Notes to the Financial Statements

1. Description of Plan

The following description of the Excel Hotel Group, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, which became effective January 1, 2008, is a defined contribution plan covering substantially all full-time employees of Excel Hotel Group, Inc. and participating affiliates (collectively, the "Company") age 21 or older who have completed 1 year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, subject to Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribution amounts representing distributions from other qualified plans and certain individual retirement accounts. These rollover amounts plus earnings thereon may be withdrawn from the Plan as a lump sum distribution during employment. The Company contributes an amount equal to 100% of the participant's elective deferral not to exceed 3% of compensation.

During 2014, Company matching contributions totaled $27,887, including forfeitures and excess contributions payable to participants. Additionally, the Company may make discretionary profit sharing contributions to the Plan.

Participant and Company contributions may not exceed Internal Revenue Code (IRC) limitations.

Participant Accounts - Each participant's account is credited with the participant and Company contributions, and an allocation of investment earnings (losses) and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participants' accounts are participant-directed.

Excel Hotel Group, Inc. 401(k) Profit Sharing Plan

Vesting – Participants are fully (100%) vested in all participant contributions plus actual earnings thereon. Employer contributions vest in accordance with the Plan's graduated vesting schedule as follows:

Years of Vesting Service Completed	Vesting Percentages
Less than 1 year	0%
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A year of vesting service is a vesting service period in which an employee has at least 1,000 hours of service. Notwithstanding the above, a participant is fully vested in his entire account upon the attainment of normal or early retirement age or upon his death or total and permanent disability prior to termination.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's vested account and bear interest at fixed interest rates currently being charged by commercial lenders for loans of comparable risk on similar terms and for similar durations. Principal and interest is paid ratably through payroll deductions. Participants are limited to five approved loans in any 12-month period.

Payment of Benefits - If a participant's account balance is less than $5,000 on termination of service due to death, permanent disability, retirement or other reasons, a participant will receive a lump sum payment equal to his or her vested account balance. If a participant's account balances is greater than $5,000, the participant may elect to receive a lump sum payment or annuity options. In the event of termination due to death, disability or retirement, a participant will become 100% vested in his or her account balance. In-service withdrawals may be made to participants who have not separated service, provided participants have attained age 59 ½. All participants must begin withdrawing benefits no later than April 1 following the year age 70½ is attained.

Hardship Withdrawals – The Plan permits distributions in the event of a hardship, as defined by the Plan. These distributions are taxable and subject to a tax penalty equal to 10% of the distribution amount if a participant in younger than age 59½. A participant may withdrawal any part of his vested account resulting from elective deferral contributions, matching contributions (other than qualified matching contributions), additional contributions, and discretionary contributions in the event of undue financial hardship. Participants shall not be permitted to make contributions to the Plan for a period of six months following the receipt of the hardship distribution.

Forfeited Accounts – When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account represents a forfeiture. Forfeitures are used to offset future employer contributions or reduce Plan expenses. During 2014, forfeitures were used to reduce employer contributions by $1,687 and reduce Plan expenses by $2,243.

2. Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014, or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan was not able to distribute these 2014 excess pre-tax deferral contributions of $17,776 and excess match contributions of $4,591, including related earnings to applicable participants prior to March 15, 2015. These 2014 excess contributions will be refunded during 2015 and the Company will file a Form 5330 to report and pay related excise taxes.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses – The Plan's administrative expenses are paid by the Plan or the Company, as provided by the Plan document. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fee related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment management fees and operating expenses charged to the Plan are deducted from investment earnings. Consequently, certain investment management fees and operating expenses are not separately reflected in the statement of changes in net assets available benefits and are included in net appreciation or depreciation in the fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014, and 2013.

Common/collective trusts are valued at the net asset value (NAV) of units held in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The NAV is not a publicly quoted price in an active market. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective investment trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Common collective trusts	-	$868,095	-	$868,095

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Common collective trusts	-	$800,871	-	$800,871

4. Investments

The December 31, 2014, and 2013, statements of net assets available for benefits, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company the Plan’s trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes: total investments at fair value, notes receivable from participants, investment income and interest income on notes receivable from participants.

The Plan’s independent accountant did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

The following presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Common/collective trusts		
Principal Trust Target 2010 Fund	$215,271	$203,228
Principal Trust Target 2020 Fund	$93,232	$102,453
Principal Trust Target 2025 Fund	$200,355	$180,507
Principal Trust Target 2030 Fund	$77,305	$66,533
Principal Trust Target 2035 Fund	$118,393	$103,045
Principal Trust Target 2045 Fund	$128,469	$113,276

During 2014, the Plan’s investments collective investment trusts (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in fair value by $42,480.

5. Related Party Transactions

Parties-in-interest are defined under Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

Principal Life Insurance Company provides recordkeeping and administration services to the Plan and, therefore, qualifies as a parties-in-interest. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company is the Plan trustee, as defined by the Plan and, therefore, qualifies as a parties-in-interest.

Fees paid directly from the Plan to parties-in-interest amounted to $9,207 for the year ended December 31, 2014.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provision of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

The Company adopted a prototype non-standardized profit sharing plan sponsored by Principal Life Insurance Company. The prototype plan sponsor has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions on the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500 for December 31, 2014, and 2013:
