OLYMPIC STEEL, INC.
EMPLOYEES' 401(k) RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Olympic Steel, Inc. Employees' 401(k) Retirement Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan established January 1, 1988, to provide retirement benefits for eligible employees of Olympic Steel, Inc. and Subsidiaries (the Company). The Plan also contains provisions for disability and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Each non-union employee becomes eligible to participate in the Plan after completion of one hour of service. An employee must be employed for 12 consecutive months in order to receive the Company matching and non-elective contributions.

Participant Accounts and Contributions

Participants, upon attaining eligibility status, are automatically enrolled at a 3% deferral rate unless they elect not to participate or to participate at a different deferral percentage. Eligible participants may make an election to defer a portion of their compensation not in excess of the maximum allowable deferral under the Internal Revenue Code (IRC). The salary deferral is known as an "elective contribution". The Company may make discretionary matching and profit sharing contributions.

Matching contributions are subject to approval by the Company and for the years ended December 31, 2014 and 2013, the Company made a matching contribution equal to 50% of the participant's elective contribution applicable to that portion of the participant's elective contribution that does not exceed 6% of his compensation. The Company did not make any profit sharing contributions for the years ended December 31, 2014 and 2013.

Each participant has a separate non-elective contribution account, with sub-accounts to reflect discretionary matching and profit sharing contributions, and an additional account for elective contributions and/or rollover contributions.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan.

Investment Options

Participants may direct the manner in which their elective contributions, rollover contributions and the Company's matching and profit sharing contributions are allocated among the investment options available under the Plan. Non-vested amounts related to the Company's profit sharing contributions are maintained in non-participant-directed accounts.

Vesting

Participants are immediately vested in their elective and rollover contributions. Company matching and profit sharing contributions shall be subject to a vesting schedule which calls for 20% vesting after 2 years of service, increasing 20% for each year of service thereafter. In the event an amendment is adopted which affects participant vesting, a participant with three or more years of service may elect to have his vested interest continue to be determined under the former vesting schedule rather than under the new vesting provisions of the amendment.

Forfeitures

Forfeitures are used to reduce company contributions, provided, however, if in a given plan year the forfeitures exceed the company contribution, such forfeitures shall be used to pay plan expenses or allocated to remaining participants in the same manner as company contributions. During 2014 and 2013, forfeitures totaling approximately \$115,000 and \$77,000 respectively, were used to reduce employer contributions or pay plan expenses. Forfeitures remaining at December 31, 2014 and 2013 were approximately \$149,000 and \$115,000, respectively.

Notes Receivable from Participants

The Plan allows for participants to borrow from their accounts a minimum of \$500 and a maximum of 50% of their vested account balance up to \$50,000. The interest rate must be a reasonable rate as determined by the plan administrator. Interest assessed on outstanding loans ranged from 3.25% to 8.25% at December 31, 2014. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. Upon termination, all amounts credited to participant accounts shall become fully vested.

2. SIGNIFICANT ACCOUNTING POLICIES**Basis of Accounting**

The financial statements are prepared on the accrual basis of accounting.

Administrative Expenses

The Plan pays the majority of the administrative expenses.

Investments in Insurance Contracts

As described in Accounting Standard Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Reliance Stable Value Fund-MetLife Series 25053 is a fully benefit-responsive investment contract in a collective trust. As required by ASC 962, the statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis. Certain events may limit ability of the Plan to transact at contract value with issuer. Such events generally include significant changes in the operation, or investment strategies of the Plan or significant events impacting the Plan sponsor. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INVESTMENTS

The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2014 and/or 2013 (all amounts are presented at fair value with the exception of the Reliance Stable Value Fund-MetLife Series 25053 which is stated at contract value):

	2014	2013
Reliance Stable Value Fund-MetLife Series 25053	\$ 9,423,083	\$ 10,218,890
Guggenheim Mid Cap Value	3,372,024	3,885,977
Columbia Select Large Cap Growth Fund	7,045,928	6,954,181
Principal Mid Cap Blend Fund	4,411,969	3,740,733
MFS Value Fund Class R3	6,260,887	5,788,058
Lord Abbett Fundamental Equity Fund Class A	2,735,504	3,702,219
American Funds EuroPacific Growth Fund	2,853,675	3,067,553

The net investment gain (loss) on the statements of changes in net assets available for benefits reflects the gains and losses on investments bought and sold, as well as held during the year, and represents the net appreciation in the various mutual fund investments.

The following table presents information about the net assets relating to the non-participant-directed investments as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Mutual funds	\$ 1,158,454	\$ 1,319,773
Government obligations	260,000	260,000

The trustee has certified to the completeness and accuracy of the year-end balances and net investment income (loss) for the participant-directed investments, except for the cash surrender value of life insurance, on the Plan's financial statements and the accompanying supplemental schedule of assets held at end of year. The trustee has not certified the year-end balances or net investment income (loss) for the non-participant-directed investments, the cash surrender value of life insurance policies or the notes receivable from participants whose values totaled \$3,148,479 and \$3,352,607 at December 31, 2014 and 2013, respectively. Net investment income associated with these investments totaled \$137,066 for 2014 and \$438,068 for 2013, respectively.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Stable Value Fund: Assets are invested in a separate account and valued at fair value by discounting the related cash flows based on interest rates that reflect the performance of the underlying portfolio.

Cash Surrender Value of Life Insurance: Valued based on the cash paid into the policy plus related dividend income retained under the policy.

Israeli Bonds: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Level 1	Level 2	Level 3	Fair Market Value

5. PARTY-IN-INTEREST TRANSACTIONS

Noble-Davis Consulting provides administrative and recordkeeping services. The fees charged for these services for the years ended December 31, 2014 and 2013 were \$89,084 and \$112,832, respectively.

The Plan participates in a revenue-sharing arrangement whereby the plan receives funds to pay certain administrative fees. These funds totaled approximately \$230,500 and \$216,600 for the years ended December 31, 2014 and 2013. The funds received are included in administrative expenses in the statements of changes in net assets available for benefits.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's interest in a collective trust relating to a fully benefit-responsive investment contract is shown at contract value on the accompanying financial statements and fair value on the Form 5500. In addition, in order for the Plan to satisfy the non-discrimination tests required under Section 401(k) of the IRC, certain participants were entitled to refunds of contributions made and earnings on those contributions. These refunds have been recorded as liabilities in the accompanying financial statements, but are reflected on the Form 5500 when paid.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	<u>2014</u>	<u>2013</u>
Net assets available for benefits per the financial statements	\$ 56,237,015	\$ 57,680,125
Adjustment to contract value	321,527	112,696
Refunds due of participant contributions	<u>110,378</u>	<u>150,132</u>
Net assets available for benefits per the Form 5500	<u>\$ 56,668,920</u>	<u>\$ 57,942,953</u>

The following is a reconciliation of certain line items per the 2014 statement of changes in net assets available for benefits to the Form 5500:

	<u>2014</u>
Investment income per the financial statements	\$ 3,000,392
Change in adjustment to contract value	<u>208,831</u>
Total investment income per the Form 5500	<u>\$ 3,209,223</u>
Benefit payments and insurance premiums per the financial statements	\$ 8,376,530
Change in refunds due of participant contributions	<u>39,754</u>
Benefits payments per the Form 5500	<u>\$ 8,416,284</u>

7. FEDERAL INCOME TAXES

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 8, 2010, that the Plan as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the accompanying financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through September 23, 2015, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
