Employees whose employment is governed by the terms of a collective bargaining agreement (union), non-resident aliens and part-time and seasonal employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company is the Plan's sponsor and administrator. Great-West Trust Company, LLC ("Great-West") serves as the Plan's custodian and First Great-West Life and Annuity Insurance Company serves as the Plan's recordkeeper.

Contributions

All participants in the Plan may make tax deferred cash contributions of 1-25% of eligible compensation up to the maximum allowed by Section 402(g)(1) of the Internal Revenue Code. Effective January 1, 2013, the Plan implemented an automatic deferral amount of 2% from a participant's eligible compensation, unless the participant selects a different election percentage. The Company may make a discretionary matching and profit sharing contribution to a participant's account. For the year ended December 31, 2014, the Company did not make any discretionary matching or profit sharing contributions. Roth contributions are also permitted.

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. The Plan provides for the Company's matching contribution to become 100% vested upon the completion of 6 years of continuous service. Each participant's nonforfeitable percentage is determined under the following table.

Completed years of service	Nonforfeitable percentage vested
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution and an allocation of plan earnings. Allocations are based on the account balances, as defined. The benefit which a participant is entitled to is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants have the option to transfer part or all of their fund balances among various funds within the Plan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant is entitled to receive 100% of the participant's account balance as soon as practicable after the date of retirement, death or termination of employment. For termination of service due to other reasons, as defined, a participant is entitled to 100% of the participant's contributions, and the vested portion of their account attributable to the Company matching contributions. Benefits are recorded when paid.

Note 1 - Description of Plan (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned on the accrual basis. Participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. A participant's loan is secured by the balance in the participant's account and bears interest at prime rate plus 1% determined when the participant applies for the loan. The loans are repaid ratably through payroll deductions over a period of five years or less.

No allowance for credit losses has been recorded at December 31, 2014 or 2013. If a participant ceases to make note repayments and the plan administrator deems the participant note to be a distribution, the participant note balance is reduced and a deemed distribution is recorded.

Corrective Distributions Payable

As of December 31, 2014 and 2013, a refund of contributions to certain participants totaling $2,313 and $8,920, respectively, has been recorded as a result of failing the Plan Imposed Limits on Deferrals in 2014 and Actual Deferral Percentage test under Section 401(k) and the Limitation of Elective Deferrals test under Section 402(g) of the Internal Revenue Code ("IRC") in 2013. The Plan distributed the excess contributions to the applicable participants subsequent to the Plan year ends.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net depreciation of fair value of investments.

Forfeitures

Forfeiture allocations are retained in the Plan and first used to pay administrative expenses. Any remaining forfeitures will be used to reduce the Company's matching contributions, if applicable. Plan assets include $2,631 and $2,706 in forfeited balances at December 31, 2014 and 2013, respectively. Amounts forfeited during 2014 were $41.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Revenue Sharing

The Plan receives revenue sharing fees from the mutual funds that can be used to pay for administrative expenses of the Plan. During 2014, the Plan received revenue sharing fees of $39,566 and these fees were recorded as Other Income in the Statements of Changes in Net Assets Available for Benefits. At December 31, 2014, there were no amounts owed to the Plan from the mutual funds for revenue sharing. This income was used during 2014 to pay Plan expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 – Investments

The following presents the fair value of investments at December 31, (in either 2014 or 2013) that represent 5% or more of the Plan's net assets:

	2014	2013
First GWL&A Key Guaranteed Portfolio Fund	$2,578,535	$2,264,173

Davis NY Venture A	803,936	740,281
Great-West T. Rowe Price Mid-Cap Growth	793,332	662,649

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value and earned interest and dividends as follows:

Note 4 - Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	December 31,	
	2014	2013
Investments:		
Mutual funds	$ 8,004,119	$ 7,100,639

Note 4 - Information Certified by the Plan's Custodian (continued)

	Year ended December 31, 2014
Interest and dividends:	
Interest on notes receivable from participants	$ 8,842
Interest on group annuity contract	30,359
Interest and dividends on mutual funds	711,398
Net depreciation in fair value	(259,548)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Note 5 – Group Annuity Contract

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company ("Great-West") that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The contract is included in the financial statements at fair value which approximates contract value. The account is credited with earnings of the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value on a daily basis. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $2,578,535 and $2,264,173, respectively. The crediting interest is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reset quarterly and averaged 1.25% and 1.26% during 2014 and 2013, respectively.

Note 5 – Group Annuity Contract (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

a) amendments to the Plan document (including complete or partial Plan termination or merger with another plan),
b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
c) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or
d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that any event which would limit the Plan's ability to transact at contract value with participants has occurred. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Note 6 - Fair Value Measurements (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Group annuity contract: The group annuity contract is valued at contract value, which approximates fair value (see Note 5).

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

Note 7 – Receivable from Employer

In August 2014, the Company completed a self-correction of an operational failure to enact a Plan amendment effective January 1, 2013. The Plan amendment included an automatic enrollment feature of participant contributions for new hires and all participants in the Plan as of January 1, 2013 who had not elected salary deferrals. The operational failure was limited to the Company's failure to timely provide the affected participants with enrollment materials to participate in the Plan. The failure was discovered in November 2013 and pertained to contributions for 2013. Participants were given proper enrollment elections effective January 1, 2014. A total of 129 participants were affected. In 2014, the Company contributed $59,866 in lost contributions and $2,264 in lost earnings thereon on behalf of the participants.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the Company is required to direct the timely distribution of the participant's account balances. Each participant will receive either the entire amount finally credited to the participant's account, or such amount as may be held by the Trustees until the participant's normal retirement date.

Note 10 - Income Tax Status

The Internal Revenue Service has determined and informed Great-West Trust Company, LLC, the Plan's custodian, via a favorable opinion letter dated March 31, 2008 that the Prototype Standardized Profit Sharing Plan with CODA (the prototype plan upon which the Plan is based) is qualified under Section 401(a) of the Internal Revenue Code ("IRC") and that the Trust is exempt from Federal income taxes under Section 501(a), which provides that income is taxable only upon distribution thereof.

As of the financial statement date, the Plan has not applied for a favorable determination letter from the Internal Revenue Service to confirm its tax-exempt status. However, in the opinion of the Plan's Trustees, the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and qualifies the Plan and related trust forms for tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 11 - Party-In-Interest Transactions

Great-West Trust Company, LLC is the custodian of the Plan's assets. Certain participant investments are in Great-West Life & Annuity Insurance Company investment vehicles, which are managed by Great-West Trust Company, LLC and these transactions are considered as party-in-interest transactions.

Participant loans granted in accordance with the Plan are secured by the balances in the participants' accounts. These transactions are considered as party-in-interest transactions.

Administrative fees incurred by the Plan and paid to the custodian for the year ended December 31, 2014 amounted to $14,258 and are considered as party-in-interest transactions.

Note 12 - Risks and Uncertainties

The Plan invests in various mutual fund investment securities and a group annuity contract. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 13 – Subsequent Events

The Company has evaluated subsequent events from January 1, 2015 through September 28, 2015, the date the financial statements were available to be issued, and has determined that there are no events to disclose.
