstanding at any time. The notes, which are collateralized by the balance in the participant's account, bear interest at 4.25% for the years ended December 31, 2014 and 2013. Principal and interest are paid ratably through monthly payroll deductions. All loans are required to be repaid within a period of five years.

Plan administration - The Company is the plan sponsor and plan administrator of the Plan, and as such, controls and manages the operation and administration of the Plan. Effective on January 1, 2014, the Company has changed custodianship of assets from Principal Life Insurance Company to American United Life Insurance, Inc. (New Custodian). The Plan's assets are maintained by American United Life Insurance Company (the Custodian and investment manager). Company contributions are held and managed by the Custodian, who invests cash received, interest and dividend.

Note 2 - Summary of Significant Accounting Policies:

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition - The Plan's investments in pooled separate accounts are reported at fair value based on the quoted market price, which represents the net asset value of shares held by the Plan at year-end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar investment with comparable durations.

Interest income is recorded when received. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investment and unrealized appreciation or depreciation is recognized at period end when carrying values of the related investments are adjusted to their fair values. Purchase and sales of investments are recorded on the settlement date.

Earnings on investments, with the exception of participant notes, are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances. The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's individual account. Participant notes are valued at their outstanding balances, which approximates fair value.

In accordance with the policy of stating investments at market value, the Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Administrative expenses - Administrative expenses include loan fees charged directly to the participant's accounts. The remaining costs are paid directly by the Company and are not reflected in the accompanying financial statements or with forfeited accounts.

Management estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and changes in net assets and disclosures of contingent assets and liabilities. Actual results could differ from those estimates and such differences could be material.

Note 2 - Summary of Significant Accounting Policies (Continued):

Risks and uncertainties - The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to high level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Concentration of credit risk - Financial instruments which potentially subject the Plan to concentrations of credit risk consists of the Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure of any particular investment.

Payment of benefits to withdrawing participants - The plan records benefit payments to withdrawing participants when paid.

Subsequent events - The Plan Administrator has evaluated subsequent events through the date of the independent auditor's report, the date which the accompanying financial statements were available to be issued.

Note 3 - Guaranteed Investment Contract with Insurance Company:

The Plan entered into an investment contract with American United Life Insurance (AUL). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The guaranteed interest accounts are reported at fair market value. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible market value adjustment when funds are withdrawn prior to their maturity. Thus, the guaranteed interest accounts are not considered benefit responsive.

Note 4 - Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (Continued):

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 962-820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels.

Level 1 - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values are based on inputs other than quoted price included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements - Pooled separate accounts (PSAs) invest primarily in a single mutual fund, domestic stocks, international stocks, other pooled separate accounts of AUL, short-term securities such as commercial paper, commercial real estate, and AUL stock. While the underlying assets values are quoted prices, the net asset value (NAV) of a PSA is not publicly quoted. FASB ASC 962-820 allows NAV per share to serve as a practical expedient to estimate the fair value of a PSA as long as certain requirements are met. It is AUL's assessment that these PSAs meet those requirements. FASB ASC 962-820 goes on to state that where NAV is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem its investment at NAV as of the measurement date, that investment shall be categorized as a Level 2 fair value measurement. If the investment cannot be redeemed at the measurement date but may be redeemable in the future, but at an uncertain date, the investment shall be categorized as a Level 3 fair value measurement. These PSAs can be redeemed at NAV as of the measurement date.

Note 4 - Fair Value Measurements (Continued):

Level 3 Fair Value Measurements - The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's Chief Financial Officer and the Plan Custodian and Investment Manager. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table summarizes the Plan's investments reported at fair value based on the valuation methodology applied as of December 31, 2014 and 2013:

The data certified by the Custodian and Investment Manager includes the following financial information reflected in the accompanying financial statements as of and for the years ended December 31, 2014 and 2013:

Note 7 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status:

The IRS has determined and informed the Company by a letter dated January 31, 2006, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 9 - Party-In-Interest:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are units of pooled separate accounts and guaranteed interest accounts in which the accounts' assets are owned by American United Life Insurance. American United Life Insurance is the custodian and investment manager of the Plan and, therefore, is considered a party-in-interest.

Note 10 - Reconciliation of Financial Statements to Form 5500:

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
