1 - DESCRIPTION OF PLAN

GENERAL

SIPLAST, INC. 401(K) SALARY REDUCTION PLAN AND TRUST ("Plan") was established January 1, 1986, for eligible employees of Siplast, Inc. ("Company"). The Plan is a defined contribution plan designed to comply with the Employee Retirement Income Security Act of 1974 ("ERISA"). Lincoln National Life Insurance Company ("Lincoln") ("Custodian") acts as Custodian for the Plan pursuant to an agreement between the Custodian and the Company. The following descriptions provide only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

CONTRIBUTIONS

Employees of the Company age 18 or older may contribute up to 80% of pretax annual compensation, as defined in the Plan, limited to the maximum amount permitted under the applicable Internal Revenue Code ("IRC") regulations. Employees are eligible to participate in the Company's matching contribution after completing one year of eligible service.

Each year the Company will contribute a matching percentage equal to 50% of the participant contributions not exceeding 5% of each eligible employee's annual compensation. The Plan also allows the Company, at management's discretion, to make a profit sharing contribution. There were no profit sharing contributions made during 2014.

Participants may direct these contributions to any of the investments available under the Plan or have the option to allow a third-party to manage the investment allocations without participant intervention.

VESTING

All participant contributions are immediately vested. Employer contributions vest 20% per year, beginning after the second anniversary of their hire date, with full vesting occurring after the sixth year.

FORFEITURES

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures can be used to offset the employer's discretionary contribution or to offset Plan expenses. Forfeitures of \$8,220 were allocated to

participants during the year ended December 31, 2014 for employers discretionary match and \$9,798 was used to offset administrative expenses during the year ended December 31, 2014. At December 31, 2014 and 2013, forfeitures available to be allocated in future years were \$1,090 and \$10,864, respectively.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants represent loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Plan participants may borrow from their accounts an amount generally not to exceed the lesser of \$50,000 or 50% of their vested account balance. The loan must be repaid at a reasonable rate of interest within five years, unless the proceeds are used to purchase the participant's primary residence. Principal and interest are paid ratably through automatic payroll deductions. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the loan to be a distribution, notes receivable from participants is reduced and a benefit payment is recorded.

TERMINATION OF THE PLAN

While the Company has not expressed any intent to do so, it may terminate the Plan at any time. In the event the Plan is terminated, participants would become fully vested in their account balances, and net assets of the Plan would be distributed to participants in accordance with the provisions of the Plan.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contributions, the allocation of the Company's contribution and Plan earnings. Allocations of Plan earnings are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

DISTRIBUTIONS TO PARTICIPANTS

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum payment, installment payments, or payment through the purchase of an annuity contract, equal to the value of the participant's vested account balance. Employees may also take hardship withdrawals on the balance of their account related to their elective deferral contributions.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits and the statement of changes in net assets available for benefits present the contract value of the investment contracts, which has been determined to be fair value.

ESTIMATES AND ASSUMPTIONS

Management uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities. Actual results could vary from the estimates used in preparing the accompanying financial statements.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan presents the net change in fair value of pooled separate accounts and the guaranteed account, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

RISKS AND UNCERTAINTIES

The Plan provides for various investment options in pooled separate accounts and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

3 - FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by Lincoln, the Custodian and a party-in-interest as defined by ERISA, as of December 31, 2014 and 2013 and for the year ended December 31, 2014, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule. This information consists of the following:

	2014	2013
Lincoln National Life Insurance Company Investment Contract:		
Pooled separate accounts	\$ 15,032,466	\$ 15,356,505

4 - FAIR VALUE MEASUREMENTS

Under the Fair Value Measurements and Disclosures topic of the Codification, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

GUARANTEED ACCOUNT

This investment's value is derived from the contract provisions agreed to by the Plan administrator. The Plan administrator has determined to hold contract value as fair value.

4 - FAIR VALUE MEASUREMENTS (Continued)

POOLED SEPARATE ACCOUNTS

These investments are valued at their accumulation unit value ("AUV"). The separate accounts are valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts (typically the beginning AUV is \$10.00) and is then determined daily based on the net asset value ("NAV") of shares of the underlying fund, the fund's dividends and the contract's separate account charges. The fund NAV's are available from the Custodian or, in some cases, from national exchanges. The contract's daily asset charge (separate account charge) is communicated to Plan management in the contract and applicable notice of change.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The investments held by the Plan are measured using Level 2 inputs.

The following table sets forth the Plan's assets at fair value as of December 31, 2014 and 2013:

	2014	2013
Pooled separate accounts:		
Growth	\$ 9,566,130	\$ 10,231,865
Growth and income	3,023,889	2,847,813
Income	1,777,943	1,713,684
Index	664,504	563,143

5 - INVESTMENTS

Investments at December 31, 2014 and 2013 that represent 5% or more of the fair value of net assets available for benefits are as follows:

Investment	2014	2013
Guaranteed Account	\$ 5,233,544	\$ 4,056,976
Federated Government Ultrashort Duration	1,044,893	*
Stadion Managed Growth	3,032,078	3,657,587
Stadion Managed Balanced	1,132,144	1,211,585
Stadion Managed Moderate	4,475,670	4,367,176
Stadion Managed Principle Protected Portfolio	1,403,577	1,442,724

* Investment did not represent more than 5% of net assets available for benefits.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$223,822 as follows:

Pooled separate accounts	\$ 186,717
Guaranteed account	37,105
	<u>\$ 223,822</u>

The Plan entered into a fully benefit-responsive investment contract with Lincoln. Lincoln maintains the contributions in a general account. The account is credited with earnings based on the guaranteed interest crediting rate and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value which approximates contract value as reported by Lincoln. The guaranteed account issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

5 - INVESTMENTS (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was 2.59% for all four quarters of 2014. The crediting rates are set to be at least as high as the guaranteed minimum interest rate for a given contract and are guaranteed for at least one quarter. These rates are established without the use of a specific formula. Such interest rates are reviewed on a quarterly basis for resetting.

Market value adjustments and surrender charges could limit the ability of the Plan to initiate a transaction at contract value and result in an adjustment to the net asset value. There are not any events that allow the issuer to terminate the contract and which require the Plan administrator to settle at an amount different than contract value paid either within 60 days or over time.

6 - TAX STATUS

The prototype Plan document obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The prototype Plan document has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

7 - RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate account and guaranteed account managed by Lincoln. Lincoln is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

8 - SUBSEQUENT EVENTS

Plan management evaluated subsequent events after the statement of net assets available for benefits date of December 31, 2014 through July 22, 2015, which was the date the financial statements were available to be issued and concluded that no additional disclosures are required.
